Franck, 1996 Franck's reexamination of the place of natural law in the early Supreme Court is fresh illuminating and long overdue His scholarship is incisive and profound and the exegeses of early Supreme Court opinions are often brilliant Robert L. Clinton author of *Marbury v. Madison and Judicial Review* The Political Culture of Planning J. Barry Cullingworth, J. Barry Cullingworth, 2002-09-26 *The Political Culture of Planning* is written for two quite distinct readerships The main body of the book synthesizes a mass of information to provide an overview of a complex and amorphous field This material is designed to meet the needs of students who require a succinct account of the American system of land use planning These readers can ignore the notes For those who are embarking upon a much wider and deeper study of land use planning in the US the notes are crucial they provide the guideposts to an immensely rich literature The first four parts of the text present the main issues of land use planning in the US Part 1 assesses the US zoning system The introductory chapter discusses the meaning of zoning and its difference from planning the primacy of local governments the constitutional framework and the role of the courts Chapter two provides the historical background to zoning and an outline of the classic Euclid case Chapter three discusses the objectives and nature of zoning and the use which local governments have made of its inherently inflexible character Chapter four acts as a corrective to this view describing how lawyers and planners have shown remarkable ingenuity in adapting zoning to the demands of a changing society Part 2 deals with the perennial issues of discrimination financing infrastructure for new development and the process for negotiating zoning matters Part 3 presents a discussion of two overlapping issues of increasing significance aesthetics and historic preservation Part 4 focusses on the main issue facing land use planners attempting to channel the forces of development into spatial forms held to be socially desirable Part 5 consists of a series of broad ranging essays which discuss land use planning in the US its institutional and cultural framework and the reasons for its particular character Part 6 discusses the limited possibilities for land use reform in the US drawing on the author's considerable experience in both Britain and Canada in order to interpret the limitations and potentialities of land use planning in the US **An Annotated Bibliography of Inuit Art** Richard C. Sacred Claims Greg Johnson, 2007 The Native American Graves Protection and Repatriation Act NAGPRA of 1990 provides a legal framework within which Native Americans can seek the repatriation of human remains and certain categories of cultural objects including sacred objects from federally funded institutions Although the repatriation movement among Native Americans has heretofore received scholarly attention specifically focused on this act Sacred Claims is the first book to analyze the ways in which religious discourse is used to articulate repatriation claims Greg Johnson takes this act as one instance in a larger context wherein native peoples around the globe must engage legal arenas in order to preserve their heritage Methodologically Sacred Claims is based on a close reading of government documents concerning the law and participant observation in a variety of NAGPRA related events and provides the background and legislative history of the law the life history of the act s axial term cultural affiliation the most delicate and least understood aspect of NAGPRA and several case studies of highly visible and contentious Hawaiian repatriation disputes Johnson then moves beyond the strictly legal context to analyze NAGPRA discourse in the public realm He concludes by way of a theoretical treatment of the foregoing issues arguing that religious language was the chief means by which native representatives ultimately persuaded non native audiences of the applicability of widely held human rights principles to their cultural remains Theorizing modes of cultural vitality in the repatriation context Johnson argues that living tradition is not found in the objects themselves but is instead located in struggles over them With the law on the brink of receiving crucial tests and repatriation issues making daily headlines in Native American and Hawaiian news Sacred Claims is a timely and necessary examination of these issues
