Making Ireland British 1580 1650:

Making Ireland British 1580-1650 Nicholas Canny, 2001-05-03 This is the first comprehensive study of all the plantations that were attempted in Ireland during the years 1580 1650 It examines the arguments advanced by successive political figures for a plantation policy and the responses which this policy elicited from different segments of the population in Ireland The book opens with an analysis of the complete works of Edmund Spenser who was the most articulate ideologue for plantation The author argues that all subsequent advocates of plantation ranging from King James VI and I to Strafford to Oliver Cromwell were guided by Spenser's opinions and that discrepancies between plantation in theory and practice were measured against this yardstick The book culminates with a close analysis of the 1641 insurrection throughout Ireland which it is argued steered Cromwell to engage in one last effort to make Ireland British *Making Ireland British, 1580-1650*

Nicholas P. Canny, 2001 This pioneering study is the first to examine all the English settlements attempted in Ireland during the years 1580 1650 The author looks at the arguments in favour of a plantation policy and Irish responses to it in practice He places what happened in Ireland in the context of events in England Scotland Continental Europe and England's Atlantic colonies From back cover

British Empire and the Literature of Rebellion

Sheshalatha Reddy, 2017-10-14 This book examines imperial and nationalist discourses surrounding three contemporaneous and unsuccessful mid nineteenth century colonial uprisings against the British Empire the Sepoy Rebellion 1857 in India the Morant Bay Rebellion 1865 in Jamaica and the Fenian Rebellion 1867 in Ireland In reading these three mid century rebellions as flashpoints for the varying yet parallel attempts by imperialist colonialists nationalists and socialists to transform the oppressed colonized worker the subjected laborer into one whose identity is created and limited by labor a laboring subject this book also tracks varying modes of resistance to those attempts in all three colonies In drawing from a range of historical literary and visual sources outside the borders of the Anglophone literary canon this book contends that these texts not only serve as points of engagements with the rebellions but also constitute an archive of oppression and resistance

British Protestant Missions and the Conversion of Europe, 1600-1900 Simone Maghenzani, Stefano Villani, 2020-09-14 This book is the first account of British Protestant conversion initiatives directed towards continental Europe between 1600 and 1900 Continental Europe was considered a missionary land another periphery of the world whose centre was imperial Britain British missions to Europe were informed by religious experiments in America Africa and Asia rendering these offensives against Europe a true form of imaginary colonialism British Protestant missionaries often understood themselves to be at the forefront of a civilising project directed at Catholics and sometimes even at other Protestants Their mission was further reinforced by Britain becoming a land of compassionate refuge for European dissenters and exiles This book engages with the myth of International Protestantism questioning its early origins and its narrative of transnational belonging while also interrogating Britain as an imagined Protestant land of hope and glory In the history of western Christianities converting Europe had a role that has not been adequately investigated This is the story of the attempted and ultimately failed effort to convert a continent

Social and Economic Networks in Early Massachusetts Marsha L. Hamilton, 2015-09-10 The seventeenth century saw an influx of immigrants to the heavily Puritan Massachusetts Bay Colony This book redefines the role that non Puritans and non English immigrants played in the social and economic development of Massachusetts Marsha Hamilton shows how non Puritan English Scots and Irish immigrants along with Channel Islanders Huguenots and others changed the social and economic dynamic of the colony A chronic labor shortage in early Massachusetts allowed many non Puritans to establish themselves in the colony providing a foundation upon which later immigrants built transatlantic economic networks Scholars of the era have concluded that these strangers assimilated into the Puritan structure and had little influence on colonial development however through an in depth examination of each group s activity in local affairs Marsha Hamilton asserts a much different conclusion By mining court town and company records letters and public documents Hamilton uncovers the impact that these immigrants had on the colony not only by adding to the diversity and complexity of society but also by developing strong economic networks that helped bring the Bay Colony into the wider Atlantic world These groups opened up important mercantile networks between

their own homelands and allies and by creating their own communities within larger Puritan networks they helped create the provincial identity that led the colony into the eighteenth century

Inner empire Daniel Maudlin, Alex Bremner, 2024-08-06 Inner Empire explores the impact of imperial cultures on the landscapes and urban environments of the British Isles from the sixteenth century through to the twentieth century It asserts that Britain's four hundred year entanglement with global empire left its mark upon the British Isles as much as it did the wider world Buildings stood as one of the most conspicuous manifestations of the myriad relationships that Britain maintained with the theory and practice of colonialism in its modern history Divided into two main sections the volume's content considers internal

colonisation and its infrastructures of control order and suppression alongside wider relationships between architecture the imperial economy and cultural identity Taken together the essays in this volume present for the first time a coherent analysis of the British Isles as an imperial setting understood through its buildings spaces and infrastructure

The Universities of Scotland, Ireland, and New England During the British Civil Wars Salvatore Cipriano, 2024-12-17 Highlights the contested nature of higher education in the British Atlantic world between the Reformation and the Enlightenment Universities in the early modern period were powerful institutions in the formation of societies utilised as both tools to legitimise and perpetuate the power of states and archetypes upon which to model an idealised society that might maintain social order In an era of upheaval and civil war rival authorities clashed in the universities where the conflicts and complexities of early modern state formation were regularly laid bare The encroachment of the Stuart monarchy beyond England into Scottish and Irish academe stimulated broader resistance from Scottish and Irish authorities while prompting the founding of institutions of higher learning among expatriate communities beyond the British Isles especially in New England In these spaces universities were viewed as institutional bulwarks against external intrusions that promoted localised competing visions of the godly church and state amid the conflicts and complexities of early modern state formation This book provides new insight into the contested nature of higher education in the British Atlantic world between the Reformation and the Enlightenment and corrects outmoded notions about the universities purported insularity and intellectual poverty Rather the image that emerges of these universities is one of genuine academies of strategic importance employed to serve the agendas of ruling powers in Scotland Ireland and New England Trinity College Dublin Harvard College and the Scottish universities existed on the frontiers of a deteriorating composite monarchy with a centralizing impulse becoming battle grounds of the mid seventeenth century s intellectual political and religious conflicts SALVATORE CIPRIANO is Associate Director of Career Coaching and Education Stanford University He holds a Ph D in Early Modern European History from Fordham University

The Invention of Improvement Paul Slack, 2015 The idea of improvement gradual and cumulative betterment was something new in 17th century England It became commonplace to assert that improvements in agriculture industry commerce and social welfare would bring infinite prosperity and happiness The word improvement was itself new and since it had no equivalent in other languages it gave the English a distinctive culture of improvement which they took with them to Ireland Scotland and America Slack explains the political intellectual and economic circumstances which allowed notions of improvement to take root

The British Empire Philippa Levine, 2013-11-04 This is a broad survey of the history of the British Empire from its beginnings to its demise It offers a comprehensive analysis not just of political events and territorial conquests but paints a picture of what life was like under colonial rule both for those who ruled and for those whose countries came under British authority There has been a lively debate in recent years about whether empires generally are good or bad things and the British Empire has been very much at

the centre of that debate with a number of voices arguing that it was a kinder gentler Empire than its rivals This book speaks specifically to that debate and also to a second and equally vigorous debate about whether anyone in Britain actually cared about the possession of an Empire

The British Seaborne Empire Jeremy Black, Professor Jeremy Black, 2004-01-01

Britain's seaborne tradition is used to throw light on the British themselves the people with whom they came into contact and the British perception of empire The oceans and their shores rather than the mysterious interiors of continents certainly dominated the English perception of the transoceanic world in the sixteenth seventeenth and eighteenth centuries climaxing in the fascination with the Pacific in the age of Captain Cook and continuing into the nineteenth century with Franklin in the Arctic and Ross in the Antarctic The oceans offered much more than fascination In England from the late sixteenth century maritime conflict and imperial strength were seen as important to national morale and reputation and without it there would have been no empire or at least not in the form it actually took

BOOK JACKET

Envisioning an English Empire Robert Appelbaum, John Wood Sweet, 2012-05-23

Envisioning an English Empire brings together leading historians and literary scholars to reframe our understanding of the history of Jamestown and the literature of empire that emerged from it The founding of an English colony at Jamestown in 1607 was no isolated incident It was one event among many in the long development of the North Atlantic world Ireland Spain Morocco West Africa Turkey and the Native federations of North America all played a role alongside the Virginia Company in London and English settlers on the ground English proponents of empire responded as much to fears of Spanish ambitions fantasies about discovering gold and dreams of easily dominating the region's Natives as they did to the grim lessons of earlier failed outposts in North America Developments in trade and technology in diplomatic relations and ideology in agricultural practices and property relations were as crucial as the self consciously combative adventurers who initially set sail for the Chesapeake The collection begins by exploring the initial encounters between the Jamestown settlers and the Powhatan Indians and the relations of both these groups with London It goes on to examine the international context that defined English colonialism in this period relations with Spain the Turks North Africa and Ireland Finally it turns to the ways both settlers and Natives were transformed over the course of the seventeenth century considering conflicts and exchanges over food property slavery and colonial identity What results is a multifaceted view of the history of Jamestown up to the time of Bacon's Rebellion and its aftermath The writings of Captain John Smith the experience of Powhatans in London the letters home of a disappointed indentured servant the Moroccans Turks and Indians of the English stage the ethnographic texts of early explorers and many other phenomena all come into focus as examples of the envisioning of a nascent empire and the Atlantic world in which it found a hold
