Engerman, David Richardson, 2021-08-12 Medieval slavery has received little attention relative to slavery in ancient Greece and Rome and in the early modern Atlantic world This imbalance in the scholarship has led many to assume that slavery was of minor importance in the Middle Ages In fact the practice of slavery continued unabated across the globe throughout the medieval millennium This volume the final volume in The Cambridge World History of Slavery covers the period between the fall of Rome and the rise of the transatlantic plantation complexes by assembling twenty three original essays written by scholars acknowledged as leaders in their respective fields The volume demonstrates the continual and central presence of slavery in societies worldwide between 500 CE and 1420 CE The essays analyze key concepts in the history of slavery including gender trade empire state formation and diplomacy labor childhood social status and mobility cultural attitudes spectrums of dependency and coercion and life histories of enslaved people *Slavery and Resistance in Africa and Asia* Edward A. Alpers, Gwyn Campbell, Michael Salman, 2013-09-13 First published in 2004 This book previously published as a special issue of the journal Slavery and Abolition provides pioneering studies on the nature and structure of resistance to forms of bondage in Africa Asia and the Indian Ocean world **Black and Slave** David M. Goldenberg, 2017-05-22 Studies of the Curse of Ham the belief that the Bible consigned blacks to everlasting servitude confuse and conflate two separate origins stories etiologies one of black skin and the other of black slavery This work unravels the etiologies and shows how the Curse an etiology of black slavery evolved from an earlier etiology explaining the existence of dark skinned people We see when where why and how an original mythic tale of black origins morphed into a story of the origins of black slavery and how in

turn the second then supplanted the first as an explanation for black skin In the process we see how formulations of the Curse changed over time depending on the historical and social contexts reflecting and refashioning the way blackness and blacks were perceived In particular two significant developments are uncovered First a curse of slavery originally said to affect various dark skinned peoples was eventually applied most commonly to black Africans Second blackness originally incidental to the curse in time became part of the curse itself Dark skin now became an intentional marker of servitude the visible sign of the blacks degradation and in the process deprecating black skin itself

Literature and Film Touria Khannous, 2021-08-27 This book investigates how representations of Black Africans have been negotiated over time in Arabic literature and film The book offers direct readings of a representative selection of primary texts shedding light on the divergent ways these authors understood race across different genres including pre Islamic classical poetry polemical essays travel narratives novels and films Starting with the first recognized Black Arab poet Antara Ibn Shaddad 580 C E and extending right up to the present day the works examined illuminate the changes in consciousness that attended Black Africans as they negotiated their position in Arab society In a twist to Edward Said s Orientalism the book argues that scholars in the Middle East and North Africa generated a hierarchical representational discourse themselves one equally predicated on the Self Other binary However it also demonstrates that Arab racial discourse is not a

linear rhetoric but changes according to history political circumstances and ideologies such as tribal politics the Shu ubiyya movement nationalism and imperialism Blacks and Arabs have had tangled relationships that are based not only on race but also on kinship and solidarity due to trade and other types of connections Challenging fundamental assumptions of Black Diaspora studies and postcolonial studies this book will be of interest to scholars of the African diaspora Arabic literature Middle East studies and critical race studies Who Abolished Slavery? Seymour Drescher, Pieter C. Emmer, João Pedro Marques, 2021-01-11

The past half century has produced a mass of information regarding slave resistance ranging from individual acts of disobedience to massive uprisings Many of these acts of rebellion have been studied extensively yet the ultimate goals of the insurgents remain open for discussion Recently several historians have suggested that slaves achieved their own freedom by resisting slavery which counters the predominant argument that abolitionist pressure groups parliamentarians and the governmental and anti governmental armies of the various slaveholding empires were the prime movers behind emancipation Marques one of the leading historians of slavery and abolition argues that in most cases it is impossible to establish a direct relation between slaves uprisings and the emancipation laws that would be approved in the western countries Following this presentation his arguments are taken up by a dozen of the most outstanding historians in this field In a concluding chapter Marques responds briefly to their comments and evaluates the degree to which they challenge or enhance his view **Illuminating the Blackness** Habeeb Akande, 2016-05-01
