No Power Without an Image Libby Saxton, 2020-09-25 The first detailed study of what filmic images can tell us about iconic photographs No Power Without an Image reveals the multifaceted connections between seven celebrated photographs of political struggles taken between 1936 and 1968 and cinema in all its forms Moving from the paper cinema of magazines via newsreels and film journals to documentary fiction and experimental films this fascinating book draws on original archival research and multidisciplinary icon theory to explore new ways of thinking about the confluence of still and moving images

The Traditio Legis: Anatomy of an Image Robert Couzin, 2015-04-30 This monograph engages in a close reading of the traditio legis highlighting its novelty and complexity to early Christian viewers The image is analyzed as a conflation of two distinct forms of representation each constructed of unusual and potentially multivalent elements , **Time,**

Narrative & the Fixed Image / Temps, narration & image fixe , 2021-10-18 This volume focuses on the relationship between time narrative and the fixed image As such it highlights renewed interest in the temporality of the fixed image probably one of the most important trends in the formal and semiotic analysis of visual media in the past decade The various essays discuss paintings the illustrated covers of books comics or graphic novels photo stories postcards television and video art as well as aesthetic practices that defy categorization such as Chris Marker's masterpiece La Jetée The range of works and practices examined is reflected in the different theoretical approaches and methods used with an emphasis on semiology and narratology and to a lesser extent aesthetics and psychoanalysis The interest of this book however does not stem exclusively from the range and scope of the artefacts examined or the methodological issues that are addressed its fundamental importance rests in the contributors' readiness to question the differentiation between fixed and moving images which all too often provides a convenient if not altogether convincing starting point for image analysis The originality and value of the contribution that Time Narrative and the Fixed Image Temps Narration et image fixe makes to the body of theoretical writing on visual media lies in this challenging and comprehensive approach **Cinema and Art as Archive** Aa. Vv., 2015-03-11 T00:00:00+01:00 As Jacques Derrida wrote in 1995 while considering Archive Fever nothing is less reliable or less clear today than the word archive Nevertheless the historic cultural dimension of the contemporary discursive practices in cinema and art develops in the semantic openness of the term in the repositioning of the idea of archive The individual disciplines involved in one such field history of cinema and art theory of cinema and art aesthetics semiotics philology etc begin to open up to questioning the notion of archive even in negative in other words what after Michel Foucault the archive is not or does not seem to be The archive is not the library of libraries or encyclopedia it is not memory it is not museum it is not a database In recent years the attention focused on such ideas has not so much highlighted the impulses turns and specific forms of art art archive as it has revealed in many ways how the archive concerns us in the interrelation of aesthetic political ethical and legal levels among various disciplinary fields Photo-texts Andy

Stafford,2010-01-01 What do photographs want Do they need any accompaniment in today s image saturated society Can writing inflect photography or vice versa in such a way that neither medium takes precedence Or are they in constant inexorable battle with each other Taking nine case studies from the 1990s French speaking world from France North Africa and the Caribbean this book attempts to define the interaction between non fictional written text caption essay fragment poem and photographic image Having considered three categories of intermediality between text and photography the collaborative the self collaborative and the retrospective the book concludes that the dimensions of their interaction are not simple and two fold visibility versus alongside textuality but threefold and therefore complex Thus the photo text as defined here is concerned as much with orality the demotic the popular the vernacular as it is with visual and written culture That text image collaborations give space to the spoken spectral traces of human discourse suggests that the key element of the photo text is its radical provisionality The Populist Aesthetic of the Rassemblement National and la France Insoumise

Purify and Destroy Jacques Semelin,2007-08-17 How can we comprehend the sociopolitical processes that give rise to extreme violence ethnic cleansing or genocide A major breakthrough in comparative analysis Purify and Destroy demonstrates that it is indeed possible to compare the Holocaust the Rwandan genocide and ethnic cleansing in Bosnia Herzegovina while respecting the specificities of each appalling phenomenon Jacques Semelin achieves this in part by leading his readers through the three examples simultaneously the unraveling of which sometimes converges but most often diverges Semelin s method is multidisciplinary relying not only on contemporary history but also on social psychology and political science Based on the seminal distinction between massacre and genocide Purify and Destroy identifies the main

steps of a general process of destruction both rational and irrational born of what Semelin terms delusional rationality He describes a dynamic structural model with at its core the matrix of a social imaginary that responding to fears resentments and utopias carves and recarves the social body by eliminating the enemy Semelin identifies the main stages that can lead to a genocidal process and explains how ordinary people can become perpetrators He develops an intellectual framework to analyze the entire spectrum of mass violence including terrorism in the twentieth century and before Strongly critical of today's political instrumentalization of the genocide notion Semelin urges genocide research to stand back from legal and normative definitions and come of age as a discipline in its own right in the social sciences

Text, Image, and the Problem with Perfection in Nineteenth-Century France Daniel Sipe, 2016-04-01 In the decades after the French Revolution philosophers artists and social scientists set out to chart and build a way to a new world and their speculative blueprints circulated like banknotes in a parallel economy of ideas Examining representations of ideal societies in nineteenth century French culture Daniel Sipe argues that the dream image of the literary or art historical utopia does not disappear but rather is profoundly altered by its proximity to the social utopianism of the day Sipe focuses on this persistent afterlife in utopias ranging from François René de Chateaubriand's Amerindian utopia in *Atala* 1801 to the utopian spoof of J.J. Grandville's illustrated novel *Un autre monde* 1844 He proposes a new reading of Étienne Cabet's seminal utopian novel *Voyage en Icarie* 1840 and offers an original perspective on the gendered utopias of technological inspiration that authors such as Charles Barbara and Auguste Villiers de l'Isle Adam penned in the second half of the century In addition Sipe considers utopias or important readings of the century's rampant utopianism in among others Victor Hugo Alfred de Vigny Théophile Gautier Charles Baudelaire and Gustave Courbet His book provides the historical context for comprehending the significance and implications of this enigmatic afterlife in nineteenth century utopian art and literature

Language and Beyond / Le langage et ses au-delà, 1998-01-01 The title of this book *Language and Beyond* suggests a dynamic relationship between two poles in which

language is confronted with an otherness that is apparently fundamental to it and towards which it is seen to be reaching But what is the beyond of language Is it an object or an image Do images visual or aural actually constitute a beyond of language The interdependence of words might appear to perpetuate an absence instead and yet signs can also be seen to establish a presence by their very materiality The articles in this collection investigate and therefore postulate some form of dialogue between word and image but they also test semiotic borders examining the various shades of the interdependence conflict or dominance and the orientation of the relationship Ce livre s adresse aux sp cialistes chercheurs et tudians ainsi qu un public plus large aux lecteurs ouverts aux th ories m thodes et pratiques de la recherche interdisciplinaire Son titre sugg re un rapport dynamique entre le langage et ses au del s une bipolarit tour tour assum e et transgress e voire int rioris e Mais quels sont ces au del s Et comment les objets images sons ou repr sentations mentales sont ils investis ou r investis par le langage D s lors que la nature s quentielle de ce dernier semble souligner le caract re d riv et marginal de ses au del s il suffit au contraire de la mat rialit m me des signes pour les projeter au coeur de l expression verbale Les articles de ce recueil postulent un dialogue entre le mot et l image mais scrutent galemment les confins des syst mes de signes les modes et degr s de leurs interd pendances et de leurs oppositions The Ethics of War and Peace Revisited Daniel R.

Brunstetter, Jean-Vincent Holeindre, 2018-01-10 How do we frame decisions to use or abstain from military force Who should do the killing Do we need new paradigms to guide the use of force And what does victory mean in contemporary conflict In many ways these are timeless questions But they should be revisited in light of changing circumstances in the twenty first century The post Cold War post 9 11 world is one of contested and fragmented sovereignty contested because the norm of territorial integrity has shed some of its absolute nature fragmented because some states do not control all of their territory and cannot defeat violent groups operating within their borders Humanitarian intervention preventive war and just war are all framing mechanisms aimed at convincing domestic and international audiences to go to war or not as well as to decide who is justified in legally and ethically killing The international group of scholars assembled in this book critically examine these frameworks to ask if they are flawed and if so how they can be improved Finally the volume contemplates what all the killing and dying is for if victory ultimately proves elusive *What Forms Can Do* Patrick Crowley, Shirley Ann Jordan, 2020

How does form propose a bridge between the text and the world beyond This volume investigates the agency of form across a spectrum of twentieth and twenty first century French and Francophone writings renewing the engagement with form that has been a key feature of French cultural production and of analysis in French studies **On Contemporaneity, after**
