*The Bullied Brain* Jennifer Fraser, 2022-04-01 Why do we say we have zero tolerance for bullying but adult society is rife with it and it is an epidemic among children Because the injuries that all forms of bullying and abuse do to brains are invisible We ignore them fail to heal them and they become cyclical and systemic Bullying and abuse are at the source of much misery in our lives Because we are not taught about our brains let alone how much they are impacted by bullying and abuse we do not have a way to avoid this misery heal our scars or restore our health In *The Bullied Brain* readers learn about the evidence doctors psychiatrists neuropsychologists and neuroscientists have gathered that shows the harm done by bullying and abuse to your brain and how you can be empowered to protect yourself and all others Not only is it critically important to discover how much your mental health is contingent on what has sculpted and shaped the world inside your head it is also the first step in learning ways to recover While your brain is vulnerable to bullying and abuse it is at the same time remarkably adept at repairing all kinds of traumas and injuries The first part of *The Bullied Brain* outlines what the research shows bullying and abuse do to your brain The second part of the book *The Stronger Brain* provides case studies of adults and children who have undergone focused training to heal their neurological scars and restore their health These accessible and practical lessons can be integrated into your life Strengthening your brain acts as an effective antidote to the bullying and abuse that are rampant in society Foreword by Dr Michael Merzenich the father of neuroplasticity and he also contributes his knowledge insights and research in *The Bullied Brain* to help show you how to empower your brain to fulfill its power and
