Zenilman,Mark R. Katlic,2013-06-29 More than two decades ago in response to the special healthcare needs of the aging American population interest in the field of geriatric medicine began to grow and blossom in the United States In 1984 and 1985 under the editorial leadership of Christine K Cassel and William R Hazzard respectively two major textbooks devoted to the medical care of aged patients were published These scholarly comprehensive texts provided insight into the principles of aging and guidance in the care of the geriatric patient Three editions later the need to understand the special issues involved in the medical care of the elderly is widely accepted by internists primary care providers and medical specialists For the editors of this book the special issues involved in the surgical care of the elderly have been apparent for nearly as long Although there have been a few scholarly texts on the subject including one in 1990 by Mark R Katlic general acceptance of the concept of geriatric surgery by our surgical and medical colleagues has however lagged This is not the result of a proportionately

smaller number of older patients with surgical disease because cancer cardiovascular disease and orthopedic problems are diseases of the aged It is rather the result of uncertainty about the value of surgery in the elderly and concerns about the risks of operations In the past such concerns prevented primary care givers from referring patients for surgical care and prevented surgeons from agreeing to operate Oxygen Transport to Tissue XII J. Piiper, 2013-03-09 The International Society on Oxygen Transport to Tissue ISOTT was founded in 1973 to facilitate the exchange of scientific information among those interested in any aspect of the transport and or utilization of oxygen in tissues Its members span virtually all disciplines extending from various branches of clinical medicine such as anesthesiology ophthalmology and surgery through the basic medical sciences of physiology and biochemistry to most branches of the physical sciences and engineering The seventeenth annual meeting of ISOTT was held in 1989 for four days from July 21 to 24 at the Max Planck Institute for Experimental Medicine and the adjoining University Hospital Klinikum in Goettingen Federal Republic of Germany It attracted 147 active registrants and approximately 40 accompanying persons The very successful format originated by Dr Ian Longmuir in 1985 consisting of posters accompanied by an abbreviated oral summary was continued with slight modification Virtually all of the presentations utilized this format with each poster session preceded by a formal discussion during which the presenter briefly reviewed the poster aided by a few slides All posters remained in place for the entire four days of the meeting
