Ways of Learning: A Handbook For Teachers And Students Of The Martial Arts Paul Read, 2014-06-05. Most books on Tai Chi and the Martial Arts focus on exercises. *Ways of Learning* takes a different approach by asking a simple question: How is any of this going to help me learn what I need to learn, teach what I need to teach? The answers reveal themselves throughout the 18 chapters in this book: How to Find your own Learning Path, How to rediscover the Warrior Spirit, The Art of Yielding, listening and Speaking, Technology and Taoism, Popular Teaching Illusions, Standard Cliches to Avoid, Going Beyond the limits of Copying, Training Checklists for Students and Teachers, Getting your Students to Teach, Forget diagrams and photos of postures. You can get those in class. Here are the ways to bring a new and fresh approach to both learning and teaching.

[Learning Tracks](#) Lindy Furby, Jilly Catlow, 2016-02-12. *Learning Tracks* is an assessment tool to support the planning and assessment of learning for children and young people with severe and complex learning disabilities (SCLD). It was designed by Lindy Furby and Jilly Catlow while teaching at St Crispin's School for children and young people with severe and complex learning disabilities. At the very early stages of learning, the steps that children and young people make can be small but incredibly significant for them and those who teach them. However, it can be problematic to evidence and formally recognise these achievements and plan next steps. *Learning Tracks* presents a framework to recognise achievement at these early levels and plan for progression through challenge, breadth and application. The *Learning Tracks* framework for recognising achievement at very early levels of learning can help teachers understand the way their children may be learning. Offers a vocabulary for describing the learning. Offers a structure for planning the learning. When you purchase *Learning Tracks*, you receive the book that introduces you to the framework and theories underpinning *Learning Tracks*, describes the curriculum included and demonstrates how it can be implemented in your setting. In addition to this book, you will also receive access to the complete ready-made *Learning Tracks* assessment tool that can be downloaded online. This is available as a PDF with editable elements and a template you can personalise it to suit your individual needs.
