Revealing Prophets David Anderson, Douglas Hamilton Johnson, 1995 This book examines the richly textured histories of prophets and prophecies within East Africa It gives an analytical account of the significantly different forms prophecy has taken over the past century across the country Each of the chapters takes a new look at the active dialogue between prophets and the communities whom they addressed This dialogue continues today as the politicians and activists throughout the region still look to prophetic traditions garnering interpretations of the past in order to provide the validation of prophetic wisdom and heroes for the present

Revealing My Story Dr. Christine Landry Elliott, 2022-04-08 Christine started life as a church girl who abandoned her religious upbringing She ended up a high school dropout drug addict criminal and victim of sexual assault Her crooked path continued when she landed in prison Through it all her mother prayed The power of her mother's faith interceded on Christine's behalf when she had lost all hope Revealing My Story is told with total transparency Part memoir and part testimony about the saving grace of God this book will inspire others who have sinned Do not lose hope because you too can be born again Christine's painful story is also intended to inspire and encourage mothers whose children have strayed away from their Christian values Christine's mother held onto the horns of the altar fasting wailing and travailing on her behalf Her mother's prayers and unconditional love transformed Christine's life by the grace of God Don't give up No matter how difficult don't stop praying The Lord is listening and ready to save you from yourself

God Revealing His Truth Walter Albion Squires, 1921 The Prophetic Realm Riaan Engelbrecht, 2023-01-19 In the Old Testament the prophet would guide the king therefore the people by speaking the will of God and many times the will of God will include correction judgment and warnings Prophets were often ignored in the Old Testament while even back in those days among the true prophets you found many speaking deceptions and lies Today nothing has changed because God does not change Hebrews 13:8 Prophets are still called to lead the corporate church by speaking and declaring the will the purpose and the mandate of God What the prophet utters may contain correction or judgment or it may speak of encouragement direction or wisdom Prophets still speak to nations or even to a multitude of nations declaring the will of God not just unto the Church but unto secular leaders as to warn to guide to direct and to declare the heart and mind of God Thus from the old to the new nothing has changed in regard to the prophet Yet the office is often misunderstood and also shrouded in mystery erroneous perceptions and terrible abuse This series divides the truth

from the myriad of lies misconceptions fallacies and erroneous teachings regarding the prophetic **Revealing the Mysterion** Benjamin Gladd, 2008-12-19 Scholars largely agree that the NT term *mysterion* is a *terminus technicus* originating from Daniel This project traces the word in the Dead Sea Scrolls and other sectors of Judaism Like Daniel the term consistently retains eschatological connotations The monograph then examines how mystery functions within 1 Corinthians and seeks to explain why the term is often employed The apocalyptic term concerns the Messiah reigning in the midst of defeat eschatological revelations and tongues charismatic exegesis and the transformation of believers into the image of the last Adam Revealing the Heart of Prayer Craig G. Bartholomew, 2016-10-05 See Luke's Gospel anew through the lens of prayer In *Revealing the Heart of Prayer* Craig G Bartholomew helps us see how to live and participate effectively in God's mission by looking to Jesus as an example for how we should pray *Proceedings of the XVth International Conference of Ethiopian Studies, Hamburg, July 20-25, 2003* Siegbert Uhlig, 2006 The XVth International Conference of Ethiopian Studies took place in Hamburg in July 2003 More than 400 scientists from over 25 countries participated 130 contributions from the program were selected for this volume They are mostly written in English and deal on the regions of Ethiopia and Eritrea and cover the span from the 4th Century to the present The volume is divided into the following chapters Anthropology 20 Articles History 25 Arts 10 Literature and Philology 10 Religion 5 Languages and Linguistics 25 Law and Politics 10 Environmental Economic and Educational Issues 10 **Nigeria's Christian Revolution** Richard Burgess, 2008 Nigeria has become the arena of one of the most remarkable religious movements of recent times reflecting the shift in the global center of Christianity from the North to the South This book tells the story of one sector of this movement from its root in the Nigerian civil war to the turn of the new millennium It describes a revival that occurred among the Igbo people of Eastern Nigeria and the new Pentecostal churches it generated and documents the changes that have occurred as the movement has responded to global flows and local demands As such it explores the nature of revivalist and Pentecostal experience but does so against the backdrop of local socio political and economic developments such as decolonization and civil war as well broader processes such as modernization and globalization Relationality and Resilience in a Not So Relational World? Nhemachena, Artwell, 2017-03-08 This book critically examines the relevance of the increasingly popular theories on relationality by interfacing those theories with the African Shona modes of engagement known as *chivanhu* often erroneously narrowly translated as tradition In other words the book takes seriously concerns by African scholars that much of the theories that have been applied in Africa do not speak to relevance and faithfulness to the continent Situated in a recent Zimbabwean context marked by multiple crises producing multiple forms of violence and want the book examines the relevance of relational ontologies and epistemologies to the everyday life modes of engagements by villagers in a selected district The book unflinchingly surfaces the strengths and weaknesses of popular theories while at the same time underlining the exigencies of theorising from Africa using African data as the millstones By meticulously and

painstakingly unpacking pertinent issues the book provides unparalleled intellectual grit for the contemporary and increasingly popular discourses on de coloniality and resilience in relation to the African peoples and their often deliberately contested environments past present and future In other words the book loudly sounds the bells for the battles to decolonise and transform Africa on Africa s own terms This is a book that would be extremely useful to scholars activists theorists policy makers and implementers as well as researchers interested not only in Africa s future trajectory but also in the simultaneities of temporalities and worlds that were sadly overshadowed by colonial epistemologies and ontologies for the past centuries

Kodesh,2010-03-12 Winner of the 2011 African Studies Association Herskovits Award *Beyond the Royal Gaze* shifts the perspective from which we view early African politics by asking what Buganda a kingdom located on the northwest shores of Lake Victoria in present day Uganda looked like to people who were not of the center but nevertheless became central to its functioning Drawing on insights from a variety of disciplines history historical linguistics archaeology and anthropology Neil Kodesh argues that the domains of politics and public healing were intimately entwined in Buganda from the sixteenth through the early nineteenth centuries Drawing on extensive fieldwork conducted throughout Buganda Kodesh demonstrates how efforts to ensure collective prosperity and perpetuity usually expressed in the language of health and healing lay at the heart of community building processes in Buganda Kodesh s work offers a novel approach to the use of oral sources and opens up new possibilities for researching and writing histories of more distant periods in Africa s past *Beyond the Royal Gaze* will appeal to students and scholars of health and healing political complexity and the production of knowledge in places where limited documentary evidence exists

Handbook of Christian Prophetism in Africa ,2025-08-14 More than half a century has passed since the first monographs on African Christian prophetism were published The prophetic element was only the most dramatic and prominent part of developments that sought to bring the biblical material alive in ways that had not been experienced in the ecclesiology of Western mission Christianity The ministries of African charismatic figures of the early 20th century were oriented towards the biblical phenomenon of the prophetic and the related issue of divine or faith healing sometimes even to the neglect of the use of bio medical resources The developments have been interrogated in religious studies theology and the sociology and psychology of religion showing how important these churches have been in the African public sphere [Administration - Unraveled](#),
