Emerson, 1972 An outstanding collection of original critical essays by distinguished specialists this book is both a chronological survey of nearly 200 years of American literature and an exciting reappraisal of the major figures of that period Includes works from Benjamin Franklin Jonathan Edwards William Bryd Anne Bradstreet William Bradford and others **American Literature Before 1880** Robert Lawson-Peebles, 2003-11-13 American Literature Before 1880 attempts to place its subject in the broadest possible international perspective It begins with Homer looking westward and ends with Henry James crossing the Atlantic eastwards In between the book examines the projection of images of the East onto an as yet unrecognised West the cultural consequences of Viking Colombian and then English migration to America the growth and independence of the British American colonies the key writers of the new Republic and the development of the culture of the United States before and after the Civil War It is intended both as an introduction for undergraduates to the richness and variety of American Literature and as a contribution to the debate about its distinctive nature The book therefore begins with a lengthy survey of earlier histories of American Literature The Oxford Handbook of Early American Literature Kevin J. Hayes, 2008-02-06 Organized primarily in terms of genre this handbook includes original research on key concepts as well as analysis of interesting texts from throughout colonial America Separate chapters are devoted to literary genres of great importance at the time of their composition that have been neglected in recent decades **American Literature, 1764-1789** Everett H. Emerson, 1977 The twenty five years in which the American colonists acquired a sense of nationhood were turbulent highly spirited and highly literary The finest written products of this intellectual surge included not only the fiery pamphlets broadsides and newspaper articles of the revolutionists but also works of prose an poetry letters diaries sermons and plays **The Latest Early American Literature** R. C. De Prospro, 2016-01-21 The Latest Early American Literature according to readers for the University of Delaware Press is a collection of polemics and manifestoes In it R C De Prospro bids to follow in the footsteps of the two rare early Americanist dissenters whom Philip F Gura once distinguished as prophets without honor in the field William Spengemann and Michael Colacurcio The book contends that a supposedly retired nationalist modernist telos continues to reign in most of the latest scholarship and even more influentially in all of the current literary histories and anthologies no matter how expansive in gender ethnic racial and hemispheric inclusiveness they profess to be Old teloi in particular that old American exceptionalist one can be cunning Updating and expanding upon essays written over the past thirty years De Prospro proposes not only negatively to critique how the latest scholarly receptions of early American

literature differ insignificantly from the earlier ones but positively to propose how a transnationalist concession that as a neocolonial culture America's lags behind that of Europe might advance post modern historiography by radically repositioning the past as no longer the present's diachronic predecessor but to quote Lyotard's semiotics its synchronic differend Closer to earth De Prosopo tries at the same time to remain mindful of the pedagogical imperative that ultimately to save the texts of early American literature will require making them legible to average non specialist never to become specialist undergraduate general education students To facilitate this he introduces in the concluding section of *The Latest Early American Literature* what will probably be taken as its most radical intervention the redefinition of Edgar Allan Poe as an early American writer

The Cambridge Introduction to Early American Literature Emory Elliott,2002-08-29 The Cambridge Introduction to Early American Literature offers students a literary history of American writing in English between 1492 and 1820 as well as providing a concise social and cultural history of these three centuries Emory Elliott traces the impact of race gender and ethnic conflict on early American culture and explores the centrality of American Puritanism in the formation of a distinctively American literature This highly engaging and comprehensive study will be essential reading for students of the literature history and culture of early America

Gothic Landscapes Sharon Rose Yang,Kathleen Healey,2016-11-15 This book is about the ways that Gothic literature has been transformed since the 18th century across cultures and across genres In a series of essays written by scholars in the field the book focuses on landscape in the Gothic and the ways landscape both reflects and reveals the dark elements of culture and humanity It goes beyond traditional approaches to the Gothic by pushing the limits of the definition of the genre From landscape painting to movies and video games from memoir to fiction and from works of different cultural origins and perspectives this volume traverses the geography of the Gothic revealing the anxieties that still haunt humanity into the twenty first century

Prophecy, Piety, and the Problem of Historicity Jan Stievermann,2016-03-11 Jan Stievermann's pioneering study of Cotton Mather's *Biblia Americana* examines this Puritan scholar's engagement with the Hebrew Bible as Old Testament The author focuses specifically on Mather's struggle to uphold or modify traditional typological and allegorical readings in the face of a growing awareness of the historicity of Scriptures Other key issues include Mather's interventions in the contemporary debates over the legitimacy of Christian interpretations of the prophets as well as over the authorship provenance genre and spiritual import of texts such as *Ecclesiastes* and *Canticles* Stievermann's book yields fascinating insights into an underappreciated phase of exegesis that was at once traditionalist and innovative apologetically oriented pious and open to new modes of historical textual criticism Moreover it shows how Mather's biblical exegesis fits into the broader development of Puritan theology and identity

Theism in the Discourse of Jonathan Edwards R. C. De Prosopo,1985 This book proposes that a new semiotic category called theism can more intelligibly classify the discursive

pattern that precedes modern humanism in American literature than such standard historicist categories as Puritanism or Calvinism or medievalism and that the writings of Jonathan Edwards exemplify this theist discursive pattern Popular Measures Amy M. E. Morris, 2005 *Popular Measures* examines the influence of Congregationalist church practices on poetry and poetics in early New England It considers how the rejection of set prayers and the privileging of more spontaneous oral forms such as the plain style sermon and the conversion narrative in colonial churches influenced the style of locally written religious verse The book consists of an overview of church practices and their implications for poetry followed by a series of case studies focusing on texts written at different stages of the colony's development from 1640 to 1700 the Bay Psalm Book Michael Wigglesworth's *The Day of Doom* and Edward Taylor's *Gods Determinations* The investigation concludes that colonial religious writers transformed the poetic conventions they had inherited from England in order to enhance the effectiveness of their verse in a culture that portrayed forms and formality as at best able to lead an individual only halfway on the journey towards salvation University of Delaware Press **America Writes Its History, 1650-1850** Jude M. Pfister, 2014-05-21 By turns irreverent sympathetic and amusing *America Writes Its History 1650 1850* adds to the public discourse on national identity as advanced through the written word Highlighting the contributions of American writers who focused on history the author shows that for nearly 200 years writers struggled to reflect or influence the public perception of America by Americans This book is an introduction to the development of history as a written art form and an academic discipline during America's most crucial and impressionable period *America Writes Its History 1650 1850* takes the reader on a historical tour of written histories whether narrative history novels memoirs or plays from the Jamestown Colony to the edge of the Civil War What exactly did we as Americans think of ourselves And more importantly What did we want non Americans to think of us In other words what was and is history and who if anyone owns it **The Puritans in America** Alan Heimert, Andrew Delbanco, 2009-07-01 In a felicitous blend of documents and narrative Heimert and Delbanco recapture the sweep and restless change of Puritan thought from its incipient Americanism through its dominance in New England society to its fragmentation in the face of dissent from within and without American Studies Jack Salzman, American Studies Association, 1986-08-29 This is an annotated bibliography of 20th century books through 1983 and is a reworking of *American Studies An Annotated Bibliography of Works on the Civilization of the United States* published in 1982 Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America it focuses on books that have an important cultural framework and does not include those which are primarily theoretical or methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph length non evaluative annotations Includes author title and subject indexes ISBN 0 521 32555 2 set 150 00 *Colonial America: An Encyclopedia of Social,*

The Turn Around Religion in America Michael P. Kramer, 2016-02-24 Playing on the frequently used metaphors of the turn toward or turn back in scholarship on religion *The Turn Around Religion in America* offers a model of religion that moves in a reciprocal relationship between these two poles In particular this volume dedicates itself to a reading of religion and of religious meaning that cannot be reduced to history or ideology on the one hand or to truth or spirit on the other but is rather the product of the constant play between the historical particulars that manifest beliefs and the beliefs that take shape through them Taking as their point of departure the foundational scholarship of Sacvan Bercovitch the contributors locate the universal in the ongoing and particularized attempts of American authors from the seventeenth century forward to get it whatever that it might be right Examining authors as diverse as Pietro di Donato Herman Melville Miguel Algarin Edward Taylor Mark Twain Robert Keayne Nathaniel Hawthorne Paule Marshall Stephen

Crane Ralph Waldo Emerson and Joseph B Soloveitchik among many others and a host of genres from novels and poetry to sermons philosophy history journalism photography theater and cinema the essays call for a discussion of religion s powers that does not seek to explain them as much as put them into conversation with each other Central to this project is Bercovitch s emphasis on the rhetoric ritual typology and symbology of religion and his recognition that with each aesthetic enactment of religion s power we learn something new

The Marriage of Heaven and Earth Randall A. Clack, 2000-08-30 From the Middle Ages to the close of the 17th century alchemy was fundamental to Western culture as scores of experimenters sought to change lead into gold Though its significance declined with the rise of chemistry alchemy continued to captivate the imagination of writers and its images still appear in modern creative works This book examines the literary representation of alchemical theory and the metaphor of alchemical regeneration in the works of Edward Taylor Edgar Allan Poe Nathaniel Hawthorne and Margaret Fuller While Taylor used alchemical metaphors to illustrate the redeeming grace of God upon the soul these same metaphors were used by Poe Hawthorne and Fuller to depict a broader concept of redemption These later writers used alchemical imagery to describe both the regeneration of the individual and the possible transformation of society For Poe alchemy became a metaphor for the transforming power of imagination for Hawthorne it became a means of representing the redeeming power of love for Fuller it figured the reconciliation of gender opposites Thus these four American writers incorporated the idea of regeneration in their works and the tropes and metaphors of the medieval alchemists provided a fascinating way of imagining the transformative process
