**Reviewing Romanticism** Robin Jarvis, Philip W. Martin, 1992-05-13 This collection of essays by leading and new British scholars demonstrates the different ways in which Romanticism is currently being revalued and reconceived No longer are scholars working within the constraints of the old canon which insisted on the division of the central and the marginal for new Romanticism is being realised as a wider range of cultural activity unconfined by genre gender class rhetoric or style

A Handbook of Romanticism Studies Joel Faflak, Julia M. Wright, 2016-01-19 The Handbook to Romanticism Studies is an accessible and indispensable resource providing students and scholars with a rich array of historical and up to date critical and theoretical contexts for the study of Romanticism Focuses on British Romanticism while also addressing continental and transatlantic Romanticism and earlier periods Utilizes keywords such as imagination sublime poetics philosophy race historiography and visual culture as points of access to the study of Romanticism and the theoretical concerns and the culture of the period Explores topics central to Romanticism studies and the critical trends of the last thirty years The Oxford Handbook of British Romanticism David Duff, 2018 This Handbook provides a comprehensive overview of British Romantic literature and an authoritative guide to all aspects of the movement including its historical cultural and intellectual contexts and its connections with the literature and thought of other countries All the major Romantic writers are covered alongside lesser known writers **The Edinburgh Review in the Literary Culture of Romantic Britain** William

Christie, 2016-06-16 From its first issue published on the 10th October 1802 Francis Jeffrey's Edinburgh Review established a strong reputation and exerted a powerful influence This is a literary study of the Edinburgh Review for over fifty years It contextualizes the periodical within the culture wars of the Romantic era **At the Limits of Romanticism** Mary A.

Favret, Nicola J. Watson, 1994 Examines the feminine the domestic the local collective sentimental and novelistic in the Romantic literary canon This book questions romanticism suppression of the feminine the material and the collective and its opposition to readings centering on these concerns Romanticism and Millenarianism T. Fulford, 2002-01-11 Expectation of the millennium was widespread in English society at the end of the eighteenth century The essays in this volume explore how exactly this expectation shaped and was shaped by the literature art and politics of the period we now call romantic An expanded and rehistoricized canon of writers and artists is assembled a group united by a common tendency to use figurations of the millennium to interrogate and transform the worlds in which they lived and moved Coleridge Cowper Blake and Byron are placed in new contexts created by original research into the artistic and political subcultures of radical London into the religious sects surrounding the Richard Brothers and Joanna Southcott and into the cultural and political contexts of orientalism and empire **Literary Advertising and the Shaping of British Romanticism** Nicholas Mason, 2013-10

Important revisions to the history of advertising and its connection to Romantic era literature Outstanding Academic Title Choice Literary Advertising and the Shaping of British Romanticism investigates the entwined histories of the advertising

industry and the gradual commodification of literature over the course of the Romantic Century 1750 1850 In this engaging and detailed study Nicholas Mason argues that the seemingly antagonistic arenas of marketing and literature share a common genealogy and in many instances even a symbiotic relationship Drawing from archival materials such as publishers account books merchants trade cards and authors letters Mason traces the beginnings of many familiar modern advertising methods including product placement limited time offers and journalistic puffery to the British book trade during the eighteenth and nineteenth centuries Until now Romantic scholars have not fully recognized advertising s cultural significance or the importance of this period in the origins of modern advertising Mason explores Lord Byron s appropriation of branding Letitia Elizabeth Landon s experiments in visual marketing and late Romantic debates over advertising s claim to be a new branch of the literary arts Mason uses the antics of Romantic era advertising to illustrate the profound implications of commercial modernity both in economic practices governing the book trade and more broadly in the development of the modern idea of literature

**Romanticism** Frederick Burwick, 2015-04-20 Compiles 70 of the key terms most frequently used or discussed by authors of the Romantic period and most often deliberated by critics and literary historians of the era Offers an indispensable resource for understanding the ideas and differing interpretations that shaped the Romantic period Includes keywords spanning Abolition and Allegory through Madness and Monsters to Vision and Vampires Features in depth descriptions of each entry s direct meaning and connotations in relation to its usage and thought in literary culture Provides deep insights into the political social and cultural climate of one of the most expressive periods of Western literary history Draws on the author s extensive experience of teaching lecturing and writing on Romantic literature [Romanticism and the Gothic](#) Michael Gamer, 2000-09-04 This is the first full length study to examine the links between high Romantic literature and what has often been thought of as a merely popular genre the Gothic Michael Gamer offers a sharply focused analysis of how and why Romantic writers drew on Gothic conventions whilst at the same time denying their influence in order to claim critical respectability He shows how the reception of Gothic literature including its institutional and commercial recognition as a form of literature played a fundamental role in the development of Romanticism as an ideology In doing so he examines the early history of the Romantic movement and its assumptions about literary value and the politics of reading writing and reception at the end of the eighteenth century As a whole the book makes an original contribution to our understanding of genre tracing the impact of reception marketing and audience on its formation

**Romantic Writing and Pedestrian Travel** R. Jarvis, 1997-08-04 Romantic Writing and Pedestrian Travel is an exploration of the relationship between walking and writing Robin Jarvis here reconstructs the scene of walking both in Britain and on the Continent in the 1790s and analyses the mentality and motives of the early pedestrian traveller He then discusses the impact of this cultural revolution on the creativity of major Romantic writers focusing especially on William and Dorothy Wordsworth Coleridge Clare Keats Hazlitt and Hunt In readings which engage current debates around literature and travel landscape aesthetics ecocriticism

the poetics of gender and the materiality of Romantic discourse Jarvis demonstrates how walking became not only a powerful means of self enfranchisement but also the focus of restless textual energies *Romantic Women Writers Reviewed, Part I Vol 1* Ann R Hawkins, Stephanie Eckroth, 2020-04-27 This multi volume reset collection will addresses significant shortfall in scholarly work offering contemporary reviews of the work of Romantic women writers to a wider audience **British Travel Writers in Europe 1750-1800** Katherine Turner, 2017-11-01 This title was first published in 2001 Hundreds of European travelogues produced by British travellers between 1750 and 1800 remain out of sight in most libraries and have generally been out of print since the 18th century While many people with a working knowledge of the 18th century are familiar with works including Sterne s *A Sentimental Journey* and Smollett s *Travels through France and Italy* those produced by less literary travellers are largely unknown This study aims to recreate the world of 18th century travel writing in order to illuminate its central role in shaping Britain s emerging sense of national identity an identity which proves to be more complex an less homogeneous than some cultural and historical studies would suggest The author finds that the developing discourse of national character is bound up with questions of gender national and authorial virtue are projected in terms of appropriately gendered behaviour for male and female travel writers alike In turn gender intersects with class most obviously in the tendency to denigrate aristocratic travellers as effeminate and celebrate the more manly activities of the middle class traveller These then national identity authorship and gender are the central preoccupations of the study

**Romantic Period Writings, 1798-1832** Ian Haywood, 1998 *Romantic Period Writings 1798 1832* provides a valuable insight into the condition of Britain in the early part of the nineteenth century It includes original documents from a range of disciplines and discourses Each section includes a scholarly introduction select bibliography and annotations Among the material assembled in the anthology are writings by previously neglected or under represented women working class men black radicals and conservative and evangelical polemicists as well as several unfamiliar texts by canonical writers The writings are organised into sections on Radical Journalism Political Economy Atheism Nation and State Race and Empire Gender Literary Institutions **Romantic Feuds** Kim Wheatley, 2016-04-08 Romantic writers such as Robert Southey and Samuel Taylor Coleridge aspired to rise above the so called age of personality a new culture of politicized print gossip and personal attacks Nevertheless Southey Coleridge and other Romantic era figures such as Leigh Hunt William Hazlitt Sydney Owenson and the explorer John Ross became enmeshed in lively feuds with the major periodicals of the day the *Edinburgh Review* and the *Quarterly Review* Kim Wheatley focuses on feuds from the second and third decades of the nineteenth century suggesting that by this time the vituperative rhetoric of the *Edinburgh* and the *Quarterly* had developed into what Coleridge called a habit of malignity Attending to the formal strategies of the reviewers surprisingly creative prose she traces how her chosen feuds take on lives of their own branching off into other print media including the weekly press and monthly magazines Ultimately Wheatley shows these hostile exchanges incorporated literary genres and Romantic themes such as the

idealized poetic self the power of the supernatural and the quest for the sublime By turning episodes of print warfare into stories of transfiguration the feuds thus unexpectedly contributed to the emergence of Romanticism     **'All the World's a Stage'** Charlene Bunnell,2013-12-16 This book examines the often tragic and nearly always disabling metaphor of the theatrum mundi world as stage as it plays itself out in the characters of Mary Shelley's novels     **Romantic Review** ,1929
