

Majority Of One

Rex Martin

Majority Of One:

The Westminster Review ,1882 **The Tyranny of the Majority** Tamás Nyirkos,2018-01-29 Tam s Nyirkos provides a timely and essential reassessment of the concept of the tyranny of the majority for the study of democracy today The analysis is divided into three parts the first discusses the prehistory of majority tyranny the second reviews the elements of the standard theory in the modern era while the third deals with the current postmodern challenges to the prevailing order of liberal democracy Combining different elements of theories dating from the Middle Ages to the present Nyirkos theorizes that while the term the tyranny of the majority may be misleading the threat that tyrannical governments justify themselves by reference to the majority will remain with us for the foreseeable future He shows how some of the greatest political philosophers of the past democrats and antidemocrats alike shared the same fears about the majoritarian principle The Tyranny of the Majority will offer all those who read it a better understanding of what is meant not only by this term but also by related terms like democratic despotism populism or illiberal democracy It will be of interest to scholars of politics and international relations political philosophy political theology and intellectual history **The Works of Daniel Webster: Speeches in the convention to amend the constitution of Massachusetts. Speeches in Congress** Daniel Webster,1872 **Ohio Archæological and Historical Quarterly** ,1900 The Moderate Majority George Hawley,2024-11-04 The Moderate Majority examines the Republican electorate and challenges the conventional narrative that today s Republicans are all radicalized reactionary ideologues It illuminates the substantial gap between the elites and diverse mostly moderate rank and file GOP voters With a historically grounded mixed methods approach that draws on a rich collection of empirical survey data and face to face interviews this book presents a comprehensive portrait of contemporary mass Republican opinion and behavior **A System of Rights** Rex Martin,1993 The justification of political authority is one of the long standing issues of political philosophy and one which persistently defies satisfactory solution This book sets out to provide an original justification by establishing a background framework for dealing with this problem The model political system that emerges is one in which certain kinds of political rights are emphasized Rex Martin then discusses what the implications of such a system might be for democratic institutions political allegiance punishment and ultimately for the nature of political authority itself The Emerging Democratic Majority John B. Judis,Ruy Teixeira,2004-02-10 ONE OF THE ECONOMIST S BEST BOOKS OF THE YEAR AND A WINNER OF THE WASHINGTON MONTHLY S ANNUAL POLITICAL BOOK AWARD Political experts John B Judis and Ruy Teixeira convincingly use hard data demographic geographic economic and political to forecast the dawn of a new progressive era In the 1960s Kevin Phillips battling conventional wisdom correctly foretold the dawn of a new conservative era His book The Emerging Republican Majority became an indispensable guide for all those attempting to understand political change through the 1970s and 1980s At the beginning of the twenty first century with the country in Republican hands The Emerging Democratic Majority is the indispensable guide to this era In five well

researched chapters and a new afterword covering the 2002 elections Judis and Teixeira show how the most dynamic and fastest growing areas of the country are cultivating a new wave of Democratic voters who embrace what the authors call progressive centrism and take umbrage at Republican demands to privatize social security ban abortion and cut back environmental regulations As the GOP continues to be dominated by neoconservatives the religious right and corporate influence this is an essential volume for all those discontented with their narrow agenda and a clarion call for a new political order

The Case for the Byzantine Majority Text Maurice A Robinson, William G Pierpont, 2024-09-27 The authors present their research and reasons for believing that the Byzantine Majority text is ancient and reliable They argue that the Byzantine Text is not younger than the Alexandrian text in its origin This edition includes the Apocalypse of John in Byzantine Greek as a sample of their edition of the New Testament The authors conclude If modern eclectic theory with its problematic resultant text can secure a niche within NT textual criticism so much more the Byzantine priority hypothesis with its insistence upon the establishment of a solid transmissional base before applying principles of internal and external criticism
