Knowing Fictions Barbara Fuchs,2021-02-05 European exploration and conquest expanded exponentially in the late fifteenth and sixteenth centuries and as the horizons of imperial experience grew more distant strategies designed to convey the act of witnessing came to be a key source of textual authority From the relaci n to the captivity narrative the Hispanic imperial project relied heavily on the first person authority of genres whose authenticity undergirded the ideological armature of national consolidation expansion and conquest At the same time increasing pressures for religious conformity in Spain as across Europe required subjects to bare themselves before external authorities in intimate confessions of their faith Emerging from this charged context the unreliable voice of the p caro poses a rhetorical challenge to the authority of the witness destabilizing the possibility of trustworthy representation precisely because of his or her intimate

involvement in the narrative In *Knowing Fictions* Barbara Fuchs seeks at once to rethink the category of the picaresque while firmly centering it once more in the early modern Hispanic world from which it emerged Venturing beyond the traditional picaresque canon Fuchs traces Mediterranean itineraries of diaspora captivity and imperial rivalry in a corpus of texts that employ picaresque conventions to contest narrative authority By engaging the picaresque not just as a genre with more or less strictly defined boundaries but as a set of literary strategies that interrogate the mechanisms of truth telling itself Fuchs shows how self consciously fictional picaresque texts effectively encouraged readers to adopt a critical stance toward the truth claims implicit in the forms of authoritative discourse proliferating in Imperial Spain
