Diario de sesiones de la cámara de Senadores Argentina. Congreso de la Nación. Senado de la Nación,1888 **Chains of Gold** Marcelo J. Borges,2009 Why did migrants from southern Portugal choose Argentina instead of following the traditional path to Brazil Starting with this question this book explores how at the turn of the twentieth century rural Europeans developed distinctive circuits of transatlantic labor migration linked to diverse immigrant communities in the Americas It looks at transoceanic moves in the larger context of migration systems examining their connections and the crucial role of social networks in migrants geographic mobility and adaptation Combining regional and local perspectives on both sides of the Atlantic Chains of Gold provides a vivid account of the trajectories of migrant men and women as they moved from rural Portugal to contrasting places of settlement in the Argentine pampas and Patagonia **El Gráfico** ,1916

Repertorio americano ,1927 **La Semana médica** ,1922 *Caras y caretas* ,1912 **Great Britain and Argentina** K. Gallo,2001-10-02 Klaus Gallo examines the early nineteenth century relationship between Great Britain and the Río de la Plata a period that represents a crucial point in the transformation of this area of South America into the independent state of Argentina He highlights the initial ambiguities of British aims with the government entertaining both conquest and military aid Gallo shows how the relationship survived this confusion and became much stronger once the Spanish colony gained independence in 1810 He unravels the tangled foreign policy implications for Britain particularly in terms of its alliance with Spain that ultimately led to its recognition of Argentina as a sovereign state **Proyecto y construcción de una nación** Tulio Halperín Donghi,1980 **Science and Catholicism in Argentina (1750-1960)** Miguel de Asúa,2022-05-09 Science and Catholicism in Argentina 1750 1960 is the first comprehensive study on the relationship between science and religion in a Spanish speaking country with a Catholic majority and a Latin pattern of secularisation The text takes the reader from Jesuit missionary science in colonial times through the conflict ridden 19th century to the Catholic revival of the 1930s in Argentina The diverse interactions between science and religion revealed in this analysis can be organised in terms of their dynamic of secularisation The indissoluble identification of science and the secular which operated at rhetorical and institutional levels among the liberal elite and the socialists in the 19th century lost part of its force with the emergence of Catholic scientists in the course of the 20th century In agreement with current views that deny science the role as the driving force of secularisation this historical study concludes that it was the process of secularisation that shaped the interplay between religion and science not the other way around **Revista de la Facultad de Agronomía y Veterinaria** Universidad de Buenos Aires.
