Making Of Eu Foreign Policy The Case Of Eastern Europe:

Making of EU Foreign Policy Karen E. Smith, 1999 The Making of EU Foreign Policy K. Smith, 2004-01-13 The Making of EU Foreign Policy argues that there has been a common European Union EU foreign policy towards six countries of Eastern Europe Bulgaria Czech Republic Hungary Poland Romania Slovakia and analyzes why the EU has agreed to the policy The objective of the EU's policy is to support the transformation of Eastern Europe and thus ensure security and stability The most important instrument that the EU has used to reach this objective has been the prospect of enlargement

An Introduction to European Foreign Policy Fraser Cameron, 2007-03-09 This book examines the development of the European Union's role in world politics its gradual rise to becoming an international actor and the implications for the EU and the wider world The SAGE Handbook of European Foreign Policy Knud Erik Jorgensen, Aasne Kalland Aarstad, Edith Drieskens, Katie Laatikainen, Ben Tonra, 2015-04-30 During the last two decades the study of European foreign policy has experienced remarkable growth presumably reflecting a more significant international role of the European Union The Union has significantly expanded its policy portfolio and though empty symbolic politics still exists the Union's international relations have become more substantial and its foreign policy more focused European foreign policy has become a dynamic policy area being adapted to changing challenges and environments such as the Arab Spring new emerging economies powers the crisis of multilateralism and much more The SAGE Handbook of European Foreign Policy Two Volume set is a major reference work for Foreign Policy Programmes around the world The Handbook is designed to be accessible to graduate and postgraduate students in a wide variety of disciplines across the humanities and social sciences Both volumes are structured to address areas of critical concern to scholars at the cutting edge of all major dimensions of foreign policy The volumes are composed of original chapters written specifically to the following themes Research traditions and historical experience Theoretical perspectives EU actors State actors Societal actors The politics of European foreign policy Bilateral relations Relations with multilateral institutions Individual policies Transnational challenges The Handbook will be an essential reference for both advanced students and scholars **European Foreign Policy and the Challenges of Balkan**

Accession Gergana Noutcheva, 2012 European Foreign Policy and the Challenges of Balkan Accession analyses the EU's influence in the Balkans It studies the compliance responses of the Balkan countries to the EU's pre accession conditions and how these responses have been affected by domestic views of the overall purpose of the EU's policy in the region The book offers an explanation of how the statehood of a would be EU member affects the policy and politics of conditionality at the EU level and the politics of compliance at domestic level The book will be The Formulation of EU Foreign Policy Nicola Chelotti, 2016-01-22 EU foreign and defence policy is largely formulated in the working parties and committees of the Council of the EU and the vast majority of decisions in this field are made by the national diplomats working in the around 35 groups of the CFSP CSDP Although the importance of these committees and their participants has been increasingly recognised we

still know relatively little about them Using an original database of 138 questionnaires and 37 interviews this book addresses this lack of knowledge studying what these committees do and how they negotiate and resolve issues It explores three key areas the formulation of the national position the identity of CFSP CSDP policy makers negotiation practices and outputs In doing so it provides an innovative observation point from which EU foreign policy can be analysed This book will be of key interest to scholars and students of EU foreign and defence policy external relations of the EU European integration and politics diplomacy and more broadly international relations *Contemporary European Foreign Policy* Walter

Carlsnaes, Helene Sjursen, Brian White, 2004-04-01 This major new book introduces and examines the latest developments in European foreign policy It provides a complete overview of the ways in which the very nature of foreign policy in Europe has changed and advances new insights into contemporary European foreign policy analysis The book is structured around three parts Part one provides a concise overview of the latest theories and concepts in this growing field of study and research Part two assembles and reviews a series of contemporary issue areas including security and defense economic foreign policy diplomacy national cooperation human rights and sovereignty Part three mirrors and builds on Part two by providing an applied case study to each of the preceding topics Throughout the book the authors address and incorporate both the national and European Union levels of foreign policy and explore the complex interactions between the two The result is a book that will be essential reading for all students and researchers seeking a deeper understanding of European foreign policy today and the wider implications for future foreign policy analysis in politics and international relations **New**

Approaches to EU Foreign Policy Maciej Wilga, Ireneusz Pawel Karolewski, 2014-06-05 EU foreign policy once existed in the form of the European Political Cooperation with only a limited political leverage and symbolic institutional underpinnings In recent years rapid changes have occurred including an expanding institutional apparatus increased responsibility and growing demand for action This book examines new approaches to the EU's foreign policy that address its rapidly changing character presenting the newest theoretical perspectives and dealing with novel empirical developments Rather than simply considering structural variations and changes in the agency of the EU it explores the new complexity in EU foreign policy The authors offer new theoretical perspectives and new empirical studies dealing among others with issues such as Power delegation to the Commission EU diplomacy Parliamentarisation and constitutionalisation Committees involvement in foreign policy process This book will be of interest to students and scholars of European politics European foreign policy and European integration *Turkey's European Future* Nathalie Tocci, 2011-09-01 A rapidly changing nation and a key player in

the Middle East Turkey has long been centrally important to both the United States and the European Union A major partner both of the EU and Turkey the US has also been the most ardent and committed supporter of closer ties between them Yet while Turkey's relations with the US and the EU have been intimately linked they have not proceeded along two parallel planes Nathalie Tocci tells the story of this dynamic triangular relationship exploring how and why the US has shaped the

course of relations among its allies An empirical study with strong policy relevance this volume draws on in depth interviews and official documents to provide a succinct overview of the issues and stakeholders Tocci argues that the Turkish situation can be viewed as a quintessential case study tackling broader questions about US foreign policy in the region as a whole

Civilian or Military Power? Helene Sjursen, 2013-09-13 This text critically examines the belief that the EU not only has an impact on the international system but also a normative civilian and civilizing power The contributors question whether this assertion fits with the empirical record or is merely based on anecdotal evidence and whether there is a theoretical basis for the expectation of a normative or civilizing power Moving the research agenda forward the book establishes criteria and assessment standards for examining the EU's international role and its putative normative dimension Such an endeavour is particularly important against the backdrop of recent developments in European security and defence The acquisition of military means or the EU's ambition to acquire such means might weaken at least the argument that the EU is a civilian power and could provoke a shift towards a policy more akin to traditional great powers This book was previously published as a special issue of the Journal of European Public Policy
