Return To The Stars:

Return to the Stars Edmond Hamilton, 2013-10-31 John Gordon twentieth century Earthman is torn from his own time to a far distant future a time when the entire galaxy is inhabited But men do not rule the future our race is only one among thousands and many of those thousands are sworn enemies of humanity Gordon man of the past is forced to form alliances with the men of the future in a desperate battle to save the human race from final annihilation Return to the Stars Erich von Daniken, 1970 *Return to the Stars* Erich von Däniken, 1968 Return from the Stars Stanislaw Lem, 2020-02-18 An astronaut returns to Earth after a ten year mission and finds a society that he barely recognizes Stanis aw Lem s *Return from the Stars* recounts the experiences of Hal Bregg an astronaut who returns from an exploratory mission that lasted ten years although because of time dilation 127 years have passed on Earth Bregg finds a society that he hardly recognizes in which danger has been eradicated Children are betrizated to remove all aggression and violence a process that also removes all impulse to take risks and explore The people of Earth view Bregg and his crew as resuscitated Neanderthals and pressure them to undergo betrization Bregg has serious difficulty in navigating the new social mores While Lem s depiction of a risk free society is bleak he does not portray Bregg and his fellow astronauts as heroes Indeed faced with no opposition to his aggression Bregg behaves abominably He is faced with a choice leave Earth again and hope to return to a different society in several hundred years or stay on Earth and learn to be content With *Return from the Stars* Lem shows the shifting boundaries between utopia and dystopia **Asymptotic Giant Branch Stars** Harm J. Habing, Hans Olofsson, 2013-04-17 This book deals with stars during a short episode before they undergo a major and fatal transition Soon the star will stop releasing nuclear energy it will become a planetary nebula for a brief but poetic moment and then it will turn into a white dwarf and slowly fade out of sight Just before this dramatic change begins the star has reached the highest luminosity and the largest diameter in its existence and while it is a star detectable in galaxies beyond the Local Group its structure contains already the inconspicuous white dwarf it will become It is called an asymptotic giant branch star or AGB star Over the last 30 odd years AGB stars have become a topic of their own although individual members of this class had already been studied for centuries without realizing what they were In the early evolution so called E AGB phase the stars are a bit bluer than but otherwise very similar to what are now called red giant branch stars RGB stars It is only in the second half of their anyhow brief existence that AGB stars differ fundamentally from RGB stars Best Years Charles Affron, Mirella Jona Affron, 2009-08-14 Americans flocked to the movies in 1945 and 1946 the center point of the three decade heyday of the studio system s sound era Why *Best Years* is a panoramic study shining light on this critical juncture in American history and the history of American cinema the end of World War II 1945 and a year of unprecedented success in Hollywood s Golden Age 1946 This unique time the last year of war and the first full year of peace provides a rich blend of cinema genres and types from the battlefield to the home front the peace film to the woman s film psychological drama and the period s

1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine Words of Light Eduardo Cadava,2018-06-05 Here Eduardo Cadava demonstrates that Walter Benjamin articulates his conception of history through the language of photography Focusing on Benjamin s discussions of the flashes and images of history he argues that the questions raised by this link between photography and history touch on issues that belong to the entire trajectory of his writings the historical and political consequences of technology the relation between reproduction and mimesis images and history remembering and forgetting allegory and mourning and visual and linguistic representation The book establishes the photographic constellation of motifs and themes around which Benjamin organizes his texts and thereby becomes a lens through which we can begin to view his analysis of the convergence between the new technological media and a revolutionary concept of historical action and understanding Written in the form of theses what Cadava calls snapshots in prose the book memorializes Benjamin s own thetic method of writing It enacts a mode of conceiving history that is neither linear nor successive but rather discontinuous constructed from what Benjamin calls dialectical images In this way it not only suggests the essential rapport between the fragmentary form of Benjamin s writing and his effort to write a history of modernity but it also skillfully clarifies the relation between Benjamin and his contemporaries the relation between fascism and aesthetic ideology It gives us the most complete picture to date of Benjamin s reflections on history **Christian Work**

Asian Popular Culture Anthony Y.H. Fung, 2013-05-29 This book examines different aspects of Asian popular culture including films TV music comedy folklore cultural icons the Internet and theme parks It raises important questions such as What are the implications of popularity of Asian popular culture for globalization Do regional forces impede the globalizing of cultures Or does the Asian popular culture flow act as a catalyst or conveying channel for cultural globalization Does the globalization of culture pose a threat to local culture It addresses two seemingly contradictory and yet parallel processes in the circulation of Asian popular culture the interconnectedness between Asian popular culture and western culture in an era of cultural globalization that turns subjects such as Pok mon Hip Hop or Cosmopolitan into truly global phenomena and the local derivatives and versions of global culture that are necessarily disconnected from their origins in order to cater for the local market It thereby presents a collective argument that whilst local social formations and patterns of consumption and participation in Asia are still very much dependent on global cultural developments and the phenomena of modernity yet such dependence is often concretized reshaped and distorted by the local media to cater for the local market
