Bailey, 2002-08-30 In order to examine the importance of alternative medicine to the African American population this book focuses on the African American health belief system and the treatment strategies often used and documented This book includes a cultural

historical view of alternative medicine's use within the African American community and shows how it was an integral part of African American culture. The author highlights a number of studies that examine alternative and complementary therapies associated with specific diseases among African Americans. Case studies are presented to show the types of alternative and complementary medicines used for specific diseases and to determine whether the alternative and complementary therapy was effective or not. Moreover, the cultural perceptions of the specific disease are presented to provide reasons why African Americans tend to use the particular alternative and complementary medical therapy for the disease. The book serves as a resource guide for students, healthcare professionals, researchers, policymakers, and the general public. **Reader's Guide**

to American History Peter J. Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students, teachers, scholars, and librarians often need help and advice on how to find what they want. The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography. Each of the 600 entries on topics in political, social, and economic history describes and evaluates some 6 to 12 books on the topic, providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs. The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors, all scholars of American history.

Ebony, 1989-02 EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American focused magazine. **Labor of Love, Labor of Sorrow** Jacqueline Jones, 2009-12-29 The forces that shaped the institution of slavery in the American South endured, albeit in altered form, long after slavery was abolished. Toiling in sweltering Virginia tobacco factories or in the kitchens of white families in Chicago, black women felt a stultifying combination of racial discrimination and sexual prejudice. And yet, in their efforts to sustain family ties, they shared a common purpose with wives and mothers of all classes. In *Labor of Love, Labor of Sorrow*, historian Jacqueline Jones offers a powerful account of the changing role of black women, lending a voice to an unsung struggle from the depths of slavery to the ongoing fight for civil rights. **The Weeping Time** Anne C. Bailey, 2017-10-09 In 1859, at the largest recorded slave auction in American history, over 400 men, women, and children were sold by the Butler Plantation estates. This book is one of the first to analyze the operation of this auction and trace the lives of slaves before, during, and after their sale. Immersing herself in the personal papers of the Butlers, accounts from journalists that witnessed the auction, genealogical records, and oral histories, Anne C. Bailey weaves together a narrative that brings the auction to life. Demonstrating the resilience of African American families, she includes interviews from the living descendants of slaves sold on the auction block, showing how the memories of slavery have shaped people's lives today. Using the auction as the focal point, *The Weeping Time* is a compelling and nuanced narrative of one of the most pivotal eras in American history and how its legacy persists today. **Black Families at the Crossroads** Leonor Boulton Johnson, Robert Staples, 2004-09-24 This

updated edition of the classic book *Black Families at the Crossroads* offers a comprehensive examination of the diverse and complex issues surrounding Black families. Leonor Boulton Johnson and Robert Staples combine more than sixty years of writing and research on Black families to offer insights into the pre-slavery development of the Black middle class, internal processes that affect all class strata among Black American families, the impact of race on modern Black immigrant families, the interaction of external forces and internal norms at each stage of the Black family life cycle, and public policies that provide challenges and promising prospects for the continuing resilience of the Black family as an American institution. This thoroughly revised edition features new research, including empirical studies and theoretical applications, and a review of significant social policies and economic changes in the past decade and their impact on Black families.
