Major Texts Of French Literature:

The Major Texts of French Literature Wallace Fowlie, 1973 *The Feminist Encyclopedia of French Literature* Eva M. Sartori, 1999-07-30 The earliest known literary productions by women living in Europe were probably written by French writers As early as the 12th century women troubadours in the south of France were writing poems French women continued writing through the ages their number increasing as education became more available to women of all classes And yet of the great number of works by women writers who preceded the current feminist movement very few have survived A few writers such as Marie de France George Sand and Simone de Beauvoir became part of the canon But critics mostly male had judged the works of only a few women writers worthy of recognition As part of the feminist move to reclaim women writers and to rethink literary history scholars in French literature began to take a new look at women writers who had been popular during their lifetimes but who had not been admitted into the canon This reference book provides extensive information about French women writers and the world in which they lived Included are several hundred alphabetically arranged entries for authors literary genres such as the novel poetry and the short story literary movements such as classicism realism and surrealism life cycle events particular to women such as menstruation and menopause events and institutions which affected women differently than men such as revolutions wars and laws on marriage divorce and education The volume spans French literature from the Middle Ages to the present and covers those writers who lived and worked mainly in France The entries are written by expert contributors and each includes bibliographical information The entries focus on each writer s awareness of how her gender shaped her outlook and opportunities on how categorizations structures and terms used to describe literary works have been defined for women and the ways in which women writers have responded to these definitions The volume begins with a feminist history of French literature and concludes with a selected general bibliography and a chronology of women writers **The Cambridge Companion to Medieval French Literature** Simon Gaunt, Sarah Kay, 2008-04-10 Medieval French literature encompasses 450 years of literary output in Old and Middle French mostly produced in Northern France and England These texts including courtly lyrics prose and verse romances dits amoureux and plays proved hugely influential for other European literary traditions in the medieval period and beyond This Companion offers a wide ranging and stimulating guide to literature composed in medieval French from its beginnings in the ninth century until the Renaissance The essays are grounded in detailed analysis of canonical texts and authors such as the Chanson de Roland the Roman de la Rose Villon s Testament Chr tien de Troyes Machaut Christine de Pisan and the Tristan romances Featuring a chronology and suggestions for further reading this is the ideal companion for students and scholars in other fields wishing to discover the riches of the French medieval tradition **The Cambridge History of French Literature** William Burgwinkle, Nicholas Hammond, Emma Wilson, 2011-02-24 The most comprehensive history of literature written in French ever produced in English *A Short History of French Literature* Sarah Kay, Terence Cave, Malcolm

Bowie,2006-01-12 This book traces the history of French literature from its beginnings to the present Within its remarkably brief compass it offers a wide ranging personal and detailed account of major writers and movements Developments in French literature are presented in an innovative way not as an even sequence of literary events but as a series of stories told at varying pace and with different kinds of focus Readers can thus take in the broad sweep of historical change grasp the main characteristics of major periods or enjoy a close appraisal of individual works and their contexts The book is written in an accessible and non technical style that will make it attractive to students and to all those who enjoy French Literature

A Short History of French Literature (from the Earliest Texts to the Close of the Nineteenth Century) George Saintsbury,1928 *A Critical Bibliography of French Literature V2 16th C* , **Challenges of Translation in French Literature** Richard Bales,2005 In celebrating the academic career and practice of a distinguished scholar of French literature this volume concentrates on one of Peter Broome s major preoccupations and attainments translation Eschewing a dogmatic theoretical approach the contributors former colleagues and students tackle four rich areas of study modern anglophone poets reactions to and translations of authors with whom they have closely identified Racine the Symbolists Saint John Perse Val ry problematics of translating specific poets of recent centuries Rimbaud Mallarm Val ry C saire some contemporary poets reception and interaction in two foreign countries Australia Spain and a more fluid interpretation of translation moving the notion across into wider realms of literary expression Mallarm Proust Assia Djebar A focalising feature punctuating the volume are Peter Broome s own translations of hitherto unpublished poems by five major contemporary French writers Jean Paul Auxem ry Marie Claire Bancquart Louise Herlin V nus Khoury Ghata and Jean Charles Vegliante The book thus intertwines theory and practice in a non prescriptive manner which invites further elaboration and analysis Historical Dictionary of French Literature John Flower,2013-01-17 Almost all of us know French literature even if we don t know French because it is probably the second largest and certainly the most translated into English And even if we don t read we would have seen film and television versions think Count of Monte Cristo and even a musical rendition Les Mis So this is a particularly interesting volume in the literature series since it covers French literature from the earliest times to the present It is also a particularly rich literature espousing ever genre from poetry to novel to biography to drama and adopting every style including realism and surrealism and expressing the views of all classes and political stands with recently strong feminist and gay strains Obviously the core dictionary section includes among its panoply of often substantial and detailed entries hundreds of authors dozens of significant works the various styles mentioned above and many others events that have impacted literature such as the Dreyfus Affair and the Algerian War and literary prizes The chronology manages to cover about 1 200 years of literary output And the introduction sets it all out neatly from one historical and literary period to the next The bibliography broken down by period and author directs us to further reading in both French and English **The French Tradition and the Literature of Medieval England** William

Calin, 1994-12-15 The French presence in English literary history in the centuries following the Conquest has to some extent been glossed over or treated as an interlude. During this period roughly 1100-1420 French like Latin was the language of the educated in the courts of England and for nobles, clerics and the rising commercial elements communication was multilingual. In his ground breaking study William Calin explores in depth this era of medieval English literature and culture in relation to its distinctly French influences and contemporaries. He examines the Anglo Norman contribution to medieval literature concentrating on romance and hagiography the great continental French texts such as *Prose Lancelot* and the *Romance of the Rose* which had a dominant role in shaping literature in English and the English response to the French cultural world the two modes in English where the French presence was most significant court poetry Chaucer Gower Hoccleve and Middle English romance. This book is grounded in French sources both well known and relatively obscure. Translations of the Old French make *The French Tradition and the Literature of Medieval England* accessible to scholars and students of Medieval English comparatists and historians as well as those proficient in French. Calin develops a synthesis of medieval French and English literature that will be especially useful for classroom study.
