

Makers of Modern Strategy

from Machiavelli to the Nuclear Age

EDITED BY PETER PARET

Makers Of Modern Strategy From Machiavelli To The Nuclear Age

Gregory Fremont-Barnes

Makers Of Modern Strategy From Machiavelli To The Nuclear Age:

Makers of Modern Strategy from Machiavelli to the Nuclear Age Peter Paret, Gordon A. Craig, Felix Gilbert, 1986-10-30 War cannot be controlled in future without an understanding of its past These essays analyse war its strategic characteristics and its political and social functions over the past five centuries **Makers of modern strategy** Peter Paret, 1990

Makers of Modern Strategy Peter Paret, Gordon Alexander Craig, Felix Gilbert, 1986-01-01 War cannot be controlled in future without an understanding of its past These essays analyse war its strategic characteristics and its political and social functions over the past five centuries **Makers of Modern Strategy** Gordon Alexander Craig, Felix Gilbert, 1986 This text discusses Machiavelli Maurice of Nassau Gustavus Adolphus Raimondo Montecuccoli Vauban Frederick the Great Guibert Bulow Napoleon Jomini Clausewitz Adam Smith Alexander Hamilton Friedrich List Engels Marx Moltke Schlieffen Delbruck Bugeaud Gallieni Lyautey Alfred Thayer Mahan Liddell Hart De Gaulle and other military strategists Makers of Modern Strategy from Machiavelli to the Nuclear Age Peter Paret, Gordon A. Craig, Felix Gilbert, 2010-10-01 Authoritative and convincing New York Times Book Review The classic reference on the theory and practice of war The essays in this volume analyze war its strategic characteristics and its political and social functions over the past five centuries The diversity of its themes and the broad perspectives applied to them make the book a work of general history as much as a history of the theory and practice of war from the Renaissance to the present Makers of Modern Strategy from Machiavelli to the Nuclear Age takes the first part of its title from an earlier collection of essays that became a classic of historical scholarship Three essays are repinted from the earlier book while four others have been extensively revised The rest twenty two essays are new The subjects addressed range from major theorists and political and military leaders to impersonal forces Machiavelli Clausewitz and Marx and Engels are discussed as are Napoleon Churchill and Mao Other essays trace the interaction of theory and experience over generations the evolution of American strategy for instance or the emergence of revolutionary war in the modern world Still others analyze the strategy of particular conflicts the First and Second World Wars or the relationship between technology policy and war in the nuclear age Whatever its theme each essay places the specifics of military thought and action in their political social and economic environment Together the contributors have produced a book that reinterprets and illuminates war one of the most powerful forces in history and one that cannot be controlled in the future without an understanding of its past **Studyguide for Makers of Modern Strategy from Machiavelli to the Nuclear Age by , Peter Paret, Isbn 9780691027647** Cram101 Textbook Reviews, 2013-12 Never HIGHLIGHT a Book Again Includes all testable terms concepts persons places and events Cram101 Just the FACTS101 studyguides gives all of the outlines highlights and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanies 9780691027647 This item is printed on demand **The New Makers of Modern Strategy** Hal Brands, 2023-05-02 The essential resource on military and political strategy and the making of the modern world The

New Makers of Modern Strategy is the next generation of the definitive work on strategy and the key figures who have shaped the theory and practice of war and statecraft throughout the centuries Featuring entirely new entries by a who's who of world class scholars this new edition provides global comparative perspectives on strategic thought from antiquity to today surveying both classical and current themes of strategy while devoting greater attention to the Cold War and post 9 11 eras The contributors evaluate the timeless requirements of effective strategy while tracing the revolutionary changes that challenge the makers of strategy in the contemporary world Amid intensifying global disorder the study of strategy and its history has never been more relevant The New Makers of Modern Strategy draws vital lessons from history's most influential strategists from Thucydides and Sun Zi to Clausewitz Napoleon Churchill Mao Ben Gurion Andrew Marshall Xi Jinping and Qassem Soleimani With contributions by Dmitry Adamsky John Bew Tami Davis Biddle Hal Brands Antulio J Echevarria II Elizabeth Economy Charles Edel Eric S Edelman Andrew Ehrhardt Lawrence Freedman John Lewis Gaddis Francis J Gavin Christopher J Griffin Ahmed S Hashim Eric Helleiner Wayne Wei-siang Hsieh Seth G Jones Robert Kagan Jonathan Kirshner Matthew Kroenig James Lacey Guy Laron Michael V Leggiere Margaret MacMillan Tanvi Madan Thomas G Mahnken Carter Malkasian Daniel Marston John H Maurer Walter Russell Mead Michael Cotey Morgan Mark Moyar Williamson Murray S C M Paine Sergey Radchenko Iskander Rehman Thomas Rid Joshua Rovner Priya Satia Kori Schake Matt J Schumann Brendan Simms Jason K Stearns Hew Strachan Sue Mi Terry and Toshi Yoshihara

Asymmetric Warfare and Military Thought

Adam Lowther, 2006 Adam Lowther

Non-State Challenges in a Re-Ordered World Stefano Ruzza, Anja P Jakobi, Charles Geisler, 2015-10-14 There is a sprawling scholarship on violence crime and corrupt state rule yet few have interpreted these challenges as transformative at the global scale and as a potential source of alternative non state legitimacy This volume challenges Westphalian conservatism in a provocative yet plausible manner shedding light at the ubiquity and diversity of unfolding non state agendas and at their effect on the imagined state community Focusing on civil war parties warlords commercial providers of security multinational companies and criminal organizations the book directs attention to theoretical questions and policy challenges arising from non state armed expansion To accomplish this the contributors present a range of case studies and comparisons within three thematic sections the first takes stock of how when and in what measure state and state system legitimacy are challenged by non state violent or criminal activity the second addresses the nature effectiveness and side effects of different state mandated reaction to non state activities and third focuses on the recombination of state and non state actors contributing to processes of socio political transformation This volume provides a current analysis of different armed and violent actors encroaching on the state's monopoly of violence It seeks to spark debate about global political change and will be of interest to students and scholars of global governance global security and international relations

An Army at War: Change in the Midst of Conflict (The Proceedings of the Combat Studies Institute [sic] 2005 Military History Symposium) ,

World Politics and the Evolution of War John J. Weltman, 1995 In this

comprehensive study international relations scholar John Weltman explores the many roles of war in world politics With topics ranging from the development of strategic thought to the effects on war of political and technological change from the uses of force and threats of force to the uses of arms control from the prominence of war in history to its likely fate in the post Cold War world Weltman s analysis offers a detailed thoroughgoing and rigorous overview of the subject Throughout Weltman questions a number of widely held assumptions To the conventional argument that the number of players in the international system determines the incidence and character of war he responds with evidence that suggesting that the social material and intellectual context within which conflicts occur is far more influential Weltman also questions the prevailing wisdom that democracies are inherently peaceful and autocracies inherently warlike arguing instead that the propensity to wage war and the effects of war are largely the products of prevailing expectations whether or not war offers a means for the cheap easy and decisive accomplishment of a government s objectives And he criticizes the dominant view that conflict even violent conflict is psychologically abnormal Drawing upon the traditional distinction between wars of attrition and wars of annihilation Weltman sees the trend toward the former despite the anomalous Persian Gulf conflict as likely to continue While this trend does not suggest the end of warfare much less the end of history it does imply the localization of conflict and the minimization of the danger of global conflagration The new world order Weltman concludes will be far from peaceful but the conflicts that do arise will be slow burning and difficult to spread Outside intervention in these conflicts will be costly

After Clausewitz Antulio J. Echevarria (II), Antulio Joseph Echevarria, 2000 But Echevarria disputes this traditional view and convincingly shows that these theorists Boguslawski Goltz Schlieffen Hoening and their American and European counterparts were not the architects of outmoded theories In fact they duly appreciated the implications of the vast advances in modern weaponry as well as in transportation and communications and set about finding solutions that would restore offensive maneuver to the battlefield

BOOK JACKET **Clausewitz and America** Stuart Kinross, 2009-10-16 This book demonstrates how Clausewitzian thought influenced American strategic thinking between the Vietnam War and the current conflict in Iraq Carl von Clausewitz s thought played a part in the process of military reform and the transition in US policy that took place after the Vietnam War By the time of the 1991 Gulf War American policy makers demonstrated that they understood the Clausewitzian notion of utilizing military force to fulfil a clear political objective The US armed forces bridged the operational and strategic levels during that conflict in accordance with Clausewitz s conviction that war plans should be tailored to fulfil a political objective With the end of the Cold War and an increasing predilection for technological solutions American policy makers and the military moved away from Clausewitz It was only the events of 11 September 2001 that reminded Americans of his intrinsic value However while many aspects of the War on Terror and the conflict in Iraq can be accommodated within the Clausewitzian paradigm the lack of a clear policy for countering insurgency in Iraq suggests that the US may have returned full circle to the flawed strategic approach evident in Vietnam Clausewitz and America will be

of great interest to students of strategy military history international security and US politics

Grand Strategy in Theory and Practice William C. Martel, 2015-01-12 This book explores fundamental questions about grand strategy as it has evolved across generations and countries It provides an overview of the ancient era of grand strategy and a detailed discussion of its philosophical military and economic foundations in the modern era The author investigates these aspects through the lenses of four approaches those of historians social scientists practitioners and military strategists The main goal is to provide contemporary policy makers and scholars with a historic and analytic framework in which to evaluate and conduct grand strategy By providing greater analytical clarity about grand strategy and describing its nature and its utility for the state this book presents a comprehensive theory on the practice of grand strategy in order to articulate the United States past present and future purpose and position on the world stage

Reinterpreting Russia's Strategic Culture Nicolò Fasola, 2024-07-05 This book analyses the categories of thought underpinning Russia's strategic decision making and military operations unpacking their nature development and interaction The work argues that mainstream Western analysis of Russian military and strategic behaviour is affected by two limitations first by forcing Russian choices into pre packaged logics of action it fails to grasp the peculiar assumptions and intellectual nuances underpinning Moscow's strategies second an overreliance on buzzwords such as hybridity has mystified understanding of the Russian military modus operandi its true character and strong consistencies The book addresses such limitations by stressing the influence of strategic culture on Russia's approach to strategy and war fighting After proposing an original model of strategic culture it employs this conceptual framework to interrogate Russian primary sources and military practices between 2008 and 2018 This allows general hypotheses to be formulated about the ultimate principles underpinning the Russian way of war which are then tested against three case studies Russia's interventions in Georgia 2008 Ukraine 2014 2015 and Syria 2015 2018 respectively While steering clear of making forecasts this book provides a solid basis on which to build expectations about and to chart strategies for counter acting Moscow's actions including in the context of the current war in Ukraine This book will be of much interest to students of Russian security military and strategic studies foreign policy and International Relations in general

Modern Military Strategy Elinor C. Sloan, 2016-10-11 This textbook provides a comprehensive introduction to post Cold War military theory for students of strategic studies This second edition has been fully revised and updated including a new chapter on peacekeeping and examines contemporary strategic thought on the conduct of war in the sea land air nuclear space and cyber domains as well as irregular warfare Each chapter identifies contemporary strategic thinkers in a particular area examines strategic thought through the lens of identifiable themes and discusses the ideas of classical strategists to provide historical context Examples of the link between the use of military force and the pursuit of political objectives are presented such as airpower against ISIS and in Libya counterinsurgency in Afghanistan and Iraq counter piracy operations off the coast of Africa and the Stuxnet virus in Iran The chapters identify trends statements and principles that indicate how military

power can best be employed to effect political ends while the conclusion paints an overall picture of the relationship between classic and contemporary strategic thinking within each warfare domain This book will be essential reading for students of strategic studies war studies and military history and is highly recommended for students of security studies and international relations in general *Maritime Strategy and Sea Control* Milan Vego, 2016-04-14 This book focuses on the key naval strategic objectives of obtaining and maintaining sea control During times of war sea control or the ability of combatants to enjoy naval dominance plays a crucial role in that side's ability to attain overall victory This book explains and analyzes in much greater detail sea control in all its complexities and describes the main methods of obtaining and maintaining it Building on the views of naval classical thinkers this book utilizes historical examples to illustrate the main methods of sea control Each chapter focuses on a particular method including destroying the enemy forces by a decisive action destroying enemy forces over time attrition containing enemy fleet choke point control and capturing important enemy's positions basing area The aim is to provide a comprehensive theory and practice of the struggle for sea control at the operational level It should therefore provide a guide to practitioners on how to plan and conduct operational warfare at sea The book will be of much interest to students of naval strategy defence studies and security studies The Ashgate Research Companion to Political Violence Marie Breen-Smyth, 2016-03-23 Aimed at scholars students and lay persons interested in peace and conflict studies The Ashgate Research Companion to Political Violence is a comprehensive resource to understand the principal debates on political violence a field which is becoming an increasingly important part of courses on peace and conflict Organized into seven main sections this volume deals with a wide range of issues covering the following important research areas Issues of definition and nomenclature and how contests over these relate to political violence Theoretical frameworks and methods for understanding and researching political violence Motivations and goals of those who use political violence The various forms of political violence Perspectives on countering political violence by state and non state actors Why and how political violence ends The aftermath of political violence Contributions by leading scholars in the field provide an authoritative guide and source book on political violence for the scholar the researcher and the informed general reader A History of Counterinsurgency Gregory Fremont-Barnes, 2015-05-05 This two volume history of counterinsurgency covers all the major and many of the lesser known examples of this widespread and enduring form of conflict addressing the various measures employed in the attempt to overcome the insurgency and examining the individuals and organizations responsible for everything from counterterrorism to infrastructure building How and when should counterinsurgency be pursued as insurgency is growing in frequency and conversely while conventional warfare continues to decline as a means by which political rivals seek to impose their will upon each other What lessons from the past should today's policymakers strategists military leaders and soldiers in the field keep in mind while facing off against 21st century insurgents This two volume set offers a comprehensive history of modern counterinsurgency covering the key

examples of this widespread and enduring form of conflict. It identifies the political, military, social, and economic measures employed in attempting to overcome insurgency, examining the work of the individuals and organizations involved, demonstrating how success and failure dictated change from established policy, and carefully analyzing the results. Readers will gain valuable insight from the detailed assessments of the history of counterinsurgency that demonstrate which strategies have succeeded and which have failed, and why. After an introductory essay on the subject, each chapter provides historical background to the insurgency being addressed, before focusing on the specific policies pursued and actions taken by the counterinsurgency force. Each section also provides an assessment of those operations, including in most cases an analysis of lessons learned and where appropriate, their relevance to counterinsurgency operations today. The set's coverage spans modern counterinsurgencies from Europe to Asia to Africa since 1900 and includes the ongoing counterinsurgency operations in Afghanistan today. Its wide international approach to the subject makes the set a prime resource for readers seeking specific information on a particular conflict or a better understanding of the general theories and practices of counterinsurgency.

War, Clausewitz and the Trinity Thomas Waldman, 2016-02-17 Today the ideas of Carl von Clausewitz (1780-1831) are employed almost ubiquitously in strategic studies, military history, and defence literatures, but often in a manner which distorts their true meaning. In this book, Waldman explores Clausewitz's central theoretical device for understanding war: the remarkable trinity of politics, chance, and passion. By situating the great Prussian in historical context, he presents a conception truer to Clausewitz's intention. Seeking to achieve this through an in-depth reinterpretation of *On War* and Clausewitz's other writings, conducted through the prism of the trinity, this book draws on existing studies but argues that there is room for clarification. It presents fresh perspectives into aspects of Clausewitz's thought and emphasises elements of his theory that have often been neglected. Furthermore, it provides a solid basis from which debate on the nature of modern war can move forward.

Whispering the Techniques of Language: An Psychological Journey through **Makers Of Modern Strategy From Machiavelli To The Nuclear Age**

In a digitally-driven world where screens reign great and instant connection drowns out the subtleties of language, the profound techniques and mental nuances concealed within phrases often get unheard. However, situated within the pages of **Makers Of Modern Strategy From Machiavelli To The Nuclear Age** a interesting literary treasure sporting with raw feelings, lies an extraordinary journey waiting to be undertaken. Composed by a talented wordsmith, that charming opus attracts visitors on an introspective trip, gently unraveling the veiled truths and profound influence resonating within ab muscles cloth of each and every word. Within the emotional depths with this poignant review, we can embark upon a honest exploration of the book is primary styles, dissect their charming publishing type, and yield to the effective resonance it evokes strong within the recesses of readers hearts.
