Leustean,2014-05-30 This book provides an up to date comprehensive overview of Eastern Christian churches in Europe the Middle East America Africa Asia and Australia Written by leading international scholars in the field it examines both Orthodox and Oriental churches from the end of the Cold War up to the present day The book offers a unique insight into the myriad church state relations in Eastern Christianity and tackles contemporary concerns opportunities and challenges such as religious revival after the fall of communism churches and democracy relations between Orthodox Catholic and Greek Catholic churches religious education and monastic life the size and structure of congregations and the impact of migration secularisation and globalisation on Eastern Christianity in the twenty first century *The Romanian Revolution of December 1989* Peter Siani-Davies,2007 The Romanian Revolution of 1989 was the most spectacularly violent and remains today the most controversial of all the East European upheavals of that year Despite or perhaps because of the media attention the revolution received it remains shrouded in mystery How did the seemingly impregnable Ceausescu regime come to be toppled so swiftly and how did Ion Iliescu and the National Salvation Front come to power Was it by coup d tat Who were the mysterious terrorists who wreaked such havoc on the streets of Bucharest and the other major cities of Romania Were they members of the notorious securitate What was the role of the Soviet Union Blending narrative with analysis Peter Siani Davies seeks to answer these and other questions while placing the events and their immediate aftermath within a wider context Based on fieldwork conducted in Romania and drawing heavily on Romanian sources including television and radio transcripts official documents newspaper reports and interviews this book is the most thorough study of the Romanian Revolution that has appeared in English or any other major European language Recognizing that a definitive history of these events may be impossible Siani Davies focuses on the ways in which participants interpreted the events according to particular scripts and myths of revolution rooted in the Romanian historical experience In the process the author sheds light on the ways in which history and the conflicting retellings of the 1989 events are put to political use in the transitional societies of Eastern Europe *The American Bibliography of Slavic and East European Studies* Patt Leonard,Rebecca Routh,2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology **Revolution in China and Russia** Luyang Zhou,2025-06-17 Most

scholars believe that China's nationality policy like that of other socialist states imitated the Soviet nationality model a system which has been termed an affirmative action empire This book offers two contributions to the literature which run counter to this convention First it argues that the People's Republic of China PRC and the Soviet Union USSR were different while the PRC was aimed to build an ideal typical nation state the USSR was an open union of nation states that was only temporarily confined to a physical territory Second while scholars who have noted this difference attribute it to contextual factors such as ethnic structure geopolitical status and Russia's intervention into the Chinese Revolution this book contends that context shaped the Sino Soviet difference yet it did not determine it Rather there was significant leeway between the implications of the contextual factors and what the policy designers ultimately established This book probes who held agency and how these individuals bridged this gap

Beyond Nationalism Istvan Deak, 1990-05-24 In the last seventy years of its long and distinguished existence the Habsburg monarchy was plagued by the forces of rising nationalism Still it preserved domestic peace and provided the conditions for social economic and cultural progress in a vast area inhabited by eleven major nationalities and almost as many confessional groups This study investigates the social origin education training code of honor lifestyle and political role of the Habsburg officers Simultaneously conservative and liberal the officer corps originally composed mainly of noblemen willingly coopted thousands of commoners among them an extraordinary number of Jews Even during World War I the army and its officers endured surviving the dissolution of the state in October 1918 if only by a few days The end of the multinational Habsburg army also marked the end of confessional and ethnic tolerance in Central and East Central Europe

Communism in Transition Amos Yoder, 2024-04-12 Communism in Transition 1993 examines the mainstays of Communist ideology and goes on to look at the collapse of Communism in the Soviet Union and in Eastern Europe It also analyses Asian and Latin American Communist systems and their challenges to the non Communist world and concludes by evaluating the democratic revolutions in the former Soviet Union and in Eastern Europe their possible effect on other Communist states why the revolutions surprised Western pundits and the implications of these events for world peace

Democracy and Dictatorship in Europe Sheri Berman, 2019-01-04 At the end of the twentieth century many believed the story of European political development had come to an end Modern democracy began in Europe but for hundreds of years it competed with various forms of dictatorship Now though the entire continent was in the democratic camp for the first time in history But within a decade this story had already begun to unravel Some of the continent's newer democracies slid back towards dictatorship while citizens in many of its older democracies began

questioning democracy's functioning and even its legitimacy. And of course it is not merely in Europe where democracy is under siege. Across the globe the immense optimism accompanying the post Cold War democratic wave has been replaced by pessimism. Many new democracies in Latin America, Africa and Asia began backsliding while the Arab Spring quickly turned into the Arab winter. The victory of Donald Trump led many to wonder if it represented a threat to the future of liberal democracy in the United States. Indeed it is increasingly common today for leaders, intellectuals, commentators and others to claim that rather than democracy, some form of dictatorship or illiberal democracy is the wave of the future.

In *Democracy and Dictatorship in Europe*, Sheri Berman traces the long history of democracy in its cradle, Europe. She explains that in fact just about every democratic wave in Europe initially failed, either collapsing in upon itself or succumbing to the forces of reaction. Yet even when democratic waves failed, there were always some achievements that lasted. Even the most virulently reactionary regimes could not suppress every element of democratic progress.

Panoramic in scope, Berman takes readers through two centuries of turmoil: revolution, fascism, civil war, and finally the emergence of liberal democratic Europe in the postwar era. A magisterial retelling of modern European political history, *Democracy and Dictatorship in Europe* not only explains how democracy actually develops but how we should interpret the current wave of illiberalism sweeping Europe and the rest of the world.

Deception Roxanne von Andrian, 2020-03-25 Little did I know when asking Langley to get me deployed to Romania after the fall of the Berlin Wall that I'll be drawn into plotting and executing the most deceptive international revenge within recent history against the much feared evil criminal organization, the KGB. From Bucharest to Budapest, Paris, Avignon, Monaco, London, Crimea's Sebastopol, Chisinau of Moldova, and the United States, this thriller is woven with real history, spies, assassins, a tint of fiction, and a happenstance of romance. Four men under Ceausescu's communist regime in Romania had powerful roles in the political apparatus. After the 89 Revolution, they met again as members of the Miklos Fund Board in Bucharest, Romania. Miklos was an American multi-millionaire born in Transylvania who opened the Miklos Fund with the scope of financing Romanians to find their way in a civil society. These men, Oscar Ferencz, Adi, and Cornel, teamed up with me, Ingrid, a CIA agent. We diverted money from the Miklos Fund's educational programs to finance the theft of enriched plutonium from the Russia-owned military base of Crimea's Sebastopol, with collaboration from other ex-communist Ukrainian and Moldavian agents turned rogue. We acted under the guidance of a French squad of operatives who, with help from Italian assassins, plotted to kill an ex-KGB officer in London by poisoning him with plutonium. The twist was to make the assassination appear to be ordered and executed by the Russian FSB, the successor of the KGB.

The Long 1968 in Hungary and Romania Adrian-George Matus, 2023-12-31 This book advances a local regional and comparative analysis of the history of the sixty eighters from Hungary and Romania between 1956 and 1975 The aim of the book is to answer to the following research question to what extent does the long 1968 mark and change protest history Another axis of my research equally important is how can one genuinely distinguish between a protest an opposition and a pastime Where did radicalisation truly begin and when was it solely an auto perception as a dissident In other words how can one truly distinguish between a leisure activity like listening to Radio Free Europe or exploring an altered state of consciousness and an explicit political activity like organising a protest or writing subversive texts Among other aims the book's scope is to understand where a leisure activity ends and a protest starts By practicing counterculture did the youth wish to contest the system or simply express themselves As method oral history plays a crucial part On a superficial level the interviews helped to fill in the archival gap However oral testimonies proved to reveal much more than essential factual information Oral history clarified how political and social events influenced the subjects memory formation

Philosophy, Society and the Cunning of History in Eastern Europe Costica Bradatan, 2013-09-13 Philosophy Society and the Cunning of History in Eastern Europe charts the intellectual landscape of twentieth century East Central Europe under the unifying theme of precariousness as a mode of historical existence Caught between empires often marked by catastrophic historic events and grand political failures the countries of East Central Europe have for a long time developed a certain intellectual self representation a culture that not only helps them make some sense of such misfortunes but also protects them somehow from a collapse into nihilism An interdisciplinary study of this sophisticated culture of survival and endurance has been long overdue Not only is it charming and worth studying in its own right but with the re integration of the new Europe into the old one and the emergence on the Western European intellectual scene of many authors from the East such a culture will also shape the European mind of the 21st century This volume decodes and explores this culture of precariousness from the complementary angles of philosophy political theory intellectual history and literary studies Expert contributors look at a wide range of topics from philosophical martyrdom to collective suffering to geographical fatalism and explore the works of key authors in the field including Cioran Ko akowski Kert sz Bauman and i ek This book was originally published as a special issue of Angelaki The Journal of the Theoretical Humanities

Orthodox Christianity and the Politics of Transition Tornike Metreveli,2020-11-29 This book discusses in detail how Orthodox Christianity was involved in and influenced political transition in Ukraine Serbia and Georgia after the collapse of communism Based on original research including extensive interviews with clergy and parishioners as well as historical legal and policy analysis the book argues that the nature of the involvement of churches in post communist politics depended on whether the interests of the church for example in education the legal system or economic activity were accommodated or threatened if accommodated churches confined themselves to the sacred domain if threatened they engaged in daily politics If churches competed with each other for organizational interests they evoked the support of nationalism while remaining within the religious domain The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Romania under Communism Dennis Deletant,2018-10-11 Communism has cast a long shadow over Romania The passage of little over a quarter of a century since the overthrow in December 1989 of Romania's last Communist leader Nicolae Ceaușescu offers a symbolic standpoint from which to penetrate that shadow and to throw light upon the entire period of Communist rule in the country An appropriate point of departure is the observation that Romania's trajectory as a Communist state within the Soviet bloc was unlike that of any other That trajectory has its origins in the social structures attitudes and policies in the pre Communist period The course of that trajectory is the subject of this inquiry

A Modern Theory of Language Evolution Carl J. Becker,2004-12 The discipline of linguistics is a perfect example of the limitations of the modern academy The combination of social taboos that make certain subject matter unfit for general knowledge and discovery and the ever narrowing specialization of scientists leaves us with an intellectual institution that can no longer do anything but apply repair and justify the dogma of Victorian Cosmology that is the rule all must follow Linguistics should be one of the most interesting subjects considering it is the study of our most valuable and revealing cultural asset language However recent publications from the linguistic department for public consumption have been some of the most trivial and boring

intellectual expositions that have ever been put between two covers Using the entire database of science we look at the acquisition of language and how it forms our cultural perspective on life including theories of language evolution We develop the theory of the evolution of language from song one of the few suppositions that Charles Darwin actually got right From this basis we move on to the roots of Proto Indo European which we call Bhear Tongue Bhear Tongue is essentially the Eurasian language family dimly perceived by one of the greatest linguists of the twentieth century Joseph Greenberg From this perspective we can now retell the tribal stories from Iberia to Siberia showing a common origin and motivation for human science and religion **Jews and Jewish Topics in the Soviet Union and Eastern Europe** ,1992
