Revival Of Civil Society Global And Comparative Perspectives:

The Revival of Civil Society Michael G. Schechter, 2016-07-27 What is meant by the concept of civil society Why do some equate it with liberal democracy while others think it simply a guise for a market economy Who benefits from globalization and who loses out Can civil society prosper in an era of globalization Can global civil society restrain some of the negative consequences of economic globalization Through a series of unique case studies and theoretical inquiries this volume provides a set of concrete answers to questions such as these **Global Civil Society and Its Limits** G. Laxer, S. Halperin, 2003-04-30 This volume critically examines the promise of a global civil society Exploring issues in cases of diverse social justice movements the contributors show that a global civil society is still far from emerging and its promotion may even harm the realization of grassroots democracy The Internet is an exciting new means for activists to communicate internationally and citizens movements increasingly co ordinate campaigns through transnational advocacy networks but most effective civic action still takes place at national and local levels Civil Society Howard Wiarda, 2018-02-19 Civil Society focuses on the processes and politics of dismantling corporate state directed economies and political systems in the Third World Howard Wiarda explores how this separation would create a move toward civil societies of free associability and democracy as well as the limits to and pitfalls of this approach The book examines case studies from sub Saharan Africa East Asia Latin America and the Middle East and includes such critical countries as South Africa South Korea Taiwan Indonesia Brazil Mexico and Egypt **Civil Society in Comparative Perspective** Bernard Enjolras, Karl Henrik Sivesind, 2009-12-01 Presents a collection of comparative studies of civil society around two main issues the comparison and analysis of civil society regimes in relation to different constructions of citizenship and welfare states and the role of civil society in governance and active participation of citizens New Regionalisms in the Global Political Economy Shaun Breslin, 2002 Following the financial crisis at the end of the twentieth century regionalisms in the global political economy have evolved in a number of ways This informative book brings together the leading scholars in the field to provide cutting edge analyses of contemporary regions and regionalist projects Providing an innovative integration of theoretical issues with sophisticated analyses of a wide range of international case studies the chapters systematically consider the relationship between globalization financial crisis and regional projects In combination the contributions to this volume provide the widest possible base within the literature for a truly comparative study of contemporary regionalism *European Security* Bjørn Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for

Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it

International Development Governance Ahmed Shafiqul Huque, Habib Zafarullah, 2017-09-25 The establishment of good governance is a major challenge for the developing world along with the need to sustain the progress resulting from developmental efforts Although there are numerous studies on the development and governance of emerging nations few volumes make a serious effort to bring together these two critical concepts International Development Governance combines the two concepts development and governance by examining the issues and problems faced by nations in their attempts to establish sustainable governance This textbook also initiates discussions on the concept of development governance in an international context The book fills the gap in existing literature by drawing upon the experience and expertise of scholars from a broad spectrum of knowledge Their views explain the issues and problems with reference to a number of tools that could establish development governance and sustain it The text offers in depth examinations of developmental sectors resulting in a textbook that will inspire future public officials policy makers and consultants to contribute to the betterment of life for citizens of developing countries

Challenging Global Finance Elizabeth Friesen, 2012-01-25 Friesen demonstrates how transnational CSOs and NGOs can influence the context in which international political decisions are made She shows how by reframing the issues the transnational campaign for the cancellation of third world debt altered the dominant discourse shifted the agenda and thereby shaped political outcomes

Rethinking Globalization(S) NA, 2016-04-30 Contributors from diverse disciplinary ideological and theoretical perspectives examine the multiple aspects and dimensions of globalization By employing a variety of methodological approaches the authors provide insights into the role of numerous agents in furthering the process and project of present and future globalization s as manifested in economic political and cultural domains Furthermore they address the impacts of globalization in nation states emancipatory feminist and environmental movements and migrant communities as well as identify their participation in and opposition to the

phenomena of globalization *The Moral Circle and the Self* Kim Chong Chong, Sor-hoon Tan, C. L. Ten, 2003 Chinese Australian North American and British philosophers probe some conscious and unconscious assumptions in Chinese and western ethics and question some of the common ways the two traditions are distinguished Most of the papers are from a May 2000 workshop in Singapore Annotation 2004 Book News Inc Portland OR booknews.com **Reviving Democracy** Barry Knight, Rajesh Tandon, 2012-05-23 The aim of this text is to analyze the conditions for a good society and from extensive international research to show how citizens can be put at the centre of the political process This has enormous importance for future policy which the authors explore With support from the Commonwealth Foundation the book sets out to change the current political consensus and demonstrate the route forward to sustainable development *Raimo Väyrynen: A Pioneer in International Relations, Scholarship and Policy-Making* Raimo Väyrynen, 2023-01-03 This book provides a broad overview of Professor Raimo Väyrynen's academic work his role in international research organizations and his contributions to policy debates It offers an interesting review of important political issues during the time span of half a century from disarmament in Europe to the changing relationship between state sovereignty and transnational forces Väyrynen has dealt with the changing agenda of peace and international relations security and the arms race and the world economy This book provides comprehensive analyses of the regional and systemic structure of international relations with the emphasis on conflicts and warfare between nations It argues that while states even smaller ones still matter transnational issues are increasingly important Taking a historical perspective the articles suggest that large scale violence and arms races have been recurrent and cyclical phenomena in international relations These events reflect the deep seated inequalities in the political and economic systems which moreover vary considerably between regions The publication is important reading for any researcher as well as students policy makers and the science oriented public at large Traces the changing agenda of international relations from disarmament and the world economy to the changing relationship between state sovereignty and transnational forces Provides analyses of the regional and systemic structure in international relations with the emphasis on conflicts and warfare Argues that large scale violence and the arms race have been recurrent and cyclical phenomena in international relations Reviews important political issues from peace and conflict in Europe to the changing power relationship in the world Civil Society Michael Edwards, 2014-06-05 Civil Society has become a standard work of reference for those who seek to understand the role of voluntary citizen action Recent global unrest has shown the importance of social movements and street protests in world politics However as this lucid book shows the power that people have to shape their societies is usually channeled through day to day participation in voluntary associations and communities expressions of normal civic life beyond the headlines This is the underlying story of civil society This new edition explores issues that have developed rapidly in recent years including the overlaps between civil society and the market in the form of social enterprises and venture philanthropy and the increasing role of social media and information and communication

technologies in civic interaction Different varieties of civil society in the Middle East Africa and elsewhere are investigated in more detail and case studies data and references have been updated throughout Colleges foundations and NGOs policy makers journalists and commissions of inquiry all have used Edwards s book to understand and strengthen the vital role that civil society can play in deepening democracy re building community and addressing inequality and injustice This new edition will be required reading for anyone who is interested in creating a better world through voluntary citizen action The Political Economy of a Plural World Robert W. Cox,Michael G. Schechter,2003-08-29 Building on his seminal contributions to the field Robert W Cox engages with the major themes that have characterized his work over the past three decades and the main topics which affect the globalized world at the start of the twentieth century This new volume by one of the world s leading critical thinkers in international political economy addresses such core issues as global civil society power and knowledge the covert world multilateralism and civilizations and world order With an introductory essay by Michael Schechter which addresses current critiques of Coxian theory the author enters into a stimulating dialogue with critics of his work Timely provocative and original this book is a major contribution to international political economy and is essential reading for all students and academics in the field Another World Is Possible William Fisher,Thomas Ponniah,2015-05-14 In 2001 the first World Social Forum was held in Porto Alegre Brazil The meeting was viewed by many at the time as a new manifestation of the global Left a people s opposition to the World Economic Forum that stood as the first real front to global capitalism since the collapse of the Soviet Union While many activists and intellectuals on the left have since become deeply critical of the Forum newer movements such as Occupy the Arab Spring and the indignados have built upon its successes and innovations Another World is Possible is the original collection of essays and demands from the heart of the movement of movements Based on the work of the first two annual meetings of the WSF this classic collection not only set out the initial aims of the movements that came together it also paved the way for the theoretical study of new social movements their multiple and participatory character Today as many crises affect all our lives it is time to revisit the original demands of a global solidarity movement united in its determination to fight against the concentration of wealth the proliferation of poverty and inequalities and the destruction of our earth and to reconstitute a global left **Another World Is Possible** William F. Fisher,Thomas Ponniah,2003 Many believe that there are no alternatives to globalization as we know it with its world of giant corporations in the driving seat dominating a free market in reality shaped in accordance with their dictates and elevating economics over all other human considerations and values But there are alternatives And the global justice movement is giving voice to them In this remarkable collection the compilers have brought together some of the most important themes and voices which these rapidly growing diverse citizens movements have expressed at the World Social Forum which gathers each year in Porto Alegre Brazil Bioregionalism and Civil Society Mike Carr,2004 Bioregionalism and Civil Society addresses the urgent need for sustainability in industrialized societies The book explores the bioregional

movement in the US Canada and Mexico examining its vision values strategies and tools for building sustainable societies Bioregionalism is a philosophy with values and practices that attempt to meld issues of social and economic justice and sustainability with cultural ecological and spiritual concerns Further bioregional efforts of democratic social and cultural change take place primarily in the sphere of civil society Practically Carr argues for bioregionalism as a place specific community movement that can stand in diverse opposition to the homogenizing trends of corporate globalization Theoretically the author seeks lessons for civil society based social theory and strategy Conventional civil society theory from Europe proposes a dual strategy of developing strong horizontal communicative action among civic associations and networks as the basis for strategic vertical campaigns to democratize both state and market sectors However this theory offers no ecological or cultural critique of consumerism By contrast Carr integrates both social and natural ecologies in a civil society theory that incorporates lessons about consumption and cultural transformation from bioregional practice Carr's argument that bioregional values and community building tools support a diverse democratic socially just civil society that respects and cares for the natural world makes a significant contribution to the field of green political science social change theory and environmental thought

The World Bank and HIV/AIDS Sophie Harman, 2010-06-10 The governance of the HIV AIDS pandemic has come to represent a multi faceted and complex operation in which the World Bank has set and sustained the global agenda for by the World Bank The governance of HIV AIDS Through economic incentive they have restructured the is a political foundations of countries in sub Saharan Africa and the pursuit of change in state project that seeks to embed liberal practice through individual state and societal community behaviour At the heart of this practice is the drive to impose blueprint neoliberal market based solutions on a personal global issue This book unravels how the Bank's good governance agenda and commitment to participation ownership and transparency manifests itself in practice through the Multi Country AIDS Program MAP and crucially how it is pushing an agenda that sees a shift in both global health interventions and state configuration in sub Saharan Africa The book considers the mechanisms used by the Bank and the problems therein to engage the state civil society and the individual in responding to the HIV AIDS crisis and how these mechanisms have been exported to other global projects such as the Global Fund and UNAIDS Harman argues in conclusion that not only has the Bank set the global agenda for HIV AIDS but underpinning this is a wider commitment to liberal governance reform through neoliberal incentive Making an important contribution to our understanding of global governance and international politics this book will be of interest to students and scholars of politics international political economy international relations development studies and civil society

Globalization, the Third World State and Poverty-Alleviation in the Twenty-First Century B. Ikubolajeh Logan, 2017-11-22 This title was first published in 2002 Bringing together an inspiring mix of US and African contributors this book explores the dynamics of the unfolding globalized economic political socio cultural and environmental systems Featuring incisive international commentary on the causes and consequences of

poverty in the Third World it presents a powerful study of the strategies by which Third World governments and civil society can overcome poverty by insinuating themselves more creatively into the global order The result is one of the defining works so far produced on the tensions between globalization and development *Mipes;Econ Lib Democ Civil Soci* NA

NA,2016-04-30 This 12 country comparative volume examines the impact of economic structural adjustment programs upon grassroots civil associations and the implications for political liberalization and democratization in the developing countries of Latin America Africa Asia and the Middle East The authors take an in depth look at the impact of economic reform upon women s groups human rights organizations social welfare non governmental organizations unions and business associations They challenge the prevailing assumption that economic reform will automatically lead to greater democratization
