The Man in the Maze Robert Silverberg, 2015-07-28 A diplomat who successfully negotiated with intelligent aliens finds his loyalty to the human race tested in this novel by a Nebula Award winning author Richard Muller was an honorable diplomat who braved unimaginable dangers to make contact with the first known race of intelligent aliens But those aliens left a mark on him a psychic wound that emanates a telepathic miasma his fellow humans can neither cure nor endure Muller is exiled to the remote planet of Lemnos where he is left deeply embittered at the heart of a deadly maze until a new alien race appears seemingly intent on exterminating humanity Only Muller can communicate with them due to the very condition that has made him an outcast But will Muller stick his neck out for the people who so callously rejected him

Up the Line Robert Silverberg, 2019-08-20 A ribald Byzantine tale of time tourism from the multiple Nebula and Hugo Award winning author Tor.com It's 2059 and former law clerk Jud Elliott finds himself at loose ends until a chance meeting with a Time Courier gives him the inspiration to become one himself The

job as a time traveling guide gives him the opportunity to indulge his love of Byzantine history in between shuttling tourists to such monumental events as the crucifixion and the assassination of JFK But there are strict rules to follow as a Time Courier put in place to guard against paradoxes and preserve the sanctity of now time Jud isn't used to following the rules especially when faced with temptation All it takes is one tiny slip here one misplaced step there and Jud could destroy his own timeline and cease to exist in the blink of an eye a practicality that's hard for Jud to grasp when he crosses paths with an eleventh century Byzantium beauty he can't resist A hugely ambitious enormously fun sly paradox peppered piece that chronicles the time tourist trade and all its perils specializing in Byzantine history Strange Horizons This novel is a comedy and it is funny but it is one of those black comedies where things go wrong and then the more the protagonist tries to fix things the more wrong they become until the ending is at one and the same time an O Henry punchline and a deep existential truth neat as a pin and just as sharp Kim Stanley Robinson *The Publishers' Trade List Annual*, 1902 **Science Fact**

and Science Fiction Brian M. Stableford, 2006 Publisher description **The Road to Castle Mount** Edgar L. Chapman, 1999-10-30 One of the most prolific honored and widely read science fiction writers Robert Silverberg has forged a professional career that began in the 1950s and has flourished in succeeding decades From the very beginning he was perceived as a promising and potentially brilliant author and he has persisted long enough to win more Hugo and Nebula Awards than any other writer After first gaining fame for his magazine fiction he embraced the ideals and methods of literary science fiction in the late 1960s and crafted a number of novels marked by symbolism and irony After a period of silence in the 1970s he resumed his career and has attracted growing amounts of critical attention This book offers a broad study of Silverberg's growth as a writer and illuminates a career that still eludes easy assessment Chapman not only explores Silverberg's works but also illuminates the many factors that shaped the evolution of his works What emerges is a complete picture of Silverberg and his craft An introductory chapter overviews Silverberg's career and provides some biographical information The chapters that follow look at various phases in his development These include an apprenticeship period a journeyman period a climactic period of mastery and a second period of mature work following a hiatus in the 1970s Included are discussions of such works as *Revolt on Alpha C* *Thorns* *The Book of Skulls* *Shadrach in the Furnace* and *Lord Valentine's Castle* The volume gives special attention to the larger literary contexts of Silverberg's writings and to the forces that influenced him
