## Returning To The Body:

Anacarnation and Returning to the Lived Body with Richard Kearney Brian Treanor, James L. Taylor, 2022-10-26 This edited collection responds to Richard Kearney's recent work on touch, incarnation and embodiment as well as his broader work in carnal hermeneutics which sets the stage for his return to and retrieval of the senses of the lived body. Here fourteen scholars engage the breadth and depth of Kearney's work to illuminate our experience of the body. The chapters collected within take up a wide variety of subjects from nature and non-human animals to our experience of the sacred and the demonic and from art's account of touching to the political implications of various types of embodiment. Featuring also an inspired new reflection from Kearney himself in which he lays out his vision for anacarnation, this volume is an important statement about the centrality of touch and embodiment in our experience and a reminder that despite the incarnating tendencies of contemporary life, the lived body remains a touchstone for wisdom in our increasingly complicated and fragile world. Written for scholars and students interested in touch, embodiment, phenomenology and hermeneutics, this diverse and challenging collection contributes to a growing field of scholarship that recognizes and attempts to correct the incarnating trends in philosophy and in culture at large.

The Reception of Plato's <Phaedrus> from Antiquity to the Renaissance Sylvain Delcomminette, Pieter d'Hoine, Marc-Antoine Gavray, 2020-07-06 This volume explores the tremendous influence of Plato's *Phaedrus* on the philosophical, religious, scientific and literary discussions in the West. Ranging from Plato's first readers over the Church Fathers and the Platonic commentators to Byzantine and Renaissance thinkers, the papers collected here introduce the reader to the first two millennia of the dialogue's reception history. Thirteen contributions by both junior and established scholars study the engagement with the *Phaedrus* by such major figures as Aristotle, Galen, Origen, Clemens of Alexandria, Plotinus, Augustine, Proclus, Psellus, Ficino, Erasmus and many others. Together they cover the wide range of topics discussed in the dialogue: the value of myth and allegory, religion and theology, love and beauty, the soul and its immortality, teaching and learning, metaphysics and epistemology, rhetoric and dialectic as well as the role and the limits of writing. By placing the dialogue in this broad perspective, the volume will appeal to readers interested in the *Phaedrus* itself as well as to classicists, literary theorists and historians of philosophy, science and religion concerned with the dialogue's reception history and its main protagonists.

Return Statements Gregg Lambert, 2016-08-30 Gregg Lambert examines two facets of the return to religion in the 21st century: the resurgence of overtly religious themes in contemporary philosophy and the global post-secular turn that has been taking place since 9/11. He asks how these two returns to religion can be taking place simultaneously and explores the relationship between them. Lambert reflects on statements of these returns from contemporary philosophers including Alain Badiou, John D. Caputo, Jacques Derrida and Jean-Luc Nancy. He discovers a unique and forboding sense of the term religion that belongs exclusively
