Hodos, 1999-12-30 An examination of East Central European history this book looks to the past for the roots of the cleavage between the eastern and western regions of Europe and the reasons for the east central countries backward reactionary nature their slide into fascism and war and the ultimate destruction of the region within the Stalinist orbit East Central Europe emerged as a distinct region as early as the 15th century when in sharp contrast to an expanding urban economy and a loosening of serfdom in the West it pursued a brutal Second Serfdom This development would determine much of its future course as 19th century attempts to modernize society included revolutions from above and the abolishment of serfdom while stubbornly retaining decisive feudal structures After World War I industrial developments created a semi feudal distorted capitalism and the region soon saw the emergence of ultra nationalist fascist style regimes whose actions would eventually lead to catastrophe In the post war era the region found itself in the Soviet sphere The short People s Democracy period attempted to purge its structure of feudal reactionary and fascist remnants but soon got destroyed as a distinct region by brutal Stalinization The collapse of Communism did not restore its separate existence reintegration into the West requires a painful transition period with a yet uncertain outcome Hodos produces a comprehensive comparative overview of the centuries old division along with the resulting social political and economic consequences Chapters on anti Semitism and the Holocaust illustrate the stark differences between the regions Democracy and Dictatorship in Europe Sheri Berman, 2019 Democracy and Dictatorship in Europe examines the development of various political regimes in Europe from the ancien r gime up through the present day It analyzes why democracy flourishes at some times and in some places but not others and draws lessons from European history that can help

*Transformations in Central Europe between 1989 and 2012* Tomas Kavaliauskas,2012-08-20 Transformations in Central Europe between 1989 and 2012 Geopolitical Cultural and Socioeconomic Shifts by Tomas Kavaliauskas is an in depth study of the transformations in Central Europe in the years since the fall of Communism Using a comparative analysis of geopolitical ethical cultural and socioeconomic shifts this essential text investigates postcommunist countries including Estonia Latvia Lithuania Poland the Czech Republic Slovakia Hungary Romania Bulgaria and Slovenia Next to transitological interpretations this study ventures upon negative and positive freedom Isaiah Berlin in Central Europe after two decades of post communist transition Kavaliauskas questions the meaning of completeness of postcommunist transition both geopolitical and socioeconomic when there are many transformations that do not necessarily mean unequivocal progress The author also analyses why Central Europe in 1989 armed with civil disobedience could not maintain its moral politics But the book touches sensitive issues of memory as well an examination of May 9th is provided from the Russian and the Baltic perspectives revealing two opposing world views regarding this date of liberation or occupation Finally Kavaliauskas analyzes the tragedy at Smolensk airport which became an inseparable part of Central European identity Transformations in Central Europe between 1989 and 2012 is an essential contribution to the literature on Central Europe and the lasting effects of Communism and its aftermath      **East Central Europe** Wojciech Roszkowski,2015-01-01 What is East Central Europe Can it be defined with any precision The question of definition is a difficult one as is usually the case concerning borderlands whose historical developments show little continuity and an uncertain identity born of the conflict between aspirations and reality It is in East Central Europe that no peace settlement is ever final no frontiers are secure and each generation must begin its work anew Is there any chance that this definition will become out of date      **Reform of the Socialist System in Central and Eastern Europe** Martin J. Bull,Mike Ingham,2016-07-27 This book analyzes the reform of

the socialist system in Central and Eastern Europe and the former Soviet Union Uniquely it adopts a multi disciplinary perspective which includes authors from both Western Europe and the former Communist world The volume contains analyses of the prospects for civil society economic reform and privatisation theories of economic transition and the role of the state political change and the persistence of former Communist parties the prospects for democracy in the former Soviet Union and gender aspects of labour market reform

**Intelligence in Democratic Transitions** Sofia Tzamarelou, 2024-08-01 A groundbreaking comparative analysis of three understudied cases of intelligence democratization revealing new insights into main barriers to reform when states transition from authoritarianism Reforming the intelligence services is essential when a state transitions from authoritarianism to democracy But which areas should be reformed how do we know when there has been real transformation and how and where do authoritarian legacies persist Intelligence in Democratic Transitions is a comparative examination of the democratic transitions of Portugal Greece and Spain starting in the 1970s Although these three countries began their transitions around the same time they present significantly different results Sofia Tzamarelou discovers that main barriers to reform are legacies of the past and legacy personnel She does this through the lens of five Security Sector Reform SSR indicators Lustration Control and Oversight Recruitment Targeting and Civil Society Tzamarelou uses primary sources throughout the study including governmental documents and legal statutes such as draft laws bills and presidential decrees paired with outside primary source reporting such as analysis reporting by the CIA She complements this rich primary source material with secondary sources from authors in each country and internationally who specialize in intelligence or who provide historical context Tzamarelou s unique comparative analysis of intelligence democratization using a common framework SSR applied to each country contributes to readers understanding of why and how some reforms fail and others succeed and how the SSR framework can be used in the intelligence arena
