Making Films In Contemporary Hollywood:

Hollywood's Artists Virginia Wright Wexman, 2020-07-21 Today the director is considered the leading artistic force behind a film. The production of a Hollywood movie requires the labor of many people from screenwriters and editors to cinematographers and boom operators but the director as author of the film overshadows them all. How did this concept of the director become so deeply ingrained in our understanding of cinema? In *Hollywood's Artists* Virginia Wright Wexman offers a groundbreaking history of how movie directors became cinematic auteurs that reveals and pinpoints the influence of the Directors Guild of America (DGA). Guided by Frank Capra's mantra "one man, one film," the Guild has portrayed its director members as the creators responsible for turning Hollywood entertainment into cinematic art. Wexman details how the DGA differentiated itself from other industry unions focusing on issues of status and creative control as opposed to bread and butter concerns like wages and working conditions. She also traces the Guild's struggle for creative and legal power exploring subjects from the language of on-screen credits to the House Un-American Activities Committee's investigations of the movie industry. Wexman emphasizes the gendered nature of images of the great director demonstrating how the DGA promoted the idea of the director as a masculine hero. Drawing on a broad array of archival sources, interviews, and theoretical and sociological insight, *Hollywood's Artists* sheds new light on the ways in which the Directors Guild of America has shaped the role and image of directors both within the Hollywood system and in the culture at large. **The New Film History**

J. Chapman, M. Glancy, S. Harper, 2007-04-25 The first major overview of the field of film history in twenty years, this book offers a wide-ranging account of the methods, sources, and approaches used by modern film historians. The key areas of research are analysed alongside detailed case studies centred on well-known American, Australian, British, and European films.

The Evolution of Hollywood's Calculated Blockbuster Films Alexander Ross, 2023-04-24 In this book Alexander Ross highlights how creative entrepreneurs saved the Hollywood studios in the 1970s by establishing the calculated blockbuster consisting of key replicable markers of success as Hollywood's preeminent business model. Ross demonstrates how visionary individuals such as Coppola, Spielberg, Lucas, and Zemeckis helped create the modern calculated blockbuster business model (BBM). However, with the rise of streaming giants and the studios struggling to compete, many consumers of entertainment now elect to partake from the comfort of their homes, making the difference between cinema and television anachronistic. Revisiting the history of those 1970s blockbusters and their ongoing impact on contemporary filmmaking, Ross offers distinct analysis on whether the calculated blockbuster can continue to lead or if the streamers will continue to generate their own content and eventually fully control the dissemination process. For scholars and students in film, pop culture, and business, along with aspiring filmmakers, screenwriters, producers, and executives, the book will be a valued resource.
