

## ANTHROPOLOGY

Revelation and Divination  
in Ndembu Ritual  
VICTOR TURNER

Drawing on two and a half years of field work, Victor Turner offers two thorough ethnographic studies of Ndembu revelatory ritual and divinatory techniques, with running commentaries on symbolism by a variety of Ndembu informants. Although previously published, these essays have not been readily available since their appearance more than a dozen years ago. Striking a personal note in a new introductory chapter, Professor Turner acknowledges his indebtedness to Ndembu rituals for sparking him to the theoretical relevance of symbolic action in understanding human societies. He believes that ritual symbols, like botanists' stains, enable us to detect and trace the movement of social processes and relationships that often lie below the level of direct observation.

## The Series

SYMBOL, MYTH, AND RITUAL  
General Editor: VICTOR TURNER

This series provides a forum for current research on myth, ritual, and symbolism in anthropology and other related fields. The primary purpose is to introduce broadly comparative and theoretically significant anthropological studies on the role of symbols. Also included, however, are works in other scientific or humanistic disciplines that are seriously and creatively concerned with comparative symbolism. The series maintains a balance between descriptive and analytic studies; the authors are both younger scholars and established figures of international reputation.

*The Slain God* Timothy Larsen, 2014-08-28 Throughout its entire history the discipline of anthropology has been perceived as undermining or even discrediting Christian faith Many of its most prominent theorists have been agnostics who assumed that ethnographic findings and theories had exposed religious beliefs to be untenable E B Tylor the founder of the discipline in Britain lost his faith through studying anthropology James Frazer saw the material that he presented in his highly influential work *The Golden Bough* as demonstrating that Christian thought was based on the erroneous thought patterns of savages On the other hand some of the most eminent anthropologists have been Christians including E E Evans Pritchard Mary Douglas Victor Turner and Edith Turner Moreover they openly presented articulate reasons for how their religious convictions cohered with their professional work Despite being a major site of friction between faith and modern thought the relationship between anthropology and Christianity has never before been the subject of a book length study In this groundbreaking work Timothy Larsen examines the point where doubt and faith collide with anthropological theory and evidence

*Performing Interpersonal Violence* Werner Riess, 2012-01-27 This book offers the first attempt at understanding interpersonal violence in ancient Athens While the archaic desire for revenge persisted into

the classical period it was channeled by the civil discourse of the democracy Forensic speeches curse tablets and comedy display a remarkable openness regarding the definition of violence But in daily life Athenians had to draw the line between acceptable and unacceptable behavior They did so by enacting a discourse on violence in the performance of these genres during which complex negotiations about the legitimacy of violence took place Performances such as the staging of trials and comedies ritually defined the meaning of violence and its appropriate application Speeches and curse tablets not only spoke about violence but also exacted it in a mediated form deriving its legitimate use from a democratic principle the communal decision of the human jurors in the first case and the underworld gods in the second Since discourse and reality were intertwined and the discourse was ritualized actual violence might also have been partly ritualized By still respecting the on going desire to harm one s enemy this partial ritualization of violence helped restrain violence and thus contributed to Athens relative stability

**The Hausa of Nigeria** Frank A. Salamone,2010 The Hausa of Nigeria is the culmination of thirty nine years of anthropological thought and research and many field trips to Nigeria It is an ethnographic reflection of intense field work in Yauri and the surrounding areas that border it as well as many trips to archives libraries and interview sites It is also the result of discussions with colleagues especially Salamone s mentor Charles Frantz who

Frantz's work on ethnicity as well as ethics in anthropology has served to provide a standard for Salamone's own endeavors. **Liminality and the Modern** Professor Bjørn Thomassen, 2014-08-28

**Liminality and the Modern** offers a comprehensive introduction to this concept, discussing its development and laying out a conceptual and experiential framework for thinking about change in terms of liminality. Applying this framework to questions surrounding the implosion of non-spaces, the analysis of major historical periods, and the study of political revolution, the book also explores its possible uses in social science research and its implications for our understanding of the uncertainty and contingency of the liquid structures of modern society.
