Retreat With Stilwell China In The 20th Century:

Retreat with Stilwell Jack Belden, 1975 **A History of China in the 20th Century** Lü Peng, 2023-08-14 This book provides readers with rich context and detailed description leading to new perspectives on major historical events in China. Positioned as a thought leader and highly acclaimed arts professional in China, the author is able to give a historical account of China's twentieth century that is richly informed by its valent fields of political economy and cultural studies. Western readers' knowledge of China's twentieth century remains based on pioneering research of modern scholars such as Fairbank and Jonathan Spence. In recent years, however, it is rare to see a complete history of China spanning the nineteenth and twentieth centuries, which also includes the first two decades of the twenty-first century. This book contributes new narrative and perspective to this span of history. Now, as the Sino-US trade conflict makes dramatic impact on a post-COVID global economy, readers have the need for a fresh understanding of how China came to be what it is today. The author's groundbreaking work provides new insight provided by newly uncovered sources explaining how China came to be what it is today from a cultural and sociological perspective in a historical mode. *20th Century China* Oliver Edmund Clubb, 1972

United States-Asian Relations in the 20th Century Young Hum Kim, 1996 *The U.S. and the War in the Pacific, 1941-45* Sandra Wilson, Michael Sturma, Arjun Subrahmanyam, Dean Aszkielowicz, J. Charles Schencking, 2022-01-26 The US and the War in the Pacific 1941-45 analyzes the Pacific War with a focus on America's participation in the conflict. Fought over a great ocean and vast battlefields using the most sophisticated weapons available, the Pacific War transformed the modern world. Not only did it introduce the atomic bomb to the world, it also reshaped relations among nations and the ways in which governments dealt with their own peoples. It changed the balance of power in the Pacific in fundamental ways and helped to spark nationalist movements throughout Asia. This book examines the strategies, technologies, intelligence capabilities, home front mobilization, industrial production, and resources that ultimately enabled the United States and its allies to emerge victorious. Major themes include the impact of war, conceptions of race, Japanese perspectives on the conflict, and America's relations with its allies. Using primary documents, maps, and concise writing, this book provides students with an accessible introduction to an important period in history. Incorporating recent scholarship and conflicting interpretations, the book provides an insightful overview of the topic for students of modern American history. World War II and the Asia Pacific *Journalism's Roving Eye* John Maxwell Hamilton, 2011-08-15 In all of journalism, nowhere are the stakes higher than in foreign news gathering. For media owners, it is the most difficult type of reporting to finance; for editors, the hardest to oversee. Correspondents roaming large swaths of the planet must acquire expertise that home-based reporters take for granted: facility with the local language, for instance, or an understanding of local cultures. Adding further to the challenges, they must put news of the world in context for an audience with little experience and often limited interest in foreign affairs. a

task made all the more daunting because of the consequence to national security In *Journalism's Roving Eye* John Maxwell Hamilton a historian and former foreign correspondent provides a sweeping and definitive history of American foreign news reporting from its inception to the present day and chronicles the economic and technological advances that have influenced overseas coverage as well as the cavalcade of colorful personalities who shaped readers' perceptions of the world across two centuries From the colonial era when newspaper printers hustled down to wharfs to collect mail and periodicals from incoming ships to the ongoing multimedia press coverage of the Iraq War Hamilton explores journalism's constant and not always successful efforts at dishing the foreign news as James Gordon Bennett put it in the mid nineteenth century to describe his approach in the *New York Herald* He details the highly partisan coverage of the French Revolution the early emergence of special correspondents and the challenges of organizing their efforts the profound impact of the non yellow press in the run up to the Spanish American War the increasingly sophisticated machinery of propaganda and censorship that surfaced during World War I and the golden age of foreign correspondence during the interwar period when outlets for foreign news swelled and a large number of experienced independent journalists circled the globe From the Nazis' intimidation of reporters to the ways in which American popular opinion shaped coverage of Communist revolution and the Vietnam War Hamilton covers every aspect of delivering foreign news to American doorsteps Along the way Hamilton singles out a fascinating cast of characters among them Victor Lawson the overlooked proprietor of the *Chicago Daily News* who pioneered the concept of a foreign news service geared to American interests Henry Morton Stanley one of the first reporters to generate news on his own with his 1871 expedition to East Africa to find Livingstone and Jack Belden a forgotten brooding figure who exemplified the best in combat reporting Hamilton details the experiences of correspondents editors owners publishers and network executives as well as the political leaders who made the news and the technicians who invented ways to transmit it Their stories bring the narrative to life in arresting detail and make this an indispensable book for anyone wanting to understand the evolution of foreign news gathering Amid the steep drop in the number of correspondents stationed abroad and the recent decline of the newspaper industry many fear that foreign reporting will soon no longer exist But as Hamilton shows in this magisterial work traditional correspondence survives alongside a new type of reporting *Journalism's Roving Eye* offers a keen understanding of the vicissitudes in foreign news an understanding imperative to better seeing what lies ahead *Monographic Series* Library of Congress, 1975 *The Publishers' Trade List Annual*, 1977
