declassified and leaked US Government documents via sources like the Rumsfeld Papers and Wikileaks the author argues that the US approached Central Asia as a non unitary state with an ambiguous hierarchy of interests Traditionally domestic issues could be internationalised and non state actors were able to play significant roles The actual relationships between its interests were neither as harmonious nor as conflicted as the administration and some of its critics claimed Shedding new light on US relations with Central Asia this book is of interest to scholars of Central Asia US Politics and International Relations
