NANCY EBERLE

Return To Main Street A Journey To Another America

E Durkheim

Return To Main Street A Journey To Another America:

Return to Main Street Nancy Eberle,1982-01-01 **Landscape and Images** John R. Stilgoe,2015-02-12 John Stilgoe is just looking around This is more difficult than it sounds particularly in our mediated age when advances in both theory and technology too often seek to replace the visual evidence before our own eyes rather than complement it We are surrounded by landscapes charged with our past and yet from our earliest schooldays we are instructed not to stare out the window Someone who stops to look isn't only a rarity he or she is suspect Landscape and Images records a lifetime spent observing America's constructed landscapes Stilgoe's essays follow the eclectic trains of thought that have resulted from his observation from the postcard preference for sunsets over sunrises to the concept of teen geography to the unwillingness of Americans to walk up and down stairs In Stilgoe's hands the subject of jack o lanterns becomes an occasion to explore centuries old concepts of boundaries and trespassing and to examine why this originally pagan symbol has persisted into our own age Even something as mundane as putting the cat out before going to bed is traced back to fears of unwatched animals and an untended frontier fireplace Stilgoe ponders the forgotten connections between politics and painted landscapes and asks why a country whose vast majority lives less than a hundred miles from a coast nonetheless looks to the rural Midwest for the classic image of itself At times breathtaking in their erudition the essays collected here are as meticulously researched as they are elegantly written Stilgoe's observations speak to specialists whether they be artists historians or environmental designers as well as to the common reader Our landscapes constitute a fascinating history of accident and intent The proof says Stilgoe is all around us **Housing and Planning References** ,1982 New Wine in Old Wineskins R. Stephen Warner,1988 Exploring the roots of resurgent evangelicalism in the United States Stephen Warner tells the story of one small town church from 1959 to 1982 the Presbyterian Church of Mendocino California This book chronicles the actions of the men and women who struggled with and against one another to shape their church Small Town ,1982

Blair & Ketchum's Country Journal ,1984 *Landscape in America* George F. Thompson,1995 The American landscape is astonishing in its diversity from great global cities to sparsely inhabited plains from rich wetlands to huge deserts from mountain peaks to rolling fields of grain from ancient pueblos to suburbia from famous river valleys to old industrial heartlands from backyards to city streets Americans have lived intimately with these landscapes since before recorded history and we continue today to think about and sometimes even struggle over what the land means to whom it belongs and whose hands will shape its appearance in the future In this collection of specially commissioned essays nineteen of America's leading writers artists and scholars come together to ponder the question What is landscape Recognizing that no one person or discipline can possibly provide the whole answer George Thompson has chosen a range of viewpoints that in his words attempts to make links between art and science history and geography photography and literature a land ethic and environmental design management and planning Landscape in America is the first book to explore the idea of landscape

and place in such a broad ranging way Designed for the uncommon common reader it offers a distinctively American perspective on what landscape is what it means and what it represents that will be compelling to the widest possible audience **The Great Lakes Review** ,1982 **Social Conditions in the United States** Mary A. Vance,1985 **Quest for Walden** Loren C. Owings,1997 Ever since Henry David Thoreau penned his masterpiece Walden a chronicle of his two year sojourn in the woods of Concord Massachusetts Americans have yearned for a return to pastoral life to a place where the simplicities and beauty of nature dictate a quality of life not found in modern urban America The metaphor of Walden inspired many to seek out and write about country life and the back to the land movement in America This is the first book length study of that interesting genre the country book written primarily for urban dwellers It gives detailed content analyses of both country life essays and guides to country living from 1863 through 1995 *Landscape in America* George Fletcher Thompson,1990 **Conflict and Change in the Countryside** Guy M. Robinson,1990 The book adopts a three part structure with the first four chapters examining the nature and structure of rural society including the urbanization of rural communities depopulation and counter urbanization **Appleton's Hand-book of American Travel** ,1870 Television in Black-and-white America Alan Nadel,2005 La couverture indigne Alan Nadel s new book reminds us that most of the images on early TV were decidedly Caucasian and directed at predominantly white audiences Television did not invent whiteness for America but it did reinforce it as the norm particularly during the Cold War years Nadel now shows just how instrumental it was in constructing a narrow conservative and very white vision of America During this era prime time TV was dominated by adult Westerns with heroes like The Rebel s Johnny Yuma reincarnating Southern values and Bonanza s Cartwright family reinforcing the notion of white patriarchy programs that Nadel shows bristled with Cold War messages even as they spoke to the nation s mythology America had become visually reconfigured as a vast Ponderosa crisscrossed by concrete highways designed to carry suburban white drivers beyond the moral challenge of racism racial poverty and increasingly vocal civil rights demands **Appletons' Hand-book of American Travel** ,1870 *Illinois Authors* ,1983 Fifty Glimpses of Worcester and Lake Quinsigamond ,1900 **The Routledge Companion to Native American Literature** Deborah L. Madsen,2015-10-05 The Routledge Companion to Native American Literature engages the multiple scenes of tension historical political cultural and aesthetic that constitutes a problematic legacy in terms of community identity ethnicity gender and sexuality language and sovereignty in the study of Native American literature This important and timely addition to the field provides context for issues that enter into Native American literary texts through allusions references and language use The volume presents over forty essays by leading and emerging international scholars and analyses regional cultural racial and sexual identities in Native American literature key historical moments from the earliest period of colonial contact to the present worldviews in relation to issues such as health spirituality animals and physical environments traditions of cultural creation that are key to understanding the styles allusions and language of Native

American Literature the impact of differing literary forms of Native American literature This collection provides a map of the critical issues central to the discipline as well as uncovering new perspectives and new directions for the development of the field It supports academic study and also assists general readers who require a comprehensive yet manageable introduction to the contexts essential to approaching Native American Literature It is essential reading for anyone interested in the past present and future of this literary culture Contributors Joseph Bauerkemper Susan Bernardin Susan Berry Brill de Ram rez Kirby Brown David J Carlson Cari M Carpenter Eric Cheyfitz Tova Cooper Alicia Cox Birgit D wes Janet Fiskio Earl E Fitz John Gamber Kathryn N Gray Sarah Henzi Susannah Hopson Hsinya Huang Brian K Hudson Bruce E Johansen Judit gnes K d r Amelia V Katanski Susan Kollin Chris LaLonde A Robert Lee Iping Liang Drew Lopenzina Brandy N lani McDougall Deborah Madsen Diveena Seshetta Marcus Sabine N Meyer Carol Miller David L Moore Birgit Brander Rasmussen Mark Rifkin Kenneth M Roemer Oliver Scheiding Lee Schweninger Stephanie A Sellers Kathryn W Shanley Leah Snider David Stirrup Theodore C Van Alst Jr Tammy Wahpeconiah

Disney Theme Parks and America's National Narratives Bethanee Bemis, 2022-12-27 Disney Theme Parks and America's National Narratives takes a public history approach to situating the physical spaces of the Disney brand within memory and identity studies For over 65 years Disney's theme parks have been important locations for the formation and negotiation of the collective memory of the American narrative Disney's success as one of America's most prolific storytellers its rise as a symbol of America itself and its creation of theme parks that immerse visitors in three dimensional versions of certain American values and historic myths have both echoed and shaped the way the American people see themselves Like all versions of the American narrative Disney's vision serves to reassure us affirm our shared values and unite a diverse group of people under a distinctly American identity or at least it did The book shows how the status Disney obtained led the public to use them both as touchstones of identity and as spaces to influence the American identity writ large This volume also examines the following how Disney's original cartoons and live action entertainment offerings drew from American folk history and ideals how their work during World War II cemented them as an American symbol at home and abroad how the materialization of the American themes already espoused by the brand at their theme parks created a place where collective memory lives how legitimization by presidents and other national figures gave the theme parks standing no other entertainment space has how Disney has changed alongside the American people and continues to do so today This book will be of interest to students and scholars of history media cultural studies American studies and tourism

Now & Then ,1927
