Reviving Local Democracy New Labour New Politics:

Reviving local democracy Rao, Nirmala, 2000-09-20 Reviving local democracy offers a vivid and persuasive critical examination of New Labour's programme for the modernisation of local government providing a balanced view of the democracy and participation debate Since 1997 the Blair government has sought to mobilise popular participation through local referenda new political structures electoral reform and the creation of powerful new elected mayors Through these mechanisms it is hoped that the lack of public interest and persistently low election turnouts will be overcome The book draws on a wide range of new survey data to relate the crisis of local politics and governance to wider changes in the political culture The author goes on to evaluate the government's proposals to reverse decline asking whether this programme of reform is likely to succeed With the aid of a series of recent surveys of both public and councillor opinion and the successful blending of historical and empirical analysis she offers an assessment of the realities which the democratic renewal project will have to confront in its implementation The book is topical and timely and highly accessible and will appeal to students those involved in local government and anyone concerned to see local government become more representative responsive and open to popular participation [Evaluating New Labour's welfare reforms](#) Powell, Martin, 2002-07-17 The New Labour Government has placed great emphasis on service delivery It has provided performance information in the form of Annual Reports Public Service Agreements Performance Assessment Frameworks and a host of other targets But has New Labour delivered on its welfare reform Evaluating New Labour's welfare reforms provides the first detailed and comprehensive examination of the welfare reforms of New Labour's first term compares achievements with stated aims examines success in the wider context contributes to the debate on the problems of evaluating social policy It is essential reading for academics and students of social policy and provides important information for academics and students in a wide range of areas such as politics sociology public policy public administration and public management interested in welfare reform and policy evaluation **Faith and Social Capital After the Debt Crisis** A. Dinham, 2012-04-24 This book explores what becomes of faiths when seen as social capital In the grip of the current debt crisis where the social and capital seem increasingly unbalanced this book examines whether faiths can help rebalance society through drawing communities together **Party Politics and Local Government** Colin Copus, 2004-08-21 This book is an explanation of the long standing interrelationship between local government and political parties It examines and outlines the differences between the political party outside the council and the political party group of councillors within the council It explores the impact that the party groups have on the conduct of council business decision making and policy development and the impact they have on local representation It addresses two questions that are fundamental to local representative democracy who or what is it that the councillor represents and are councillors elected to govern or to serve **Law, Localism, and the Constitution** John Stanton, 2023-03-24 Local government affects us all Wherever we live in towns cities villages or the

smallest of communities there are locally elected councils tasked with representing people's interests in the running of the local area. This involves inter alia providing public services, maintaining local spaces and acting as a level of democratic governance within the broader constitutional and executive structure of the state. To fulfil these responsibilities though, local government must be democratically legitimate; it must have at its disposal reasonable means and resources to function and it must enjoy a healthy and balanced relationship with centralised government. This book explores and analyses the extent to which local government in the different parts of the United Kingdom is able to function effectively and democratically. It draws from local councillors' views in analysing the state of local government under the current constitutional and governmental arrangements, discussing issues such as councils' relationships with central government, citizen engagement, finance and public services and the impact of recent reforms. It contrasts and compares the different approaches adopted in England, Scotland, Wales and Northern Ireland, also setting out and discussing possible reforms of local government across the United Kingdom. While the focus is on the United Kingdom, the work includes a comparison with other relevant jurisdictions.

The regeneration of east Manchester Georgina Blakeley, Brendan Evans, 2015-11-01 East Manchester has been the site of one of the most substantial regeneration projects internationally. The initiative in east Manchester confirmed the tag that the city is the regeneration capital of the United Kingdom. While the book focuses on a single project, it has wider relevance to national and international regeneration initiatives. The book assesses the outcomes of the regeneration, although it demonstrates the difficulties in producing a definitive evaluation. It has a political focus and illuminates and challenges many assumptions underpinning three major current academic debates: governance, participatory democracy and ideology. The book is relevant to students of politics, geography, sociology, public administration and recent history, but will also interest practitioners, academics and general readers interested in urban regeneration. Mancunians will also be fascinated by the rapidly changing face and character of their city, as will those with an interest in Manchester's football, the Commonwealth Games and Sportcity.

The UK Social Policy Process Catherine Bochel, 2018-06-26 The UK Social Policy Process examines the wide range of factors that influence social policies and their outcomes. Devolution, modernisation, reform of the public services, emphases on public participation and on what works in the delivery of welfare are all impacting on and shaping social policy. Combining coverage of theoretical perspectives with discussion of institutional change, this book provides a timely examination of the policy process and social policy from agenda setting to implementation and evaluation.

Modernizing Governance Janet Newman, 2001-08-03 Explores the politics and policies of New Labour and asks how far they represent a shift in the governance of the UK. **Reshaping the British Constitution** N.

Johnson, 2004-07-02 Reshaping the British Constitution provides a vigorous critique of the deformations of Britain's customary constitution and why it could not effectively stem the growth of a centralized political authority. On this foundation, it provides a critical description and assessment of recent constitutional changes, including devolution, House of Lords reform.

human rights and the encroachment of the European Union Nevil Johnson suggests that since the reform programme has rested on pragmatic political expediency rather than on coherent thinking about constitutional principles it is likely to strengthen the familiar deformations of the customary constitution
