Revolutionary Afghanistan A Reappraisal:

Revolutionary Afghanistan Beverley Male, 2022-02-06 This book first published in 1982 examines the reality of the so called revolution in Afghanistan. It focuses on the career of Hafizullah Amin considered in the West as a near genocidal mass murderer intent on establishing a personal fiefdom in Afghanistan. However, this book argues that he was a man struggling against impossible odds to preserve his country's independence and at the same time drag it into the twentieth century. He commanded such loyalty and support within the Afghanistan Communist Party and the armed forces that the Russians had to invade to get rid of him.

Out of Afghanistan Diego Cordovez, Selig S. Harrison, 1995-06-29 When the Soviet Union pulled its forces out of Afghanistan, the American media had a simple explanation: Soviet troops had been hounded out of the mountains by U.S. armed guerrillas; the skies cleared of Soviet aircraft by Stinger missiles until the Kremlin was forced to cry uncle. But Diego Cordovez and Selig S. Harrison shatter this image. *Out of Afghanistan* shows that the Red Army was securely entrenched when the Soviet Union agreed to withdraw. American weaponry and Afghan bravery raised the costs for Moscow, but it was six years of skillful diplomacy that gave the Russians a way out. Cordovez and Harrison provide the definitive account of the Soviet blunders that led up to the invasion and the bitter struggles over the withdrawal that raged in the Soviet and Afghan Communist parties and the Reagan Administration. The authors are particularly well suited to their task. Cordovez was the United Nations mediator who negotiated the Soviet pullout, and Harrison is a leading South Asia expert with four decades of experience in covering Afghanistan. Their story of the U.N. negotiations is interwoven with a gripping chronicle of the war years, complete with palace shootouts in Kabul, turf warfare between rival Soviet intelligence agencies, and the CIA role in building up Islamic fundamentalist guerrilla leaders at the expense of Afghan moderates. Cordovez opens up his diaries to take us behind the scenes in his negotiations, and Harrison draws on interviews with Mikhail Gorbachev, former Secretary of State George Shultz, and other key actors. The result is a book full of surprises. For example, the authors demonstrate that the Soviets intervened not out of a desire to drive to the Indian Ocean but out of a fear of a U.S.-supported Afghan Tito. Rebuffs by hardline bleeders in the Reagan Administration undermined efforts by Yuri Andropov to secure a settlement before his death in 1983. Even more startling, Gorbachev resumed the search for a negotiated withdrawal more than a year before the first American-supplied Stinger missiles were deployed in the war. The Soviet intervention in Afghanistan was one of the pivotal events of recent history. *Out of Afghanistan* destroys many of the myths surrounding the Afghan war and will have a profound impact on the emerging debate over how and why the Cold War ended.

The Red Flag David Priestland, 2016-05-03 The best and the most accessible one volume history of communism now available A far reaching vividly written account Foreign Affairs In The Red Flag Oxford

professor David Priestland tells the epic story of a movement that has taken root in dozens of countries across two hundred years from its birth after the French Revolution to its ideological maturity in nineteenth century Germany to its rise to dominance and subsequent fall in the twentieth century Beginning with the first modern Communists in the age of Robespierre Priestland examines the motives of thinkers and leaders including Marx Engels Lenin Stalin Castro Che Guevara Mao Ho Chi Minh Gorbachev and many others Priestland also shows how Communism in all its varieties appealed to different societies for different reasons in some as a response to inequalities and in others more out of a desire to catch up with the West But paradoxically while destroying one web of inequality Communist leaders were simultaneously weaving another It was this dynamic together with widespread economic failure and an escalating loss of faith in the system that ultimately destroyed Soviet Communism itself At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy The Red Flag is essential reading if we are to apply the lessons of the past to navigating the future Detailed and scholarly but written in lively prose this is a rich satisfying account of the most successful utopian political movement in history Publishers Weekly starred review

The Global Cold War on Campus Kyara Anne Klausmann, 2023-11-06 How and why did students at Kabul University engage in political activism or refrained from it between 1964 and 1992 Based on oral history interviews with former students this book reveals how they as many others around the world at the same time were galvanized by and disappointed with promises of progress dominating local and international politics During the 1960s the international influences on campus encouraged students engagement with competing political ideologies Collective student protest against the monarchy turned into hostilities between opposing political groups within the student body claiming to lead Afghanistan towards independence and prosperity After the coup d tat by the People s Democratic Party of Afghanistan PDPA in 1978 none of the ideologies which had previously incited students provided hope for a better future anymore Many students who had fought for the PDPA earlier were repelled by the government s violence and those who stood up against the regime were persecuted and fled the country Overall the dynamics of political activism at Kabul University reflect the deep intertwinement of the Global Cold War and local struggles for inclusion and independence

An Intimate War Mike Martin, 2014 An Intimate War tells the story of the last thirty four years of conflict in Helmand Province Afghani stan as seen through the eyes of the Helmandis In the West this period is often defined through different lenses the Soviet intervention the civil war the Taliban and the post 2001 nation building era Yet as experienced by local inhabitants the Helmand conflict is a perennial one involving the same individuals families and groups and driven by the same arguments over land water and power This book based on both military and re search experience in Helmand and 150 inter views in Pashto offers a very different view of Helmand from those in the media It demonstrates how outsiders have most often misunderstood the ongoing struggle in Helmand and how in doing so they have exacerbated the conflict perpetuated it and made it more violent precisely the opposite of what was intended when their interventions were

Hilali, 2017-07-05 Hilali provides an excellent study into the US Pakistan partnership under the Reagan administration The book explores the causes of Pakistan's involvement in the Afghanistan war and the United States support to prevent Soviet adventurism It shows that Pakistan was the principal channel through which assistance was provided to Afghan freedom fighters it also provided access to its military bases to use against the Soviet Union The study looks at the consequences of the war on Pakistan and explains how it became enmeshed within its domestic politics Furthermore it evaluates the role of Pakistan as a key partner in the global coalition against terrorism and discusses how General Pervez Musharraf brought about Pakistan's development towards a progressive moderate and democratic society Ideally suited to courses on foreign policy *Recovering the Frontier State* Rasul Bux Rais, 2008-01-01 The book explores how legacies of internal strife and foreign invasions have altered the balance of social and political forces that provided some measure of stability to Afghanistan The country faces structural constraints in the way of reviving itself owing to ethnic fragmentation Taliban insurgency and shallow social roots of political power The central argument is that Afghanistan needs positive international engagement to find a new balance among its fractious social groups and build effective state and nationhood
