The New Testament and the Theology of Trust Teresa Morgan, 2022-06-16 This study argues for the recovery of trust as a central theme in Christian theology and offers the first theology of trust in the New Testament Trust is the root meaning of Christian faith *pistis fides* and trusting in God and Christ is still fundamental to Christians But unlike faith and other aspects of faith such as belief or hope trust is little studied Building on her ground breaking study *Roman Faith and Christian Faith* and drawing on the philosophy and psychology of trust Teresa Morgan explores the significance of trust trustworthiness faithfulness and entrustedness in New Testament writings Trust between God Christ and humanity is revealed as a risky dynamic forward looking life changing partnership God entrusts Christ with winning the trust of humanity and bringing humanity to trust in God God and Christ trust humanity to respond to God's initiative through Christ and entrust the faithful with diverse forms of work for humanity and for creation Human understanding of God and Christ is limited and trust and faithfulness often fail but imperfect trust is not a deal breaker Morgan develops a new model of atonement showing how trust enables humanity's release from the power of both sin and suffering She examines the neglected concept of propositional trust and argues that it plays a key role in faith This volume offers a compelling vision of Christian trust as soteriological ethical and community forming Trust is both the means of salvation and an end in itself because where we trust is where we most fully live

Zeigler, 2017-08-29 Hope is a widespread if not a universal human experience For centuries followers of Jesus of Nazareth have ordered their lives around a central hope How is their experience similar to or different from others who live by hope This book seeks an answer in the idea that living by hope involves living within a peculiar story of the world an incomplete story The stories that shape these hopes are threatened by evil however it may be defined The hopeful struggle as characters caught up in plots that move toward resolution They exercise an as yet unverified hope that evil will not prevail In this regard the hope of Christians is similar to others Yet it is different because they wait for the God of Jesus to transform the world to match the promise he made to Abraham To arrive at this conclusion this book takes a detour through four model life organizing stories Christians and participants in other stories of the world may not agree on the ultimate ground for hope However taking a detour into the hopeful experience of another may help uncover a place where rivals can stand together long enough to talk

feminist theory for both critical and constructive ends Linn Marie Tonstad uses queer theory to show certain failures of Christian thinking about God gender and sexuality She employs queer theory to dissect trinitarian discourse and the resonances found in contemporary Christian thought between sexual difference and difference within the trinity Tonstad critiques a broad swath of prominent Christian theologians who either use queer theory in their work or affirm the validity of same sex relationships arguing that their work inadvertently promotes gendered hierarchy This volume contributes to central debates in Christianity over divine and human personhood gendered relationality and the trinity and provides original accounts of God sexual difference and Christian community that are both theologically rich and thoroughly queer
