Creating Thinking Classrooms Garfield Gini-Newman, Roland Case, 2018-03-22 Creating Thinking Classrooms is loaded with examples stories and strategies for reinvigorating schools through quality thinking and reasoning      **Conceptual Odysseys** Griselda Pollock, 2007-10-24 The theoretical turn within the arts and humanities in the 1970s and 1980s has for many had its day with work produced under its rubric all too often feeling tired or even downright lazy In its place whilst hazarding against an outright rejection of theory this book introduced by Mieke Bal presents work by a new generation of scholars responding directly to Bal's idea of the travelling concept By taking a concept from one discipline and with a genuine understanding of its origin thoughtfully applying this in a new context exciting new possibilities are opened up for analysis of artworks and other cultural objects Here we find these travelling concepts employed in fresh explorations of subjects as diverse as the paintings of Poussin and of Adam Elsheimer Chantal Akerman's film the Museum of the French Revolution and the work of German Jewish painter Charlotte Salomon This is a uniquely illuminating contribution to the edgy territorial conflicts between visual culture art history and cultural studies      **Intellectual Philanthropy** Aurélie Vialette, 2018-08-15 What's in a nineteenth century philanthropist Fear of an uprising But the frightened philanthropist has a remedy Aware that the urban surge of the working class masses in Spain would create a state of emergency he or she devises a means to seduce the masses away from rebellion by taking on himself or herself the role of the seducer the capitalist intellectual hero invested in the caretaking of the unpredictable working class Intellectual Philanthropy examines cultural practices used by philanthropists in modern Iberia It explains the meaning and role of intellectual philanthropy by focusing on the devices and apparatuses philanthropists devised to realize their projects Intellectual philanthropists considered themselves activists in that they aimed to impact social structures and deployed a rhetoric of the affect to convince the workers to join their philanthropic enterprise Philanthropy in the nineteenth century was not necessarily linked to money Motivations could be moral or political they could arise from a desire to enhance social status or to acquire influence To explicitly designate this conceptualization of the philanthropic act the author proposes its own name intellectual philanthropy Intellectual philanthropy is the use of philanthropic platforms by intellectuals to deploy cultural and educational structures in which workers could acquire a cultural capital constructed and organized by the philanthropists Vialette argues that intellectual philanthropy appeared as a reaction to the feared political and cultural organization of the working class rather than as a process of worker emancipation These philanthropic processes aimed at organizing the workers emotionally and rationally into what she calls micro societies Philanthropists used the technique of seduction and expressed love to and for a targeted class However this seduction prevented real communication and created a moral and symbolic indebtedness This process was perverse in that through its cultural and educational structures philanthropy would give workers cultural capital that was not just emancipatory but also a way to restrict their agency      **The Innovation Factory** Gilles Garel, Elmar

Mock,2016-03-23 The Innovation Factory takes a fresh look at the fine art of breakthrough innovation What makes it unique is that it brings together an experienced scholar and a serial entrepreneur who share the same passion for understanding the processes and theories needed to innovate over and over again The book marries theory with practical examples focusin

**Communist China Digest** ,1965-10      **Charles Henri Ford: Between Modernism and Postmodernism** Alexander Howard,2017-05-18 The first American surrealist poet a prolific literary editor and a seminal influence on the New York School of poetry Charles Henri Ford was a key figure in the transition from late modernist to postmodern culture in America Charles Henri Ford Between Modernism and Postmodernism is the first book length scholarly study of this important literary figure Drawing on new archival research including explorations of Ford s correspondence with the likes of Ezra Pound Gertrude Stein William Carlos Williams Parker Tyler and many others the book explores the full impact of Ford s contribution to 20th century American literary culture

United States. Joint Publications Research Service,1961      **Global Space and the Nationalist Discourse of Modernity** Xiaobing Tang,1996-04 This book reexamines the historical thinking of Liang Qichao 1873 1929 one of the few modern Chinese thinkers and cultural critics whose appreciation of the question of modernity was based on first hand experience of the world space in which China had to function as a nation state It seeks to demonstrate that Liang was not only a profoundly paradigmatic modern Chinese intellectual but also an imaginative thinker of worldwide significance By tracing the changes in Liang s conception of history the author shows that global space inspired both Liang s longing for modernity and his critical reconceptualization of modern history Spatiality or the mode of determining spatial organization and relationships offers a new interpretive category for understanding the stages in Liang s historical thinking Liang s historical thinking

culminated in a global imaginary of difference which became most evident in the shift from his earlier proposal for a uniform national history to one that mapped cultural history His reaffirmation of spatiality a critical concept overshadowed by the modernist obsession with time and history made it both necessary and possible for him to redesign the project of modernity Finally the author suggests that the reconciliation of anthropological space with historical time that Liang achieved makes him abundantly contemporary with our own time both inextricably modern and postmodern *Breaking Patterns of Conflict* John Coakley, Jennifer Todd, 2016-04-14 External powers commonly play a major role in efforts to break patterns of conflict and to instal stable and durable peace settlements They do this not just by underwriting security arrangements but also by being available to intervene at critical moments This book considers the special but by no means unique case where the conflict is located in a region of one state over which a neighbouring state has had a territorial claim itself part of the legacy of a quasi colonial relationship Northern Ireland This book focuses on the changes in the British state whose writ of course extends over Northern Ireland but also the Irish state which surrendered a strong formal but ineffective claim to jurisdiction over Northern Ireland for the reality of a significant voice in its political future These were ultimately to facilitate the process of settlement leading to the 1998 Good Friday Agreement and the later transformation of institutions and political relations in Northern Ireland and in these islands more generally It innovates by using a new oral archive built up over the past decade The book explores the interrelations of different levels of state and institutional change These interrelations range from the broadest concepts of sovereignty and ideology to the actual impact of large changes on particular institutions and laws They also extend over elite political assumptions and strategies and inter state coordination practices This book was published as a special issue of Irish Political Studies *Sustainable Development of Urban and Rural Areas* Ya Fang Yu, 2014-01-16 Selected peer reviewed papers from the 3rd International Conference on Civil Engineering and Transportation ICCET 2013 December 14 15 2013 Kunming China **Report of the State Board of Health of the State of New Hampshire. v. 15, 1897/98**, 1899 Innovation and Society Françoise Cros, 2018-03-27 This book takes stock of the state of the question on innovation in a particular area of education and training But for this it must be noted that economists have appropriated the notion since Schumpeter and have constrained to think innovation in professions of intervention on others as if they were products to be delivered to the customer as quickly and the best frugal innovation Here the author brings a nuance and demonstrates the specificity of innovations in soft areas their richness while drawing the reader to caution and criticism because any innovation is not good in itself it can Produce adverse effects in the medium and long term The author proposes two supports for innovation on the one hand the approach by its most objective evaluation which itself induces an innovation in its evaluation and on the other hand an approach to values and therefore to philosophy of the desired future man A detour on the history of innovation on its international approaches on the imaginary investments it is often the object of with a nuance of utopia makes it possible to understand why innovation has been a means To drive the reforms and to
