

ANTHROPOLOGY

Revelation and Divination  
in Ndembu Ritual  
VICTOR TURNER

Drawing on two and a half years of field work, Victor Turner offers two thorough ethnographic studies of Ndembu revelatory ritual and divinatory techniques, with running commentaries on symbolism by a variety of Ndembu informants. Although previously published, these essays have not been readily available since their appearance more than a dozen years ago. Giving a personal note in a new introductory chapter, Professor Turner acknowledges his indebtedness to Ndembu rituals for starting him to the theoretical relevance of symbols action in understanding human societies. He believes that ritual symbols, like Totemist claims, enable us to detect and trace the movement of social processes and relationships that often lie below the level of direct observation.

The Series

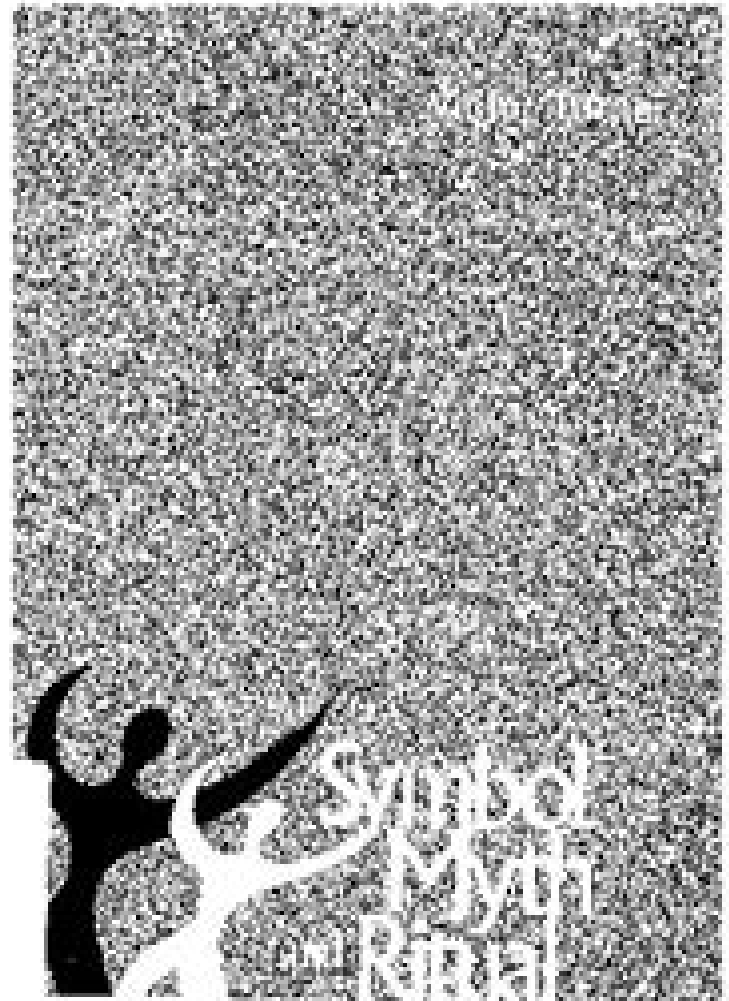

SYMBOL, MYTH, AND RITUAL

General Editor VICTOR TURNER

This series provides a forum for current research on myth, ritual, and symbolism in anthropology and other related fields. The primary purpose is to introduce broadly comparative and theoretically significant anthropological studies on the role of symbols. Also included, however, are works in other scientific or humanistic disciplines that are seriously and productively concerned with comparative symbolism. The series maintains a balance between descriptive and analytic studies; the authors are both younger scholars and established figures of international reputation.
