## Return Of The Furies:

**Return of the Furies** Hollida Wakefield, Ralph C. Underwager, 1994 Recovered memory therapy which has become a rapidly growing industry in the past ten years is based on the controversial theory that adults often suffer emotional problems because of forgotten childhood traumas People who experience everyday difficulties like anxiety of overeating are now often told by therapists that the root of their trouble is a repressed memory of abuse in childhood The cure is to bring back the memory a process that usually takes many months and then publicly humiliate the alleged perpetrators of the abuse most often the victim s parents But are the supposed memories recovered in therapy genuine Or are they concocted by therapists and clients in the course of therapy Attempts to find independent corroboration of recovered memories have drawn a blank Contrary to folklore there is not a shred of scientific evidence for the notion that a memory can be repressed and there is plenty of evidence that false memories can be created A New Law-dictionary Giles Jacob, 1729 **The Scandal of Self-contradiction** Luca Di Blasi, Manuele Gragnolati, Christoph F.
