similarities and differences do humans see between themselves and animals Why do people commonly make metaphorical comparisons between human beings or social groups and animals and to what degree are people's attitudes and beliefs about animals parallel to or contingent upon their attitudes and beliefs about human beings and human society This collection of articles considers these issues The issues are basic in any study of totemism or human and animal relationships and they have been discussed in anthropological literature since the time of Lewis Henry Morgan's work on Iroquois social organization The contributors to this anthology have not limited themselves to the notion that clans and moieties are the only sources and objects of metaphorical comparisons between humans and animals They suggest a shift in perspective that has metaphorical comparisons generated by conceived similarities and differences between animals and particular types of human beings Some examples of this include macaw fledglings as adolescents pumas as fully initiated men and foxes as young married men With this shift of emphasis a significantly different analytic focus in the study of human animal relations is produced

*The Living Ancestors* Zeljko Jokic, 2015-09-01

This phenomenologically oriented ethnography focuses on experiential aspects of Yanomami shamanism including shamanistic activities in the context of cultural change The author interweaves ethnographic material with theoretical components of a holographic principle or the idea that the part is equal to the whole which is embedded in the nature of the Yanomami macrocosm human dwelling multiple soul components and shamans relationships with embodied spirit helpers This book fills an important gap in the regional study of Yanomami people and on a broader scale enriches understanding of this ancient phenomenon by focusing on the consciousness involved in shamanism through firsthand experiential involvement

*Rethinking Zapotec Time* David Tavárez, 2022-02-08 2023 Best Subsequent Book Native American and Indigenous Studies Association 2023 Honorable Mention Best Book in the Social Sciences Latin American Studies Association Mexico Section 2022 Marysa Navarro Best Book Prize New England Council of Latin American Studies As the first exhaustive translation and analysis of an extraordinary Zapotec calendar and ritual song corpus seized in New Spain in 1704 this book expands our understanding of Mesoamerican history cosmology and culture In 1702 after the brutal suppression of a Zapotec revolt the bishop of Oaxaca proclaimed an amnesty for idolatry in exchange for collective confessions To evade conflict

Northern Zapotec communities denounced ritual specialists and surrendered sacred songs and 102 divinatory manuals which preserve cosmological accounts exchanges with divine beings and protocols of pre Columbian origin that strongly resemble sections of the Codex Borgia These texts were sent to Spain as evidence of failed Dominican evangelization efforts and there they remained in oblivion until the 1960s In this book David Tav rez dives deep into this formidable archive of ritual and divinatory manuals the largest calendar corpus in the colonial Americas and emerges with a rich understanding of Indigenous social and cultural history Mesoamerican theories of cosmos and time and Zapotec ancestor worship Drawing on his knowledge of Zapotec and Nahuatl two decades of archival research and a decade of fieldwork Tav rez dissects Mesoamerican calendars as well as Native resistance and accommodation to the colonial conquest of time while also addressing entangled transatlantic histories and shining new light on texts still connected to contemporary observances in Zapotec communities
