Pink, George W. Noblit, 2017-01-06 This second handbook offers all new content in which readers will find a thoughtful and measured interrogation of significant contemporary thinking and practice in urban education Each chapter reflects contemporary cutting edge issues in urban education as defined by their local context One important theme that runs throughout this handbook is how urban is defined and under what conditions the marginalized are served by the schools they attend Schooling continues to hold a special place both as a means to achieve social mobility and as a mechanism for supporting the economy of nations This second handbook focuses on factors such as social stratification segmentation segregation racialization urbanization class formation and maintenance and patriarchy The central concern is to explore how equity plays out for those traditionally marginalized in urban schools in different locations around the globe Researchers will find an analysis framework that will make the current practice and outcomes of urban education and their alternatives more transparent and in turn this will lead to solutions that can help improve the life options for students historically underserved by urban schools *Clientelismo en Chile* Aníbal Pérez Contreras, 2020-11-30 Este libro est llamado a convertirse en un aporte indispensable para reevaluar las características del sistema político chileno Novedoso audaz erudito y bien escrito desmitifica las relaciones entre la sociedad y los partidos políticos en Chile durante el siglo XX tradicionalmente consideradas de raigambre ideológica Sin descartar por completo esto nos muestra que el clientelismo ha sido una práctica de larga data en el país y que además ha sido capaz de adaptarse a partir de la década de 1990 a la crisis de representación de los partidos alojándose fuertemente en los gobiernos locales [La paz en el territorio: poder local y posconflicto en Colombia](#) Marcos Criado de Diego, 2018-02-21 El libro La paz en el territorio poder local y posconflicto en Colombia representa una guía importante para la etapa que Colombia comienza a vivir Este libro es el resultado de reflexiones del presente y devenir de Colombia frente a la construcción de paz después de un conflicto de más de cinco décadas Por consiguiente el estudio tanto de las

dificultades como de la ventana de oportunidades de cara a la implementación del Acuerdo de paz con las Fuerzas Armadas Revolucionarias de Colombia FARC es una contribución a las generaciones de paz y una retribución a las víctimas y la sociedad en general. Tras los diálogos de paz en Cuba, estos primeros aportes de la academia son necesarios para entender el papel y los retos que los colombianos, las instituciones y los diferentes actores involucrados en el conflicto deben asumir en la fase de implementación del Acuerdo. La responsabilidad de desarrollar una nueva territorialidad no solo debe recaer en las manos del Estado, sino también en las de la sociedad civil y los individuos. Ejes de la reconciliación y la construcción de paz que comienza. El proyecto de una nueva sociedad resiliente capaz de superar las consecuencias del conflicto armado o nuevas formas de violencia, ser el resultado de la consolidación de una paz territorial en armonía con lo acordado en La Habana. Pero el texto del Acuerdo no es sino una semilla para lo que el país debe hacer en la etapa que comienza a atravesar. Colombia no se puede limitar a entender que la terminación de un conflicto bélico con un grupo armado específico es el último eslabón para la consecución de un país en paz. Al país le urge erradicar la violencia en todas sus expresiones; la sociedad debe eliminar actitudes, creencias y sectarismos que se cristalizan en prácticas conflictivas. Solo la ausencia de violencia tónica no es la suficiente para tener un país en paz, un país normal.

13th International Conference on Intellectual Capital Knowledge Management & Organisational Learning, **Corrupción en Colombia - Tomo IV: Corrupción, Estado e Instrumentos Jurídicos** Juan Carlos Henao, Aníbal Rafael Zárate, 2018-02-01. Con una perspectiva interdisciplinaria que integra información jurídica, social y económica, en este tomo los autores examinan no solo cómo y hasta qué punto el Estado ha sido capturado por la corrupción, sino también las herramientas que se deben desarrollar para erradicar este mal endémico. La falta de transparencia, el escaso control ciudadano a la gestión pública y fallas en el diseño institucional de los organismos del Estado incentivan las prácticas corruptas en todas las ramas del poder público. El enfoque represivo en este caso, la política punitiva tradicional ha demostrado ser insuficiente para combatir la corrupción de ahí que las investigaciones aquí contenidas concuerden en que es necesario fortalecer mecanismos alternativos como el control interno, poner énfasis en la implementación de medidas preventivas y fomentar la tecnificación y las buenas prácticas en el ejercicio de funciones estatales.

Análisis de las políticas de gestión de la responsabilidad social corporativa en el sector bancario español Andrea Pérez Ruiz, 2012. En esta obra se analizan las políticas de gestión de la responsabilidad social corporativa (RSC) que vienen desarrollando en los últimos años las entidades bancarias del sector español. Al mismo tiempo se realiza un análisis estratégico de la eficacia de estas políticas a través del estudio de sus repercusiones en la imagen de los clientes de este tipo de servicios. Para ello se desarrollan dos estudios empíricos con entidades bancarias y consumidores para conocer tanto el rol de la RSC en la identidad corporativa de estas empresas como en su imagen pública y en las expectativas de los usuarios de servicios bancarios. Los resultados indican que es posible anticipar una cierta jerarquía en los intereses de los clientes en materia de RSC y que como consecuencia de la misma existen políticas de gestión más adecuadas para el éxito empresarial que otras.

Dichas estrategias se corresponden fundamentalmente con las seguidas por los grandes bancos nacionales que enfocan sus acciones de RSC específicamente a clientes y empleados dos grupos de interés estratégicos para el éxito y la supervivencia corporativa Las cajas de ahorros por su parte están canalizando sus acciones a través de la Obra Social dirigida a cubrir un amplio espectro de problemáticas sociales La dispersión de estas medidas que no se enfocan a grupos de interés primarios tiene repercusiones significativas en la imagen pública de estas entidades

The Persistence of Local Caudillos in Latin America Tomáš Došek, 2024-03-26 Despite democratization at the national level local political bosses still govern many municipalities in Latin America Caudillos and clans often use informal political practices ranging from clientelism and patronage to harassment of political opposition to control local political dynamics These arbitrary and at times abusive practices pose important challenges to how Latin American democracy works and how power is exercised after the decentralization reforms in the region These reforms promised to bring the government closer to the people and to promote popular participation In many cases these ideals are unmet and newly empowered local politicians have been able to turn municipalities into personal fiefdoms This book explores how local caudillos stay in power and why some are more successful than others in retaining office Tom Došek provides an in depth analysis of six cases from Chile Paraguay and Peru to show the strategies that caudillos pursue to secure power and the mistakes they commit that drive them out
