Making Of The Victorian Novelist Anxieties Of Authorship In The Mass Market:

Making of the Victorian Novelist Bradley Deane, 2013-10-15 This book examines a sequence of crises in nineteenth century print culture and offers an original narrative of what it meant to be a Victorian novelist Easily dismissed at the beginning of the century as hacks who pandered to the ignorant or indolent novelists by the end of Victoria's reign could be esteemed among the greatest of artists Between these extremes stretches a century of ideological contention between alternative representations of authorship Deane brings new attention in his account to the trends in publishing and the expanding market surrounding Victorian literature such as the new modes of production arguments over copyright legislation and revisions of the criteria of periodical criticism Combining literary sociology and close readings *The Making of the Victorian Novelist* offers an innovative history of the material pressures and rhetorical struggles that produced and ultimately shattered the Victorians' understanding of their great novelists

The Formation of the Victorian Literary Profession Richard Salmon, 2013-06-27 Richard Salmon provides an original account of the formation of the literary profession during the late Romantic and early Victorian periods Focusing on the representation of authors in narrative and iconographic texts including novels biographies sketches and portrait galleries Salmon traces the emergence of authorship as a new form of professional identity from the 1820s to the 1850s Many first generation Victorian writers including Carlyle Dickens Thackeray Martineau and Barrett Browning contributed to contemporary debates on the Dignity of Literature professional heroism and the cultural visibility of the man of letters This study combines a broad mapping of the early Victorian literary field with detailed readings of major texts The book argues that the key model of professional development within this period is embodied in the narrative form of literary apprenticeship which inspired such celebrated works as *David Copperfield* and *Aurora Leigh* and that its formative process is the disenchantment of the author

The Oxford Handbook of the Victorian Novel Lisa Rodensky, 2013-07-11 Much has been written about the Victorian novel and for good reason The cultural power it exerted and to some extent still exerts is beyond question *The Oxford Handbook of the Victorian Novel* contributes substantially to this thriving scholarly field by offering new approaches to familiar topics the novel and science the Victorian Bildungsmann as well as essays on topics often overlooked the novel and classics the novel and the OED the novel and allusion Manifesting the increasing interdisciplinarity of Victorian studies its essays situate the novel within a complex network of relations among for instance readers editors reviewers and the novelists themselves or among different cultural pressures the religious the commercial the legal The handbook's essays also build on recent bibliographic work of remarkable scope and detail responding to the growing attention to print culture With a detailed introduction and 36 newly commissioned chapters by leading and emerging scholars beginning with Peter Garside's examination of the early nineteenth century novel and ending with two essays proposing the last Victorian novel the handbook attends to the major themes in Victorian scholarship while at the same time creating new possibilities for further research Balancing breadth and depth the

clearly written nonjargon laden essays provide readers with overviews as well as original scholarship an approach which will serve advanced undergraduates graduate students and established scholars As the Victorians get further away from us our versions of their culture and its novel inevitably change this Handbook offers fresh explorations of the novel that teach us about this genre its culture and by extension our own

Reading Victorian Schoolrooms Elizabeth Gargano, 2013-10-31 Reading Victorian Schoolrooms examines the numerous schoolroom scenes in nineteenth century novels during the fraught era of the Victorian education debates As Gargano argues the fiction of mainstream and children's writers such as Dickens Bront and Carroll reflected widespread Victorian anxieties about the rapid institutionalization of education and the shrinking realm of domestic instruction As schools increasingly mapped out a schema of time schedules standardized grades or forms separate disciplines and hierarchical architectural spaces childhood development also came to be seen as regularized and standardized according to clear developmental categories Yet Dickens Bront and others did not simply critique or satirize the standardization of school experience Instead most portrayed the schoolroom as an unstable site incorporating both institutional and domestic space Drawing on the bildungsroman's traditional celebration of an individualized experiential education numerous novels of school life strove to present the novel itself as a form of domestic education in contrast to the rigors of institutional instruction By positioning the novel as a form of domestic education currently under attack these novelists sought to affirm its value as a form of protest within an increasingly institutionalized society The figure of the child as an emblem of beleaguered innocence thus became central to the Victorian fictive project

Writing Bestsellers Kim Wilkins, Lisa Bennett, 2021-10-21 While the term bestseller explicitly relates books to sales commercially successful books are also products of individual creative work This Element presents a new perspective on the relationship between art and the market with particular reference to bestselling writers and books We examine some existing perspectives on art's relationship to the marketplace to trouble persistent binaries that see the two in opposition we break down the monolith of the marketplace by thinking of it as made up of a range of invested non hostile participants such as publishing personnel and readers we articulate the material dimensions of creative writing in the industry through the words of bestselling writers themselves and we examine how the existence of bestselling books and writers in the world of

letters bears enormous influence on the industry and on the practice of other writers

Companion to Nineteenth-Century British Literature and Science John Holmes, Sharon Ruston, 2017-05-18 Tracing the continuities and trends in the complex relationship between literature and science in the long nineteenth century this companion provides scholars with a comprehensive authoritative and up to date foundation for research in this field In intellectual material and social terms the transformation undergone by Western culture over the period was unprecedented Many of these changes were grounded in the growth of science Yet science was not a cultural monolith then any more than it is now and its development was shaped by competing world views To cover the full range of literary engagements with science in the nineteenth century this companion consists of twenty seven chapters by experts in the field which explore crucial social and intellectual contexts for the interactions between literature and science how science affected different genres of writing and the importance of individual scientific disciplines and concepts within literary culture Each chapter has its own extensive bibliography The volume as a whole is rounded out with a synoptic introduction by the editors and an afterword by the eminent historian of nineteenth century science Bernard Lightman

The Surplus of Culture Ewa

Borkowska, Tomasz Burzyński, 2011-07-12 This multifaceted volume presents the elusive surplus of culture in the spotlight of theory and academic practice Despite its overtly economic implications the concept alludes to the added value of sense common sense and nonsense which is represented as languages of irony irrationality and absurdity potentially subverting traditional and mainstream regimes of culture Consequently the moment of surplus is inherent in critical interpretation in which supposedly well entrenched notions suddenly reveal their implicitly shattering and subversive nature The surplus of culture dwells at the risky intersection of untamed interpretation and tradition It is the space of the third in which literary canons are re visited language reveals its hidden political agendas the Orient reclaims its own cognitive perspective and established structures of cognition are questioned in the tragic comic gesture of insight The volume is a must for scholars and researchers in the fields of cultural studies literature and arts as well as literary theory
