Return To The Whorl The Final Volume Of The Of The Short Sun:

Return to the Whorl Gene Wolfe, 2007-04-01 Gene Wolfe's *Return to the Whorl* is the third volume after *On Blue's Waters* and *In Green's Jungles* of his ambitious SF trilogy *The Book of the Short Sun*. It is again narrated by Horn who has embarked on a quest in search of the heroic leader Patera Silk. Horn has traveled from his home on the planet Blue, reached the mysterious planet Green, and visited the great starship the Whorl, and even somehow the distant planet Urth. But Horn's identity has become ambiguous, a complex question embedded in the story whose telling is itself complex, shifting from place to place, present to past. Perhaps Horn and Silk are now one being. *Return to the Whorl* brings Wolfe's major new fiction, *The Book of the Short Sun*, to a strange and seductive climax. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Scores John Clute, 2016-11-24 For more than 50 years John Clute has been reviewing science fiction and fantasy. As *Scores* demonstrates, his devotion to the task of understanding the central literatures of our era has not slackened. There are jokes in *Scores*, and curses and tirades and apologies and riffs, but every word of every review, in the end, is about how we understand the stories we tell about the world. Following on from his two previous books of collected reviews, *Strokes* and *Look at the Evidence*, this book collects reviews from a wide variety of sources, but mostly from *Interzone*, the *New York Review of Science Fiction*, and *Science Fiction Weekly*. Where it has seemed possible to do so without distorting contemporary responses to books, these reviews have been revised, sometimes extensively. 125 review articles over 200 books reviewed in more than 214,000 words.

Gate of Horn, Book of Silk Michael Andre-Driussi, Gene Wolfe, 2012-08-15 In this companion guide, Michael Andre-Driussi illuminates Gene Wolfe's *Book of the Long Sun* and *Book of the Short Sun* science fiction series through dictionary-style entries on the characters, gods, locations, themes, and timelines of the novels. *Gate of Horn*, *Book of Silk* is organized in two parts, with the first half covering the *Long Sun* series: *Nightside the Long Sun*, *Lake of the Long Sun*, *Calde of the Long Sun*, and *Exodus from the Long Sun*, and the second half covering the *Short Sun* series: *On Blue's Waters*, *In Green's Jungles*, and *Return to the Whorl*. *Languages of the Whorl*, a section between the two parts, covers all the dialect, slang, and foreign terms used in the books; thieves' cant, flier language, Tick's talk, and more. Ten maps and diagrams are included. This is Michael Andre-Driussi's third guidebook to the rich tapestries of Gene Wolfe's worlds. As fans of *Lexicon Urthus* and *The Wizard Knight Companion* have noted, each book is both a convenient tool for a question while re-reading the novels, but also an enjoyable read in its own right, from A to Z.

Attending Daedalus Peter Wright, 2003 This new study of the fiction of Gene Wolfe, one of the most influential contemporary American science fiction writers, offers a major reinterpretation of Gene Wolfe's four-volume *The Book of the New Sun* and its sequel *The Urth of the New Sun*. After exposing the concealed story at the heart of Wolfe's magnum opus, Wright adopts a variety of approaches to establish that Wolfe is the designer of an intricate textual labyrinth intended to extend his thematic preoccupations with subjectivity, the unreliability of memory, the manipulation of individuals by social and political systems, and the psychological

potency of myth faith and symbolism into the reading experience *Solar Labyrinth* Robert Borski,2004 Gene Wolfe's BOOK OF THE NEW SUN has been hailed by both critics and readers as quite possibly the best science fiction novel ever written And yet at the same time like another masterpiece of fiction James Joyce's Ulysses it's been deemed endlessly complex and filled with impenetrable mysteries Now however in the first book length investigation of Wolfe's literary puzzlebox Robert Borski takes you inside the twisting corridors of the tetralogy and along the way reveals his solutions to many of the novel's conundrums and riddles such as who really is Severian's lost twin sister almost certainly not who you think and why he believes the novel's main character may not even be the torturer Severian Furthermore and in essay after essay Borski demonstrates how a single master key will unlock many of the book's secret relationships all in the attempt to guide you through the labyrinth that is Gene Wolfe's BOOK OF THE NEW SUN Up Through an Empty House of Stars David Langford,2003-08-01 At last Up Through an Empty House of Stars brings together the best of the never before collected SF reviews and articles that helped build David Langford's towering reputation since 1980 Complementing the review columns collected in The Complete Critical Assembly and the knockabout essays and squibs in The Silence of the Langford this volume's 100 glittering selections mix serious critical insight with the inimitable Langford wit In 2002 David Langford won his sixteenth Hugo award as Best Fan Writer for critical and humorous commentary on SF In the same year his occasionally scandalous SF newsletter Ansible won its fifth Hugo Langford also received the 2001 Hugo for best short story and the 2002 Skylark Award Here he shines a unique light on classics like Ernest Bramah G K Chesterton Robert Heinlein and Jack Vance and analyses major SF and major clunkers and minor eccentrics of the 1980s 1990s and early 2000s continuing to the latest by such current stars as Gene Wolfe and China Miéville Plus witty asides on crime fiction and its SF links gleeful examination of writing so bad it's almost good and even at his most serious turns of phrase to make you laugh aloud
