the state how it was transmitted from the top down from Constantinople to provincial towns how it dealt with marginal legal issues or good medical practice authority in the market place whether directly concerning over the counter issues such as coinage weights and measures or the wider concerns of the activities of foreign traders authority in the church such as the extent to which ecclesiastical authority was inherent or how constructs of religious authority ordered family life the authority of knowledge revealed through imperial patronage or divine wisdom the authority of text though its conformity with ancient traditions through the Holy scriptures and through the authenticity of history exhibiting authority through images of the emperor or the Divine The final section draws on personal experience of three great authorities within Byzantine Studies

Celestial Wonders in Reformation Germany Ken Kurihara,2015-10-06 Celestial phenomena were often harnessed for use by clerics in early modern Germany Kurihara examines how and why interest in these events grew in this period how the clergy exploited these beliefs and the role of sectarianism in Germany at this time **Heavenly Sustenance in Patristic Texts and Byzantine Iconography**

Elena Ene D-Vasilescu,2018-10-22 This book examines ideas of spiritual nourishment as maintained chiefly by Patristic theologians those who lived in Byzantium It shows how a particular type of Byzantine frescoes and icons illustrated the views of Patristic thinkers on the connections between the heavenly and the earthly worlds The author explores the occurrence and geographical distribution of this new type of iconography that manifested itself in representations concerned with the human body and argues that these were a reaction to docetist ideas The volume also investigates the diffusion of saints cults and demonstrates that this took place on a North South axis as their veneration began in Byzantium and gradually reached the northern part of Europe and eventually the entirety of Christendom *Stemmata Latinitatis* Nicholas Salmon,1796

Hesychasm and Art Anita Strezova,2014-09-01 Although many of the iconographic traditions in Byzantine art formed in the early centuries of Christianity they were not petrified within a time warp Subtle changes and refinements in Byzantine theology did find reflection in changes to the iconographic and stylistic conventions of Byzantine art This is a brilliant and innovative book in which Dr Anita Strezova argues that a religious movement called Hesychasm especially as espoused by the great Athonite monk St Gregory Palamas had a profound impact on the iconography and style of Byzantine art including that of the Slav diaspora of the late Byzantine period While many have been attracted to speculate on such a connection none until now has embarked on proving such a nexus The main stumbling blocks have included the need for a comprehensive knowledge of Byzantine theology a training in art history especially iconological semiotic and formalist methodologies extensive fieldwork in Macedonia Bulgaria Serbia Greece Turkey and Russia and a working knowledge of Greek Old Church

Slavonic Macedonian Russian Serbian Latin as well as several modern European languages French German Russian and Italian These are some of the skills which Dr Strezova has brought to her topic Professor Sasha Grishin AM FAHA Adjunct Professor of Art History School of Literature Languages and Linguistics The Australian National University
