Making Of A Great Power:

The Great War and the Making of the Modern World Jeremy Black, 2011-03-17 This new work demonstrates how the outcome of the First World War has formed the modern world we live in today The First World War was the Great War for its leading participants In revisiting the events of 1914 1918 a century on Jeremy Black considers how we now look at the impact of the conflict across the globe and how it came to be World War I in our consciousness For millions both soldiers and civilians the conflict proved fatal The suffering and loss of the war provides much of its resonance and significance but this book seeks to throw light beyond this not least in asking how it ended in victory and defeat Casting aside the conventional narrative Jeremy Black returns to a vast range of original sources and investigates not only the key events of the war but its consequences in restructuring the old order As its significance has changed with time and not only with the loss of first hand testimony Black considers the struggle not only in its historical context but through its memorialisation today **China's**

Achilles' Heel Srikanth Thaliyakkattil, 2019-06-24 This book analyses Chinese discourse on Indian attitudes towards the Belt Road Initiative BRI and argues that the Indian discourse is becoming one of the biggest hurdles to China creating its own narrative about China's rise in Asia and beyond In doing so it spans across the themes of the power struggle between China and US China and India the Chinese perception of India China South Asia relations the China US India strategic triangle and the success and failures of BRI The first part of the book focuses on the Chinese thinking behind the launch of the BRI and addresses questions related to the purpose of this initiative and ways in which it will facilitate China's rise as a superpower Subsequently the book addresses how effective or ineffective India's challenge is and how it is negatively affecting China's BRI *From New Babylon to Eden* Bertrand Van Ruymbeke, 2025-10-02 A revealing account of the choices French

immigrants faced as they settled in South Carolina Winner of the National Huguenot Society's 2007 Book of the Year award *From New Babylon to Eden* traces the persecution of Huguenots in France and the eventual immigration of a small bloc of the French Calvinist population to proprietary South Carolina Placing the Carolina migration in the context of the larger Huguenot diaspora Van Ruymbeke proffers an account that challenges accepted history Describing their settlement as a process of acculturation and creolization rather than simply assimilation he contends that most of these French Calvinists sought to create their own churches but were thwarted by an Anglicized elite eager to dominate Anglo Carolinian society He also reveals that most members of the initial generation were only moderately prosperous and that it was their descendants who acquired the wealth often associated with lowcountry Huguenots A new foreword by Owen Stanwood and preface from the author consider the continuing significance of the book nearly twenty years after its original publication **Great Powers and Geopolitics** Aharon Klieman, 2015-04-02 This book presents the theoretical historical comparative political framework needed to fully grasp the truly dynamic nature of 21st century global affairs The author provides a realistic assessment of the shift from US predominance to a new mix of counterbalancing rival middle tier and assertive regional

powers while highlighting those geopolitical zones of contention most critical for future international stability The book will appeal to scholars and policy makers interested in understanding the contours of the emerging world order and in identifying its principal shapers and leading political actors *The Making of Japanese Manchuria, 1904-1932* Yoshihisa Tak Matsusaka, 2020-03-23 In this history of Japanese involvement in northeast China the author argues that Japan's military seizure of Manchuria in September 1931 was founded on three decades of infiltration of the area This incremental empire building and its effect on Japan are the focuses of this book The principal agency in the piecemeal growth of Japanese colonization was the South Manchurian Railway Company and by the mid 1920s Japan had a deeply entrenched presence in Manchuria and exercised a dominant economic and political influence over the area Japanese colonial expansion in Manchuria also loomed large in Japanese politics military policy economic development and foreign relations and deeply influenced many aspects of Japan's interwar history **Asia-Pacific Secondary States as Kingmakers** Richard J. Cook, Maximilian Ohle, Zhaoying Han, 2025-05-30 Focusing on the Asia Pacific region Cook Ohle and Han investigate the escalating strategic competition between China and the US They explore the dynamics of key regional secondary states caught in the middle namely Japan South Korea the Philippines and Vietnam emphasising their crucial role as potential kingmakers in the shifting balance of power China and the US are competing to win influence over these regional linchpins to advance their geopolitical ambitions and ultimately win the strategic competition Elucidating a power of the weak paradox this contribution examines the challenging choices faced by these secondary states as they navigate alignment pressures which influence the trajectory of the great power strategic competition Drawing upon a range of first hand government sources and regional perspectives the authors take the temperature of the China US strategic competition revealing the intricate influencing dynamics and perilous choices linchpins are being pushed to make that will determine the fate of the Asia Pacific This is a timely resource for researchers students scholars and politicians navigating the complex realm of international relations by providing a profound exploration of power struggles strategic choices and the often overlooked role of secondary states **America's Great-Power Opportunity** Ali Wyne, 2022-04-07 It has become axiomatic to contend that US foreign policy must adapt to an era of renewed great power competition The United States went on a quarter century strategic detour after the Cold War the argument goes basking in triumphalism and getting bogged down in the Middle East Now China and Russia are increasingly challenging its influence and undercutting the order it has led since 1945 How should it respond to these two formidable authoritarian powers In this timely intervention Ali Wyne offers the first detailed critique of great power competition as a foreign policy framework warning that it could render the United States defensive and reactive He exhorts Washington to find a middle ground between complacency and consternation selectively contesting Beijing and Moscow but not allowing their decisions to determine its own course Analyzing a resurgent China a disruptive Russia and a deepening Sino Russian entente Wyne explains how the United States can seize the great power opportunity at

hand to manage all three of those phenomena confidently while renewing itself at home and abroad Also available as an audiobook

Making War on the World Mark Shirk, 2022-03-01 The state bounds politics it constructs and enforces boundaries that separate what it controls from what lies outside its domain However states face a variety of threats that cross and challenge their geographical and conceptual boundaries Transnational violent actors that transcend these boundaries also defy the state's claims to political authority and legitimacy Mark Shirk examines historical and contemporary state responses to transnational violence to develop a new account of the making of global orders He considers a series of crises that plagued the state system in different eras golden age piracy in the eighteenth century anarchist propagandists of the deed at the turn of the twentieth and al Qaeda in recent years Shirk argues that states redraw conceptual boundaries such as between international and domestic to make sense of and defeat transnational threats In response to forms of political violence that challenged boundaries states developed creative responses that included new forms of control surveillance and rights As a result these responses gradually made and transformed the state and global order Shirk draws on extensive archival research and interviews with policy makers and experts and he explores the implications for understandings of state formation Combining rich detail and theoretical insight Making War on the World reveals the role of pirates anarchists and terrorists in shaping global order
