Hardly any other scripture from the time of the Roman Empire of about two thousand years ago has stirred up so much excited attention as the Germania of Tacitus Only from this ethnographic essay do we know the name Nerthus a goddess who should have been venerated by seven smaller Germanic tribes Much of what the Germania tells us is meanwhile highly doubted The 1st century original no longer exists the intact copies were on their part copied from older Germania texts which were also just copies The existing copies are not identical to each other That causes many question marks which also concern this goddess Nerthus This book is an attempt to place some exclamation marks in front of that and is sometimes deliberately provocative

Game of Thrones versus History Brian A. Pavlac,2017-03-09 Since it first aired in 2011 Game of Thrones galloped up the ratings to become the most watched show in HBO s history It is no secret that creator George R R Martin was inspired by late 15th century Europe when writing A Song of Ice and Fire the sprawling saga on which the show is based Aside from the fantastical elements Game of Thrones really does mirror historic events and bloody battles of medieval times

but how closely Game of Thrones versus History Written in Blood is a collection of thought provoking essays by medieval historians who explore how the enormously popular HBO series and fantasy literature of George R R Martin are both informed by and differ significantly from real historical figures events beliefs and practices of the medieval world From a variety of perspectives the authors delve into Martin s plots characterizations and settings offering insights into whether his creations are historical possibilities or pure flights of fantasy Topics include the Wars of the Roses barbarian colonizers sieges and the nature of medieval warfare women and agency slavery celibate societies in Westeros myths and legends of medieval Europe and many more While life was certainly not a game during the Middle Ages Game of Thrones versus History Written in Blood reveals how a surprising number of otherworldly elements of George R R Martin s fantasy are rooted deeply in the all too real world of medieval Europe Find suggested readings recommended links and more from editor Brian Pavlac at gameofthronesversushistory.com
