Making Of Molly March:

Making Transit Fun! Darrin Nordahl, 2012-04-13 Why do people in Stockholm prefer to take the stairs over the escalator Why do Londoners enjoy hanging out at bus stops How do carmakers convince us to buy gas guzzling environmentally damaging and wallet draining machines It's called the fun theory What Darrin Nordahl illustrates in this delightful book is that transit can be just as inviting exciting and even seductive as the automobile if designed with the passenger experience in mind In Making Transit Fun Nordahl shows that with the help of architects urban designers graphic artists industrial engineers marketing experts and even fashion designers we can lure people out of their automobiles and toward healthier more sustainable methods of transportation This accessible Essential focuses on the possibilities for making public transit cycling and walking more appealing to the motorist In each section Nordahl demonstrates how the transit stigma can be overcome with innovative design From the aesthetics of buses to segregated bike lanes and pedestrian priority streets Nordahl showcases examples from around the world that excite the heart and bring an easy smile

1877 Michael A. Bellesiles, 2010-08-10 A powerful examination of a nation trying to make sense of the complex changes and challenges of the post Civil War era Carol Berkin author of A Brilliant Solution Inventing the American Constitution In 1877 a decade after the Civil War not only was the United States gripped by a deep depression but the country was also in the throes of nearly unimaginable violence and upheaval marking the end of the brief period known as Reconstruction and reestablishing white rule across the South In the wake of the contested presidential election of 1876 white supremacist mobs swept across the South killing and driving out the last of the Reconstruction state governments A strike involving millions of railroad workers turned violent as it spread from coast to coast and for a moment seemed close to toppling the nation's economic structure Celebrated historian Michael A. Bellesiles reveals that the fires of that fated year also fueled a hothouse of cultural and intellectual innovation He relates the story of 1877 not just through dramatic events but also through the lives of famous and little known Americans alike A superb and troubling book about the soul of Modern America William Devereaux director of the Huntington-USC Institute on California and the West A bold insightful book richly researched and fast paced Bellesiles vividly portrays on a single canvas the violent confrontations in 1877 Alfred F. Young coeditor of Revolutionary Founders Rebels Radicals and Reformers in the Making of the Nation A wonderful read that is sure to appeal to those interested in the challenges of creating a post Civil War society Choice
