Sebastian Van Storck:

Sebastian Van Storck ,1993 **Sebastian Van Storck, an Imaginary Portrait** Walter Pater,1898 *Sebastian Van Storck* Walter Pater,1898 **Sebastian van Storck** Walter Pater,1924 **Sebastian Van Storck** Walter Pater,1927 A tale of a Spinoza like figure setting himself against the exuberant material life of seventeenth century Holland ,

Aestheticism and the Philosophy of Death Giles Whitely,2017-12-02 Walter Pater best known as the author of *The Renaissance* 1873 and as Oscar Wilde's tutor and friend was a leading figure in European aestheticism and British fin de siècle culture. Despite this he has received only limited critical attention and has tended to be read conservatively. Drawing on Pater's unpublished manuscripts Giles Whiteley challenges this view of Pater as a closeted don who spends the remainder of his life regretting the excesses of his Renaissance. Focusing on Pater's reading of the German idealist philosopher G W F Hegel Whiteley argues that Pater's response to both the philosophical and the ideological legacies of idealism was significantly more advanced than has been hitherto thought. Presenting a persuasive new reading of the genre of the imaginary portrait Pater's most elusive form of writing the book paints a picture of Walter Pater as a truly revolutionary thinker. Pater like Nietzsche during the same period breaks with the dialectic as a method. Anticipating the radical critiques of ideology of post Hegelians such as Derrida and Deleuze Pater becomes a radical and transgressive thinker in his own right.

Neverending Stories Ann Fehn,Ingeborg Hoesterey,Maria M. Tatar,2014-07-14 In these compelling new essays leading critics sharpen our understanding of the narrative structures that convey meaning in fiction taking as their point of departure the narratological positions of Dorrit Cohn, Gérard Genette and Franz Stanzel. This collection demonstrates how narratology with its attention to the modalities of presenting consciousness offers a point of entry for scholars investigating the socio-cultural dimensions of literary representations. Drawing from a wide range of literary texts the essays explore the borderline between fiction and history, explain how characters are constructed by both author and reader through the narration of consciousness, show how gender shapes narrative strategies ranging from the depiction of consciousness through intertextuality to the representation of the body, address issues of contingency in narrative and present a debate on the crucial function of person in the literary text. The contributors are Stanley Corngold, Gail Finney, Käte Hamburger, Paul Michael Lützeler, David Mickelsen, John Neubauer, Thomas Pavel, Jens Rieckmann, Shlomith Rimmon-Kenan, Judith Ryan, Franz Stanzel, Susan Suleiman, Maria Tatar, David Wellbery and Larry Wolff. Originally published in 1991, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Walter Pater and Persons Stephen Cheeke,2024-07-12 *Walter Pater and Persons* investigates the vital concept of the

Person in the work of Walter Pater a major influence on late nineteenth and early twentieth century literature Stephen Cheeke explores the intersections of the person persona and personality in Pater's work re-examines arguments about his famously personal prose style traces Pater's ambivalent fascination with impersonality and asceticism considers the poetics of personification in his writings about Greek myth and religion in the divine logos of early Christianity and in the theory of Platonic Universals and explores his fascination with metempsychosis the many persons through whom the individual soul transmigrates Cheeke also explores the networks in which Pater was interpreted and misinterpreted by different persons and personalities such as Oscar Wilde Arthur Symonds and W B Yeats Their misreadings of Pater and rebellions against his work from Decadent antinomian and mystical perspectives reveal the ways in which Pater's writing had always been in a critical dialogue with its own thinking as well as a prescient one in relation to his reception The philosophical question of what is a person a crucial one for the nineteenth century and with an increasing urgency in our own times is illuminated throughout this work
