Wings of Power Terry M Sell, 2014-01-01 Through most of its history the Boeing Company has been one of the biggest providers of jobs and wealth in western Washington State But in the 1990s the company found itself a target of local activists and politicians who saw urban sprawl and growth politics ruining the region s quality of life T M Sell grew up in a Boeing family near Boeing s Renton plant and later covered the company as a reporter for the Valley Daily News and the Seattle Post Intelligencer He is a first hand observer of the drama he unfolds one personally interested in the future of his community well informed about the details of its history acquainted with many of the principal players and conversant with the theoretical and historical literature that bears on the multifaceted questions he seeks to answer After a lively sketch of the Boeing Company s history into the last decade of the 20th century Sell looks at what happened when Boeing tried to expand its facilities in Renton and Everett It was then that the paradox of growth first manifested itself the point at which the benefits of economic expansion appeared to be outweighed by its costs Sell examines political power management in Washington State paying particular attention to Boeing s successful efforts to be a positive influence in the state to the strategies it used to influence growth management legislation in Olympia and to its negotiations with the communities most affected by its efforts to grow In each case Sell gives not just an overview of positions and strategies but also sharply drawn portraits of the lobbyists analysts and politicians involved many of whom explain their views in direct conversation The balanced and comprehensive approach Sell brings to bear on the story is also his recommendation for dealing with inevitable future growth related contentions Fostering the continuing health of our economic and political environment he concludes

will require just such a broad evenhanded and sensible approach to the politics of compromise **Seattle** Gerald B. Nelson,1977 **Catalog of Copyright Entries. Third Series** Library of Congress. Fulfillment Alec MacGillis,2021-03-16 A New York Times Book Review Editors Choice A grounded and expansive examination of the American economic divide It takes a skillful journalist to weave data and anecdotes together so effectively Carolyn Kellogg Los Angeles Times An award winning journalist investigates Amazon s impact on the wealth and poverty of towns and cities across the United States In 1937 the famed writer and activist Upton Sinclair published a novel bearing the subtitle A Story of Ford America He blasted the callousness of a company worth a billion dollars that underpaid its workers while forcing them to engage in repetitive and sometimes dangerous assembly line labor Eighty three years later the market capitalization of Amazon com has exceeded one trillion dollars while the value of the Ford Motor Company hovers around thirty billion We have it seems entered the age of one click America and as the coronavirus makes Americans more dependent on online shopping its sway will only intensify Alec MacGillis s Fulfillment is not another inside account or expos of our most conspicuously dominant company Rather it is a literary investigation of the America that falls within that company s growing shadow As MacGillis shows Amazon s sprawling network of delivery hubs data centers and corporate campuses epitomizes a land where winner and loser cities and regions are drifting steadily apart the civic fabric is unraveling and work has become increasingly rudimentary and isolated Ranging across the country MacGillis tells the stories of those who ve thrived and struggled to thrive in this rapidly changing environment In Seattle high paid workers in new office towers displace a historic black neighborhood In suburban Virginia homeowners try to protect their neighborhood from the environmental impact of a new data center Meanwhile in El Paso small office supply firms seek to weather Amazon s takeover of government procurement and in Baltimore a warehouse supplants a fabled steel plant Fulfillment also shows how Amazon has become a force in Washington D C ushering readers through a revolving door for lobbyists and government contractors and into CEO Jeff Bezos s lavish Kalorama mansion With empathy and breadth MacGillis demonstrates the hidden human costs of the other inequality not the growing gap between

rich and poor but the gap between the country's winning and losing regions The result is an intimate account of contemporary capitalism its drive to innovate its dark pitiless magic its remaking of America with every click

Hearings United States. Congress Senate, 1940

The U.S. City in Transition Barbara Hahn, 2022-07-21 The U S city is undergoing constant change In the East and Midwest most cities were founded as trading posts on waterways They boomed during the industrial era and reached their population peak in the mid 20th century before suburbanization and deindustrialization caused them to decline in importance Traces of decay were everywhere and the prognosis for the future was conceivably poor As Barbara Hahn shows in her book this trend now seems to have been broken Things are looking up again for the US city Some of the former industrial cities have succeeded in structural change In the south and west of the country cities have developed into new growth centers However not all cities are benefiting from this positive development and many continue to shrink at an alarming rate As the author points out similar processes such as neoliberalisation deregulation privatisation and gentrification can be observed in all cities regardless of their location and level of development Due to the large number of didactically prepared graphics the book is suitable as a study read for students and scholars The characteristics of the U S city which are elaborated on the basis of current examples as well as the illustrative photos also illustrate the change of the U S city to the interested reader

A Mass Conspiracy to Feed People David Boarder Giles, 2021-07-21 In *A Mass Conspiracy to Feed People* David Boarder Giles explores the ways in which capitalism simultaneously manufactures waste and scarcity Illustrating how communities of marginalized people and discarded things gather and cultivate political possibilities Giles documents the work of Food Not Bombs FNB a global

movement of grassroots soup kitchens that recover wasted grocery surpluses and redistribute them to those in need He explores FNB s urban contexts the global cities in which late capitalist economies and unsustainable consumption precipitate excess inequality food waste and hunger Beginning in urban dumpsters Giles traces the logic by which perfectly edible commodities are nonetheless thrown out an act that manufactures food scarcity to the social order of world class cities the pathways of discarded food as it circulates through the FNB kitchen and the anticapitalist political movements the kitchen represents Describing the mutual entanglement of global capitalism and anticapitalist transgression Giles captures those emergent forms of generosity solidarity and resistance that spring from the global city s marginalized residents
