Revolution And History The Origins Of Marxist Historiography In China 1919 1937:

Revolution and History Arif Dirlik, 1989-09-18 A fascinating contribution to Marxist historiography and to the history of Marxist historiography Dirlik's story of the reemergence of the modes of production debate in the early years of the Chinese revolution has much to tell us about that debate itself and not least about its intimate relationship to political practice and revolutionary strategy Fredric Jameson Duke University

Marxist Historiographies Q. Edward Wang, Georg G. Iggers, 2015-07-16 Marxist Historiographies is the first book to examine the ebb and flow of Marxist historiography from a global and cross cultural perspective Since the eighteenth century few schools of historical thought have exerted a more lasting impact than Marxism and this impact extends far beyond the Western world within which it is most commonly analysed Edited by two highly respected authors in the field this book deals with the effect of Marxism on historical writings not only in parts of Europe where it originated but also in countries and regions in Africa Asia North and South America and the Middle East Rather than presenting the chapters geographically it is structured with respect to how Marxist influence was shown in the works of historians in a particular area This title takes a dual approach to the subject some chapters are national in scope addressing the Marxist impact on historical practices within a country whereas others deal with the varied expressions of Marxist historiography throughout a wider region Taking a truly global perspective on this topic Marxist Historiographies demonstrates clearly the breadth and depth of Marxism's influence in historical writing throughout the world and is essential reading for all students of historiography

The Buddha Party John Powers, 2017 The Buddha Party tells the story of how the People's Republic of China employs propaganda to define Tibetan Buddhist belief and sway opinion within the country and abroad The narrative they create is at odds with historical facts and deliberately misleading but John Powers argues it is widely believed by Han Chinese Most of China's leaders appear to deeply believe the official line regarding Tibet which resonates with Han notions of themselves as China's most advanced nationality and as a benevolent race that liberates and culturally uplifts minority peoples This in turn profoundly affects how the leadership interacts with their counterparts in other countries Powers's study focuses in particular on the government's patriotic education campaign an initiative that forces monks and nuns to participate in propaganda sessions and repeat official dogma Powers contextualizes this within a larger campaign to transform China's religions into patriotic systems that endorse Communist Party policies This book offers a powerful comprehensive examination of this ongoing phenomenon how it works and how Tibetans resist it

Chinese Sociology Hon Fai Chen, 2017-09-27 This book examines the institutional development of Chinese sociology from the 1890s to the present It plots the discipline's twisting path in the Chinese context from early Western influences through the institutionalization of the discipline in the 1930s 40s its problematic relationship with socialism and interruptions under Marxist orthodoxy and the Cultural Revolution its revival during the 1980s 90s to the twin trends of globalization and indigenization in current Chinese sociological scholarship Chen argues that in spite of the state

building agenda and persistent efforts to indigenize the discipline the Western model remains pervasively influential due in large part to the influence of American missionaries foundations and scholars in the formation and transformation of the Chinese sociological tradition The history of Chinese sociology is shown to be a contingent process in which globally circulated knowledge above all the American sociological tradition has been adapted to the changing contexts of China This engaging work contributes an important country study to the history of sociology and will appeal to scholars of Chinese history and disciplinary historiography in addition to social scientists Contemporary Anthropologies of the Arts in China Aimin Yan,Luo Yifei,2019-01-24 The anthropology of art in China includes studies of popular arts among the Han in both rural and urban settings and of folk arts among minority peoples The country is currently experiencing rapid social change and aesthetic values are being transformed Chinese scholars have both an exciting range of dramatic case studies to present and their own distinctive theories to offer on these processes This volume is the first to present an overview of the anthropology of art in China to researchers in the English speaking world The essays are written by leading Chinese professors in the fields of visual art dance music and art theory Storia della storiografia ,2005 The Oxford History of Historical Writing Stuart Macintyre,Juan Maiguashca,Attila Pók,2011-10-27 Volume 4 of The Oxford History of Historical Writing offers essays by leading scholars on the writing of history globally from 1800 to 1945 Divided into four parts it first covers the rise consolidation and crisis of European historical thought and the professionalization and institutionalization of history The chapters in Part II analyze how historical scholarship connected to various European national traditions Part III considers the historical writing of Europe s Offspring the United States Canada South Africa Australia New Zealand Mexico Brazil and Spanish South America The concluding part is devoted to histories of non European cultural traditions China Japan India South East Asia Turkey the Arab world and Sub Saharan Africa This is the fourth of five volumes in a series that explores representations of the past from the beginning of writing to the present day and from all over the world This volume aims at once to provide an authoritative survey of the field and especially to provoke cross cultural comparisons

Studying the Enemy Christiane Reinhold,2018-10-24 Unlike the majority of contemporary scholarly works that examine Sino Japanese relations between 1925 and 1945 this study de emphasizes the story of conflict and war in favor of one that revolves around the way in which the Chinese intellectually encountered the enemy the Japanese *Imperial-Time-Order* Kun Qian,2015-11-24 Imperial Time Order is an engagingly written critical study on a persistent historical way of thinking in modern China Defined as normalization of unification and moralization of time Qian suggests the imperial time order signifies a temporal structure of empire that has continued to shape the way modern China developed itself conceptually Weaving together intellectual debates with literary and media representations of imperial history since the late Qing period ranging from novels stage plays films to television series Qian traces the different temporalities of each period and takes time as the analytical node by which issues of empire nation family morality individual and collective subjectivity are constructed

and contested **Development of Modern Chinese Foreign Policy Thought** Ivica Bakota, Zvonimir Stopić, Mato Njavro, 2024-11-15 This book presents a comprehensive exploration of China's foreign policy evolution from the early twentieth century to the contemporary era. The intricate interplay between the People's Republic of China, the Chinese Communist Party (CCP), and the global stage is meticulously traced, offering a nuanced understanding of China's dynamic engagement with the world. With a detailed analysis spanning eight chapters, the book delves into the contextual factors that influenced the CCP's initial foreign policy ideas prior to the establishment of the People's Republic. It systematically unravels the gradual development of these ideas during the Cold War era and unveils the fundamental and adaptive trajectories that have shaped China's foreign policy landscape over the past three decades. Utilizing primary sources and academic texts, the book incorporates both Chinese and global perspectives to shed new light on the evolution of Chinese foreign policy thought, making it an invaluable contribution to the study of China's global interactions. The authors uniquely bridge the gap between different stages of China's foreign policy development across a centennial timeframe, offering an organic perspective on its growth and their comprehensive analysis of China's foreign policy toolset adds a distinctive dimension to existing knowledge. By steering clear of preconceived notions, the book delivers a well-rounded analysis of China's foreign policy evolution.

Historical Dictionary of Marxism Elliott Johnson, David Walker, Daniel Gray, 2014-09-09 The second edition of the *Historical Dictionary of Marxism* covers the basics of Karl Marx's thought, the philosophical contributions of later Marxist theorists, and the extensive real-world political organizations and structures his work inspired. That is, the myriad political parties, organizations, countries, and leaders who subscribed to Marxism as a creed. This text includes a chronology, an introductory essay, and an extensive bibliography. The dictionary section has over 500 cross-referenced entries on important personalities, both thinkers and doers, political parties and movements, and major communist or ex-communist countries. This book is an excellent access point for students, researchers, and anyone wanting to know more about Marxism. From Jail to Jail Tan Malaka, 2020-03-10 *From Jail to Jail* is the political autobiography of Sutan Ibrahim gelar Tan Malaka, an enigmatic and colorful political thinker of twentieth-century Asia who was one of the most influential figures of the Indonesian Revolution. Various labels—a communist, Trotskyite, and nationalist—Tan Malaka managed to run afoul of nearly every political group and faction involved in the Indonesian struggle for independence. During his decades of political activity, he spent periods of exile and hiding in nearly every country in Southeast Asia. As a Marxist who was expelled from and became a bitter enemy of his country's Communist Party, and as a nationalist who was imprisoned and murdered by his own government's forces as a danger to its anticolonial struggle, Tan Malaka was and continues to be soaked in contradiction and controversy. Translated by Helen Jarvis and with a new introduction from Harry A. Poeze, this edition of *From Jail to Jail* contextualizes the life and political accomplishments of Tan Malaka in one of the few known autobiographies by a Marxist of this political era and region. *World History and National Identity in China* Xin Fan, 2021-02-25 Focuses on individual lived

experiences to trace the development of world historical studies in China's long twentieth century

The Making of the Human Sciences in China Howard Chiang, 2019-05-07 This volume provides a history of how the human has been constituted as a subject of scientific inquiry in China from the seventeenth century to the present Organized around four themes Parameters of Human Life Formations of the Human Subject Disciplining Knowledge and Deciphering Health it scrutinizes the development of scientific knowledge and technical interest in human organization within an evolving Chinese society Spanning the Ming Qing Republican and contemporary periods its twenty four original synthetic chapters ground the mutual construction of China and the human in concrete historical contexts As a state of the field survey a definitive textbook for teaching and an authoritative reference that guides future research this book pushes Sinology comparative cultural studies and the history of science in new directions

Fox Volant of the Snowy Mountain Arif Dirlik, Guannan Li, Hsiao-pei Yen, 2012-02-03 Within this text the contributors provide a historical perspective on the development of anthropology and sociology since their introduction to Chinese thought and education in the early twentieth century with an emphasis on the 1930s and 1980s The authors offer different windows on theoretical and research agendas of anthropologists and sociologists of the PRC and Taiwan shaped as much by their political context as by disciplinary training In examining the careers of several individual scholars they also make note not only of their creative contributions but also of the resonance of their intellectual concerns with contemporary issues in sociology and anthropology culturalism frontiers women Finally the volume is organized loosely around the problem of how to translate these disciplines into a Chinese context's the issues of indigenization bentuhua or making Chinese Zhongguohua which have haunted the two disciplines since their establishment in the 1930s because of the contradictory expectations that they generate This is where the case of China resonates with similar concerns in other societies where the disciplines were imported from abroad as products of a Euro American capitalist modernity conflicting with aspirations to create their own localized alternative modernities

The Emergence of Global Maoism Matthew Galway, 2022-03-15 The Emergence of Global Maoism examines the spread of Mao Zedong's writings ideology and institutions when they traveled outside of China Matthew Galway links Chinese Communist Party efforts to globalize Maoism to the dialectical engagement of exported Maoism by Cambodian Maoist intellectuals How do ideas manifest outside of their place of origin Galway analyzes how universal ideological systems became localized both in Mao's indigenization of Marxism Leninism and in the Communist Party of Kampuchea's indigenization of Maoism into its own revolutionary ideology By examining the intellectual journeys of CPK leaders who during their studies in Paris in the 1950s became progressive activist intellectuals and full fledged Communists he shows that they responded to political and socioeconomic crises by speaking back to Maoism adapting it through practice without abandoning its universality Among Mao's greatest achievements the Sinification of Marxism enabled the CCP to canonize Mao's thought and export it to a progressive audience of international intellectuals These intellectuals would come to embrace the ideology as they set a

course for social change The Emergence of Global Maoism illuminates the process through which China moved its goal from class revolution to a larger anticolonial project that sought to cast out European and American imperialism from Asia

Chinese Visions of Family and State, 1915-1953 Susan L. Glosser, 2003-02-12 At the dawn of the twentieth century China's sovereignty was fragile at best In the face of international pressure and domestic upheaval young urban radicals desperate for reforms that would save their nation clamored for change championing Western inspired family reform and promoting free marriage choice and economic and emotional independence But what came to be known as the New Culture Movement had the unwitting effect of fostering totalitarianism In this wide reaching engrossing book Susan Glosser examines how the link between family order and national salvation affected state building and explores its lasting consequences Glosser effectively argues that the replacement of the authoritarian patriarchal extended family structure with an egalitarian conjugal family was a way for the nation to preserve crucial elements of its traditional culture Her comprehensive research shows that in the end family reform paved the way for the Chinese Communist Party to establish a deeply intrusive state that undermined the legitimacy of individual rights *Cultural Change and Persistence* W. Ascher, J. Heffron, 2010-12-12 This book is about the ways that traditional cultural practices either change or persist in the face of social and economic development whether the latter proceeds primarily from internal or external forces *Trajectories of Declining and Destructive Capitalism* Rémy Herrera, 2025-04-21 Volume 40 explores themes related to various trajectories of declining and destructive capitalism within the framework of contemporary Marxism Social scientists from ten countries at various stages of their careers work to strengthen Marxism applying methods to the interpretation and above all the transformation of the world **Historical Dictionary of Tibet** John Powers, David Templeman, 2020-10-22 Historical Dictionary of Tibet Second Edition is a comprehensive resource for Tibetan history politics religion major figures prehistory and paleontology with a primary emphasis on the modern period It also covers the surrounding areas influenced by Tibetan religion and culture including India China Nepal Bhutan Central Asia and Russia It contains a chronology a glossary an introduction and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Tibet
