Reviving Cities With Tax Abatement:

Reviving Cities with Tax Abatement Daniel R. Mandelker, Gary Feder, Margaret R. Collins, 1980 Public agencies and private redevelopers have been urban renewal partners for over sixty years While federally subsidized urban renewal initially delegated a major role to the public agencies this program gave way to strategies in which the private sector has been dominant Nowhere is privately sponsored urban renewal more successful than in Missouri where constitutional authority for private tax abated redevelopment has stimulated large scale downtown reinvestment in St Louis and Kansas City Downtown areas have been an especially severe renewal problem as population and employment transfers to the suburbs left many downtowns facing an uncertain future Downtown retailing has declined new construction came to a standstill and buildings were demolished but not replaced Subsidy programs poured millions into downtown renewal often with little success The Missouri experience deserves close analysis as a successful downtown renewal program in which the public role is minimized and a novel tax abatement subsidy provides the renewal incentive The downtown St Louis tax abated urban redevelopment program is the subject of the study presented in this book Part 1 introduces the program outlines its major provisions and details its history in St Louis Part 2 evaluates the effectiveness of the program applies a cost revenue analysis to measure its net benefit to the city and considers equity issues raised by the tax abatement feature The final portion of this book considers the major legal issues that have been litigated in Missouri appellate court decisions A conclusion provides commentary on tax abated private redevelopment as an acceptable redevelopment technique

Mapping Decline Colin Gordon, 2014-09-12 Once a thriving metropolis on the banks of the Mississippi St Louis Missouri is now a ghostly landscape of vacant houses boarded up storefronts and abandoned factories The Gateway City is by any measure one of the most depopulated deindustrialized and deeply segregated examples of American urban decay Not a typical city as one observer noted in the late 1970s but like a Eugene O'Neill play it shows a general condition in a stark and dramatic form Mapping Decline examines the causes and consequences of St Louis's urban crisis It traces the complicity of private real estate restrictions local planning and zoning and federal housing policies in the white flight of people and wealth from the central city And it traces the inadequacy and often sheer folly of a generation of urban renewal in which even programs and resources aimed at eradicating blight in the city ended up encouraging flight to the suburbs The urban crisis as this study of St Louis makes clear is not just a consequence of economic and demographic change it is also the most profound political failure of our recent history Mapping Decline is the first history of a modern American city to combine extensive local archival research with the latest geographic information system GIS digital mapping techniques More than 75 full color maps rendered from census data archival sources case law and local planning and property records illustrate in often stark and dramatic ways the still unfolding political history of our neglected cities

Rebuilding America's Cities Paul R. Porter, 2017-09-04 A growing cooperation between the public and private sectors indicates that the tasks of redevelopment are too large and complex for

either sector to accomplish alone Some people maintain that government can do few things right others are equally distrustful of the private sector As used here the private sector is considered to be all that is not government Each of the success stories illustrated is in part a road to recovery although none appear to have been influenced by a purpose that broad Paul R Porter and David C Sweet present stories of progress in self reliance that concern neighborhood and downtown recoveries school improvement job generation a regained fiscal solvency novel financing techniques helping tenants to become homeowners and a successful venture in self help and tenant management in crime infested neighborhoods The successes stem from the diverse community roles of Yale University a medical center the world s largest research organization the Clorox Company a gas company an insurance company a newspaper neighborhood and downtown organizations city governments and two religious organizations the Mormon Church and the tiny Church of the Savior These stories are located throughout the United States including Akron Baltimore Brooklyn Cincinnati Cleveland Columbus Fort Wayne Indianapolis Milwaukee New Haven Oakland Pittsburgh St Louis St Paul Salt Lake City Springfield Mass Tampa and Washington D C The editors have gathered the work of professionals known in the field of urban studies James W Rouse Donald E Lasater Rolf Goetze Dale F Bertsch Joel Lieske Eugene H Methvin James E Kunde T Michael Smith Robert Mier Carol Davidow Jay Chatterjee June Manning Thomas Norman Krumholz Larry C Ledebur and Robert C Holland

Atlanta's Olympic Resurgence: How the 1996 Games Revived a Struggling City Michael Dobbins, Leon S. Eplan & Randal Roark, 2021 The summer of 1996 In nineteen days six million visitors jostled about in a southern city grappling with white flight urban decay and the stifling legacy of Jim Crow Six years earlier a bold audacious partnership of a strong mayor enlightened business leaders and Atlanta s Black political leadership dared to bid on hosting the 1996 Olympic Games Unexpectedly the city won an achievement that ignited a loose but robust coalition that worked collectively if sometimes contentiously to prepare the city and push it forward This is a story of how once struggling Atlanta leveraged the benefits of the Centennial Games to become a city of international prominence This improbable rise from the ashes is told by three urban planning professionals who were at the center of the story Back cover
