The Revenge of Thomas Eakins Sidney Kirkpatrick, 2006-03-28 Thomas Eakins was misunderstood in life his brilliant work earned little acclaim and hidden demons tortured and drove him Yet the portraits he painted more than a century ago captivate us today and he is now widely acclaimed as the finest portrait painter our nation has ever produced This book recounts the artist s life in fascinating detail drawing on a treasure trove of Eakins family correspondence and papers that have only recently been discovered Never before has Thomas Eakins s story been told with such drama clarity and accuracy Sidney Kirkpatrick sets the painter s life and art in the wider context of the changing world he devoted himself to portraying and he also addresses the artist s private life the contradictory impulses obsessions and possible psychological illness that fired his work Kirkpatrick underscores Eakins s unflinching integrity as an artist and discloses how his profound appreciation of the beauty of the human form was both the source of his greatness and ultimately of his undoing Nevertheless the author observes Eakins has had his revenge inspiring a new generation of realist painters and gaining the recognition that eluded him in life

**Photography's Materialities** Geoff Bender, Rasmus R. Simonsen, 2021-05-17 There is little dispute that photography is a material practice and that the photograph itself is ineluctably material And yet matter material and materiality have proven to be remarkably elusive terms of inquiry frequently producing studies that are disparate in scope sharing seemingly little common ground Although the wide methodological range of materialist study can be dizzying it is this book s contention that that multiplicity is also the field s greatest asset keeping materialist inquiry enduringly vibrant provided that varying methods are in close enough proximity to converse Photography s Materialities orchestrates one such conversation Juxtaposing the insights of theorists like Lacan Benjamin and Latour beside close studies of crime spirit and composite photography among others this collection aims for a productive synergy one capacious enough to span transatlantic spaces over the long nineteenth century Contributors Kris Belden Adams University of Mississippi Maura Coughlin Bryant University David LaRocca independent scholar Jacob W Lewis University of Rochester Mary Marchand Goucher College Zachary Tavlin Art Institute of Chicago Christa Holm Vogelius University of Copenhagen

to encompass nonhuman beings things and forces By examining a diverse range of cultural acts and material objects created in Philadelphia from Native American artifacts early stoves and literary works to public parks photographs and paintings through the lens of new materialism the essays in *A Greene Country Towne* ask us to consider an urban environmental history in which humans are not the only protagonists This collection reimagines the city as a system of constantly evolving constituents and agencies that have interacted over time a system powerfully captured by Philadelphia artists writers architects and planners since the seventeenth century In addition to the editors contributors to this volume are Maria Farland Nate Gabriel Andrea L M Hansen Scott Hicks Michael Dean Mackintosh Amy E Menzer Stephen Nepa John Ott Sue Ann Prince and Mary I Unger

**Boathouse Row** Dotty Brown, 2016-11-21 The history of Philadelphia's Boathouse Row is both wide and deep Dotty Brown an avid rower and former editor at the *Philadelphia Inquirer* immersed herself in boathouse archives to provide a comprehensive history of rowing in Philadelphia She takes readers behind the scenes to recount the era when rowing was the spectator sport of its time and the subject of Thomas Eakins' early artwork through the heyday of the famed Kelly dynasty and the fight for women to get the right to row Yes it really was a fight and it took generations to win With more than 160 photographs a third of them in full color *Boathouse Row* chronicles the waves of change as various groups of different races classes and genders fought for access to water and the sport Chapters also discuss the architectural one-upmanship that defined Boathouse Row after Frank Furness designed the stunning and eclectic Undine Barge Club and the regattas that continue to take place today on the Schuylkill River including the forgotten forces that propelled high school rowing Beautifully written and illustrated *Boathouse Row* will be a keepsake for rowers and spectators alike

*Signs of Grace* Kristin Schwain, 2008 Religious imagery was ubiquitous in late nineteenth century American life department stores schoolbooks postcards and popular magazines all featured elements of Christian visual culture Such imagery was not limited to commercial and religious artifacts however for it also found its way into contemporary fine art In *Signs of Grace* Kristin Schwain looks anew at the explicitly religious work of four prominent artists in this period Thomas Eakins F Holland Day Abbott Handerson Thayer and Henry Ossawa Tanner and argues that art and religion performed analogous functions within American culture Fully expressing the concerns and values of turn of the century Americans this artwork depicted religious figures and encouraged the beholders' communion with them Describing how these artists drew on their religious beliefs and practices as well as how beholders looked to art to provide a transcendent experience Schwain explores how a modern conception of faith as an individual relationship with the divine facilitated this sanctified relationship between art and viewer This stress on the interior and subjective experience of religion accentuated the artist's efforts to engage beholders personally with works of art how better to fix the viewer's attention than to hold out the promise of salvation Schwain shows that while these new visual practices emphasized individual encounters

with art objects they also carried profound social implications By negotiating changes in religious belief by aestheticizing faith in a new particularly American manner these practices contributed to evolving debates about art ethnicity sexuality and gender

**The Portrait's Subject** Sarah Blackwood,2019-10-22 Between the invention of photography in 1839 and the end of the nineteenth century portraiture became one of the most popular and common art forms in the United States In *The Portrait's Subject* Sarah Blackwood tells a wide ranging story about how images of human surfaces came to signal expressions of human depth during this era in paintings photographs and illustrations as well as in literary and cultural representations of portrait making and viewing Combining visual theory literary close reading and archival research Blackwood examines portraiture's changing symbolic and aesthetic practices from daguerreotype to X ray Portraiture the book argues was a provocative art form used by writers artists and early psychologists to imagine selfhood as hidden deep and in need of revelation ideas that were then taken up by the developing discipline of psychology *The Portrait's Subject* reveals the underappreciated connections between portraiture's representations of the material human body and developing modern ideas about the human mind It encouraged figures like Frederick Douglass Nathaniel Hawthorne Thomas Eakins Harriet Jacobs and Henry James to reimagine how we might see inner life offering a rich array of metaphors and aesthetic approaches that helped reconfigure the relationship between body and mind exterior and interior In the end Blackwood shows how nineteenth century psychological discourse developed as much through aesthetic fabulation as through scientific experimentation

**Portraits and Philosophy** Hans Maes,2019-11-20 Portraits are everywhere One finds them not only in museums and galleries but also in newspapers and magazines in the homes of people and in the boardrooms of companies on stamps and coins on millions of cell phones and computers Despite its huge popularity however portraiture hasn't received much philosophical attention While there are countless art historical studies of portraiture contemporary philosophy has largely remained silent on the subject This book aims to address that lacuna It brings together philosophers and philosophically minded historians with different areas of expertise to discuss this enduring and continuously fascinating genre The chapters in this collection are ranged under five broad themes Part I examines the general nature of portraiture and what makes it distinctive as a genre Part II looks at some of the subgenres of portraiture such as double portraiture and at some special cases such as sport card portraits and portraits of people not present How emotions are expressed and evoked by portraits is the central focus of Part III while Part IV explores the relation between portraiture fiction and depiction more generally Finally in Part V some of the ethical issues surrounding portraiture are addressed The book closes with an epilogue about portraits of philosophers *Portraits and Philosophy* tangles with deep questions about the nature and effects of portraiture in ways that will substantially advance the scholarly discussion of the genre It will be of interest to scholars and students working in philosophy of art history of art and the visual arts
