Ahmed Osman,2014-03-24 Recent archaeological findings confirm Osman s 25 year old discovery of the location of the city of the Exodus Explains why modern scholars have been unable to find the city of the Exodus they are looking in the wrong historical period and thus the wrong region of Egypt Details the author s extensive research on Hebrew scriptures and ancient Egyptian texts and records which allowed him to pinpoint the Exodus site Reveals his effort to have his finding confirmed by the Egyptian government including his debates with Zahi Hawass Egyptian Minister for Antiquities Affairs When the first archaeologists visited Egypt in the late 1800s they arrived in the eastern Nile Delta to verify the events described in the biblical Book of Exodus Several locations believed to be the city of the Exodus were found but all were later rejected for lack of evidence This led many scholars to dismiss the Exodus narrative merely as a myth that borrowed from accounts of the Hyksos expulsion from Egypt But as Ahmed Osman shows the events of Exodus have a historical basis and the ruins of the ancient city of Zarw where the Road to Canaan began have been found Drawing on decades of research as well as recent archaeological findings in Egypt Ahmed Osman reveals the exact location of the lost city of the Exodus as well as his 25 year effort to have this finding confirmed by the Egyptian government including his heated debates with Zahi Hawass former Egyptian Minister for Antiquities Affairs He explains why modern scholars have been unable to find the city of the Exodus they are looking in the wrong historical period and thus the wrong region of Egypt He details his extensive research on the Pentateuch of the Hebrew scriptures the historical scenes recorded in the great hall of Karnak and other ancient source texts which allowed him to pinpoint the Exodus site after he discovered that the Exodus happened not during the pharaonic reign of Ramses II but during that of his grandfather Ramses I Osman concluded that the biblical city of the Exodus was to be found at Tell Heboua at the ruins of the fortified city of Zarw the royal city of Ramses I far from the Exodus locations theorized by previous archaeologists and scholars In 2012 after 20 years of archaeological work the location of Zarw was confirmed by Egyptian officials exactly where Osman said it would be 25 years ago Thus Osman shows that time and again if we take the creators of the source texts at their word they will prove to be right **Tales of Ancient**

Lost Cities and Ancient Temples of Mesoamerica LEARN

ALCHEMICAL, The Mayan civilization was a Mesoamerican civilization founded by the Maya peoples It was noted for its hieroglyphic script the only known fully developed writing system of the pre Columbian Americas and its art architecture mathematics calendar and astronomical design Since the 1990s what were once considered mysterious ruins in Mexico have been reconstructed by Archaeologist Winslow Bradford The complex structures were made of lime plastered mud bricks with an internal wood framework supporting heavy loads and a stone foundation below Mayan temples were a place for playing games holding feasts and rituals involving human sacrifice The Maya people built pyramids as places to worship their gods

These pyramids usually had several smaller temples on top to honor their gods. Worshippers would climb the steep steps up to the temple at the top of the pyramid to leave gifts and pray. Some pyramids also had sacred stairways or ramps leading up to them. You might be interested to learn that the Mayan civilization was a Mesoamerican civilization established by the Maya peoples and renowned for its hieroglyphic script, the only known fully developed language system of the pre-Columbian Americas, as well as for its architectural design, engineering, mathematics, calendar, and astronomical design. Mayans were a Mesoamerican civilization living in what is now Guatemala, Honduras, and parts of Mexico. They are believed to have had some contact with the Olmecs who preceded them in Mexico. Their culture ultimately became more complex than other nearby civilizations such as Teotihuacan in today's Mexico City, Zapotec in today's Oaxaca, or Tula in today's Hidalgo. The rise and fall of these three kingdoms left behind massive monuments still standing today that had survived centuries without being covered by new civilizations coming in on top of them. Like happened at many other sites around Mexico Central America where older buildings were simply built over when newer ones came along later on top of them.
