Understanding Primary Education As a Whole: Socio-Cultural Perspectives for Leaders Tony Birch, 2022-02-28

This book explores the foundations of modern primary education and the role that society and culture has had in shaping it. Dismantling assumptions about what education has been or should be, Tony Birch outlines what the core principles are that underpin high quality education to provide a holistic approach. Supporting leaders, practitioners and those studying primary education, this book explains key issues in primary education and what drives them. Highlights the importance of pedagogy and leadership to enrich education. Builds on the existing frameworks in schools to encourage an holistic approach. Emphasises the importance of seeing the range of a child's potential outside of academic expectations. Understanding Primary Education as a Whole is an essential resource for leaders and those studying primary education who want to understand the changing nature of their schools, classrooms and children. All of those leading primary education at whatever level can learn from Tony Birch's analysis of history and competing influences on primary education. This book is systematic, comprehensive and thoughtful. Dr Alison Borthwick, UK and International Freelance Education and Mathematics Consultant. As well as being wise, this book is also engaging, accessible and essentially practical. Read it. Professor Emeritus David Hopkins, www.profdavidhopkins.com. Tony reminds us of the complexity and challenge of primary education, the battles that have been fought around it and the changes in systems and practice that have occurred as a consequence. Michael Tonge, MA, Chief Executive, Prestolee Multi Academy Trust, UK. Tony Birch is Director of Birch Education and a Senior Associate of the Association of Education Advisers. He established Bolton Council's award winning Curriculum ICT team, was Head of School Improvement and also Assistant Director responsible for Education and Learning.

Intervention Research Nyanda McBride, 2016-08-01. This book offers a step by step guide to intervention research including the methods and techniques that researchers, higher degree research students and others can use when pursuing intervention research in schools and other settings. Guided by the Intervention Research Framework, it also provides practical information on linking a program developed using a comprehensive evidence based approach to research and evaluation processes. The handbook also illustrates how to select an appropriate research sample for research, how to develop valid and reliable instruments for measuring change, including how to devise appropriate measures for assessing behavioural change, how to recruit and negotiate with schools and other settings for research involving young people, how to measure and incorporate measures of fidelity of implementation to understand dose response and behavior change and how to optimize data collection and dissemination. The development and longitudinal assessment of the multi award winning School Health and Alcohol Harm Reduction Project SHAHRP, the first alcohol harm reduction study to assess the impact of a school based classroom intervention on alcohol use, alcohol related behaviors and alcohol related harm using a harm reduction paradigm, provides a practical example of the intervention research processes described in this handbook.
