Jin Yong's Martial Arts Fiction and the Kungfu Industrial Complex Paul B. Foster, 2023-02-13 Jin Yong's Martial Arts Fiction and the Kungfu Industrial Complex is an analysis of the role of Jin Yong's stories and characters in the construction of the kungfu industrial complex, a complicated multi-dimensional cultural business matrix related to the production and consumption of martial arts fiction film and legacy. The author first explicates the kungfu cultural literacy that makes Jin Yong's characters and stories intelligible and compelling to a wide audience and then argues that academic resistance to integrating his pop fiction into the canon of Chinese literature is overcome via the national character discourse. The author subsequently explores the role of actors, directors, and crews as they repeatedly adapted the novels for film and television and provided afterlives for Jin Yong's characters, stories, and tropes, both kicking off actors' careers and driving the globalization of kungfu action. Archetypal characters, multidimensional production and consumption of cultural capital, and star power meet in a final analysis of the Kung Fu Hustle, which balances critical reality and a hopeful vision for China's future.

It is also well known for its martial arts tradition and has long been regarded as a special cultural heritage site and an important symbol of the Chinese nation. This book is the first scholarly work in English to comprehensively examine the full history of Shaolin Monastery from 496 to 2016. More importantly, it offers a clear grasp of the origins and development of Chan Buddhism through an examination of Shaolin and highlights the role of Shaolin and Shaolin kung fu in the construction of a national identity among the Chinese people in the past two centuries.
